Subject Index

A23187
calcium ionophore, acrosome reaction, fertilization rates, correlation, teratozoospermia 905
Abortion
curettage for incomplete abortion, Asherman's syndrome, intrauterine adhesions, prevalence 3347
elective multifetal reduction, twins, clinical experience 2301
induced abortion, effective regimen, oral mifepristone + vaginal misoprostol, report of 2000 consecutive cases 2962
induced abortion, teenage pregnancies, subsequent preterm delivery, retrospective case–control study 758
IVF, spontaneous abortion after first embryo transfer, antiphospholipid antibodies, clinical study 1180
methotrexate, effect on trophoblast proliferation, decidua, large granular lymphocytes, immunohistochemistry 1063
pregnancy termination, motivation, IVF, fetal anomalies 2377
pregnancy termination, non-surgical methods, opinion 2379
recurrent abortion, septate uterus, hysteroscopy, resection, reproductive outcomes 1188
recurrent late spontaneous abortion, cervical incompetence, unsuccessful cerclage, HLA-DR typing, clinical study 1079
recurrent spontaneous abortion, anticardiolipin antibodies, b_2 glycoprotein I, letters 2033
recurrent spontaneous abortion, chromosomal abnormalities, comparative genomic hybridization, clinical study 805
recurrent spontaneous abortion, HCG, placental protein 14, ultrasonography, value in pregnancy outcome prediction 3525
recurrent spontaneous abortion, HLA class II alleles, antiphospholipid antibodies 3326
recurrent spontaneous abortion, luteal phase defect, variant LH 2699
recurrent spontaneous abortion, management guidelines, counselling 478
recurrent spontaneous abortion, massive i.v. Ig treatment, clinical efficacy 2620
recurrent spontaneous abortion, placental protein 14, CA-125, uterine flushings, correlation with pregnancy outcome 3197
spontaneous abortion, *Chlamydia trachomatis*, HSP60, clinical evaluation 1175
spontaneous abortion, decidua, lymphocytes, T cell populations, immunohistochemistry 44
spontaneous abortion, granulosa cells, progesterone, IVF patients, *in vivo*/*in vitro* 290
spontaneous abortion, IVF, smoking, males, detrimental to pregnancy outcomes, retrospective cohort study 1506
spontaneous abortion, stress, psychological evaluation, IVF, reproductive outcomes 2296
spontaneous abortion risk, coffee, first trimester, case-controlled study 2286
spontaneous abortion risk, human leukocyte antigens, parental tissue matching, Hutterites, 10 year prospective study 33
spontaneous recurrent abortion, activated autologous blood therapy, i.m. injections, detectable immune effects 491
spontaneous recurrent abortion, mid-trimester loss, clinical population study, screening protocol appraisal, antiphospholipid antibodies 1975
spontaneous/induced abortions, previous abortions, pelvis, endometriosis, risk, letters 3283
Accessory gland production
semen collection, rectal probe electroejaculation, penile vibratory stimulation, sperm number, squirrel monkey 2527
Acetylcholine
uterine artery, dilation/relaxation *in vitro*, pregnancy, nitric oxide 1361
Acridine orange
DNA status, IVF, prediction of outcomes, logistic regression model, spermatozoa, morphology, strict criteria 1235
Acromegaly
leiomyomata, growth hormone, clinical relationship 1945
Acrosin
hamster egg penetration test, TEST-yolk buffer, semen analysis, diagnostic accuracy, acrosin activity 2115
Acrosome
percentages intact, glass wool filtration, Percoll gradient centrifugation, ultrastructure 2506
Acrosome reaction
calcium ionophore, A23187, fertilization rates, correlation, teratozoospermia 905
co-trimoxazole, erythromycin, amoxycillin, tetracycline, chloroquine 1878
cryopreservation, pentoxifylline, ionophore, motility post-thaw 3384
culture media, IVF, protein-free SMART1â 2579
enhancement, phosphodiesterase inhibitors 1248
ionophore induction, zona-free hamster egg penetration test, various insemination concentrations, IVF, predictive value 624
IVF, fertilization rates, light scattering analysis, flow cytometry 2568
spermatozoa, ejaculated, angiotensin-converting enzyme, ultrastructural localization, immunofluorescence 604
vitamin C, vitamin E, infertility, debate 2984
Activated autologous blood therapy
i.m. injections, spontaneous recurrent abortion, detectable immune effects 491
Activated protein C
APC resistance, pregnancy, antiphospholipid antibodies, clinical study 2633
Activins
activin A, seminal plasma, testis, prostate, follistatin, specific assays, immunohistochemistry 3319
activin B, ovulation induction, IVF, pregnancy, serum immunoenzymometric assay, potential uses 841
endometrium, menstrual cycle, inhibin, immunohistochemistry 3469
first trimester, maternal serum, amniotic fluid 2624
follicular fluid, inhibins, polycystic ovary syndrome 2693
peritoneal fluid, menstrual cycle, endometriosis 2606
pregnancy, inhibin, pro-a C, follistatin, maternal serum concentrations, longitudinal study 3530
Addison's disease
adrenoleukodystrophy (ALD), adult cerebral ALD, spermatozoa, morphological alterations, azoospermia, case report 2474
Adenomyosis
apoptosis, *bcl-2*, endometrium 3496
diagnosis, transvaginal ultrasonography, uterine needle biopsy, prospective comparison 2884
endometrium, stromal vascularization, morphometry, retrospective clinical study 715
intraepithelial leukocytes, characterization and quantification, eutopic versus ectopic endometrium, menstrual cycle 2910
Adhesion force measurement
trophoblast, uterus, epithelium, implantation 3211
Adhesion molecules
ovary, cancer, cystic tumours, soluble adhesion molecules in cyst fluid and serum, intercellular adhesion molecule-1, E-cadherin, CD44 2831
Adhesions
Asherman's syndrome, intrauterine adhesions, prevalence, removal of placental remnants, curettage for incomplete abortion 3347
endometriosis, endometrium–amnion model *in vitro*, electron microscopy 2275
haemostasis, electrodesiccation, thrombin, comparative study, rabbit 1493
monocyte chemotactic protein-1, peritoneal fluid, pelvis, endometriosis 1194
myomectomy, laparoscopy, risk of adhesion formation, second look clinical study 2102
ovary, IVF, HCG, follicular fluid, diffusion rates 2072
pelvis, diagnosis, ultrasonography, transvaginal, laparoscopy, prospective comparison 330
peritoneum, lazaroids, steroidal/non-steroidal, i.p. administration 2443
prevention, aspirin, low dose versus high dose aspirin, thromboxane, prostacyclin, rabbit 1486
prevention gel, ferric hyaluronate, peritoneal surgery, randomized placebo-controlled study 1480
Adipose tissue
sympathetic nervous system, presynaptic norepinephrine inhibition, leptin, secretion, effects in normal weight subjects 822
Adnexal masses
ovary, frozen section diagnosis, suspected malignancy, laparoscopy, clinical study 324

© European Society of Human Reproduction and Embryology

Adnexal torsion
ischaemia, management, reperfusion, free radical scavengers, follow-up study, rats 2823
Adolescence
menstrual cycle, gynaecological age, oligomenorrhoea, weight, chronic non-specific lung disease, cross-sectional population study 2252
Adrenal
ovulation induction, HMG versus GnRH agonist + HMG, follicular phase, progesterone, origin of serum rise, dexamethasone 9
pregnancy, dexamethasone, androgens, oestradiol, maternal plasma steroid concentrations, baboon 2282
progesterone, pre-ovulatory rise, GnRH agonist, HMG, ovary, letters 2657
progesterone, pregnanediol glucuronide, excretion, premature ovarian failure, pituitary down-regulation, leuprolide acetate 2061
Adrenoleukodystrophy (ALD)
adult cerebral ALD, spermatozoa, morphological alterations, azoospermia, case report 2474
Adrenomyeloneuropathy (AMN)
adrenoleukodystrophy (ALD), adult cerebral ALD, spermatozoa, morphological alterations, azoospermia, case report 2474
Age
delayed parenthood, effects on offspring, genetic diseases, mitochondrial DNA 2371
donor insemination, donor age, aneuploidy, frequency, chromosomes 1,13,21, FISH 2489
gynaecological age, adolescence, oligomenorrhoea, weight, chronic non-specific lung disease, cross-sectional population study 2252
human postmenopausal serum, ovary, cultured veins, intimal hyperplasia, reduced by oestrogen 1449
ICSI, female age > 39 years, embryo quality, number of embryos replaced, clinical outcomes 884
IVF, maternal age, assisted hatching, evaluation, prospective randomized double-blind study, implantation/pregnancy rates 409
male/female age, intrauterine insemination, sequential clomiphene citrate/HMG treatment, previous CC/IUI failure, pregnancy rates 2110
maternal age, birth order, sex ratio, grand grand multiparous women 2323
maternal age, donor oocytes, >35 years of age, meiosis, non-disjunction, clinical study 154
maternal age, IVF, cumulative pregnancy rates, first cycle results, predictive value 403
maternal age, IVF, poor prognosis patients, assisted hatching, pregnancy rates 1331
maternal age, IVF, unfertilized oocytes, chromosome abnormalities, fertilization rate 419
maternal age, paternal age, ICSI, fertilization/pregnancy rates, retrospective study 334
maternal age, trisomy, non-disjunction, origin and mechanism 313
menopause, LH surge, oestrogen, progesterone 852
menopause, ovarian failure, FSH, inhibin A, sheep 3016
oocytes, ageing *in vitro*, dithiothreitol, oocyte/conceptus viability *in vitro*, antioxidants, mouse 381
paternal age, 60 year old father, mentally retarded child, complex chromosomal rearrangement, FISH, case report 1801
paternal age, behaviour of progeny, spontaneous/learning behaviour, rat 55
paternal age, spermatozoa, aneuploidy, morphology, fertile/infertile, in-situ hybridization 3406
postmenopausal women, donor oocytes, embryo transfer, implantation window, duration of progesterone therapy, pregnancy rates 720
postmenopausal women, hormone replacement therapy, cardiovascular function, prospective study 2399
postmenopausal women, hormone replacement therapy, tibolone, continuous combined oestrogen plus progesterone, prospective randomized trial, morphological and biochemical responses CA125, placental protein 14 2261
severe OHSS, prevention, withholding gonadotrophins, clinical study 1157
sex ratio, variation, large sibships, maternal age, paternal age, letters 1412
sperm chromatin structure assay, flow cytometry, epidemiology, smoking, sexual abstinence, evaluation 2495
women > 35 years, menstrual cycle, early follicular phase, FSH, inhibins, cycle characteristics 1442
women's age of marriage, fecundability, seasonality, cohort study 3520
Albumin
albumin column, spermatozoa, sex preselection, FISH, clinical experience 146
antioxidants, spermatozoa, DNA damage, NADPH, motility 1429
severe OHSS, intravenous, opinion 3306
Alcohol consumption
semen analysis, WHO criteria, spermatozoa, morphology 3394
Allergy
HMG, contaminants, side-effects, lymphocytes, interleukins 2430
penicillin, intrauterine insemination, case report 3368
Alloimmunity
implantation, maternal–fetal interactions, invertebrates, evolution, letter 503
maternal–fetal interactions, transplantation, invertebrates, chimerism, evolution, opinion 455
Aluminium
aluminium industry workers, fertility, heat, magnetic fields, demographic analysis 2016
seminal plasma, spermatozoa, motility, survey of Finnish men 115
Amenorrhoea
antiprogestin, ZK 137 316, rhesus monkey 259
Amino acids
blastocysts, culture medium, glycolysis, mouse 991
preimplantation embryos, intracellular pH, buffer system, mouse 3441
Amniocentesis
ICSI, chorionic villous sampling, obstetric outcomes 2958
Amnion
adhesions, endometriosis, endometrium–amnion model *in vitro*, electron microscopy 2275
amniotic band syndrome, first trimester diagnosis, ultrasonography, fetoscopy, aetiopathology, case report 2966
Amnioreduction
twin–twin transfusion syndrome, monochorial placenta, efficacy, vascular anatomy 1709
Amniotic fluid
amniotic fluid volume, monochorionic placenta, vascular anatomy, fetal growth, amniotic fluid volume, twin–twin transfusion syndrome 2933
fentanyl, analgesia, placenta, first trimester, coelomic fluid 2317
first trimester, activins, follistatin, inhibins 2624
first trimester, extra-embryonic coelom, IL-8, monocyte chemotactic peptide-1, differential concentrations 2292
placental isoferritin, first trimester, maternal serum, coelomic fluid 1044
Amoxycillin
spermatozoa, motility, acrosome reaction 1878
Ampullary cells
co-culture, oocytes, maturation *in vitro*, fertilization/hatching rates 1916
Anaesthesia
appendicectomy, conscious pain mapping, local anaesthesia, microlaparoscopy, case reports 588
assisted reproductive techniques, propofol, general anaesthesia vs paracervical block, fertilization rates, embryo development 2456
percutaneous epididymal sperm aspiration, testicular sperm aspiration, local anaesthesia, efficacy, clinical study 646
propofol, IVF, toxicity, oocytes, preimplantation embryos, mouse 430
Analgesia
fentanyl, placenta, first trimester, amniotic fluid, coelomic fluid 2317
Androgens
androgen insensitivity syndrome, orchidectomy, hormone replacement therapy, oestrogen, bone mineral density 2816
antiandrogens, polycystic ovary syndrome, insulin resistance, hirsutism, bone mineral density, clinical trial 2703
epidermal growth factor, regulation of receptor *in vitro*, endometrium, testosterone, polycystic ovary syndrome, endometrial thickness 2585
granulosa–luteal cells, oestradiol, secretion, recombinant FSH, testosterone, androstenedione 1455
maternal serum values, pregnancy, cycle of conception, artificial insemination, controlled study, testosterone, androstenedione 460
pregnancy, dexamethasone, oestradiol, maternal plasma steroid concentrations, baboon 2282
serum concentrations, polycystic ovary syndrome, ovary, increased stromal volume, 3-D ultrasound 1437
sex differentiation, testis, descent, cranial suspensory ligament, rat 1272
Andrology
computer-assisted semen analysis, ESHRE Andrology Special Interest Group, guidelines 142
current state of clinical andrology, importance of urology, letter 2036

infertility, male idiopathic, rFSH treatment, randomized placebo-controlled trial 596
role in assisted reproduction, need for clinical andrologists, debate 253
Androstenedione
granulosa–luteal cells, oestradiol, secretion, recombinant FSH 1455
maternal serum values, pregnancy, cycle of conception, artificial insemination, controlled study 460
polycystic ovary syndrome, hormone profile, utero-ovarian blood flow, GnRH agonist, IVF 815
Anejaculation
electroejaculation, ICSI, IVF, clinical experience 1854
idiopathic, electroejaculation, previous microsurgical vas aspiration, IVF, ICSI, case report 370
Aneuploidy
blastocysts, inner cell mass, mosaicism, no selection for euploidy, FISH 3151
donor insemination, donor age, frequency, chromosomes 1,13,21, FISH 2489
first polar body, chromosome analysis, oocytes, hamster/human 583
granulosa luteal cells, intrafollicular hormone concentrations, IVF 2679
preimplantation genetic diagnosis, attitudes, Sicily 1936
spermatozoa, chromosomes 13 and 21, infertile men, oligozoospermia, teratozoospermia 2787
spermatozoa, morphology, paternal age, fertile/infertile, in-situ hybridization 3406
triploidy, ovarian hyperstimulation syndrome, spontaneous pregnancy, vascular endothelial growth factor, case report 2082
trisomy, non-disjunction, origin and mechanism, maternal age 313
trisomy 21, paternal origin, asthenoteratozoospermia, ICSI, spontaneous abortion, case report 3345
Angiogenesis
corpus luteum, endothelial cells, IGFBP-1, marmoset 2180
endometriosis, integrin $a_v b_3$, vascular expression, immunohistochemistry 1030
endometrium, adenomyosis, stromal vascularization, morphometry, retrospective clinical study 715
folliculogenesis, cyclic vascular changes, quantification, vascular endothelial growth factor, intercellular adhesion molecule-1, immunohistochemistry 953
vascular endothelial growth factor, endometriosis, red/black lesions, clinical study 1686
Angiogenin
ovarian hyperstimulation syndrome, ascites, peritoneal fluid, serum 2068
Angiotensin-converting enzyme
spermatozoa, ejaculated, ultrastructural localization, immunofluorescence, acrosome reaction 604
Anonymity
donor gametes, ethics, legislation, donor gametes 3268
donor gametes, Human Fertilisation and Embryology Authority, questionnaire on treatment centre information sharing policy 3274
donor oocytes, anonymous donors, demographic survey 2762
Anovulation
antiprogestin, ZK 137 316, rhesus monkey 259
donor oocytes, oligoasthenoteratozoospermia, ICSI, shared egg donation programme 2158
ovulation induction, recombinant FSH, chronic low-dose regimen, comparative prospective study 2688
polycystic ovary syndrome, granulosa cells, progesterone, IVF patients, *in vivo/in vitro* 290
Antiandrogens
polycystic ovary syndrome, insulin resistance, hirsutism, bone mineral density, clinical trial 2703
Antibiotics
penicillin, allergy, intrauterine insemination, case report 3368
spermatozoa, motility, acrosome reaction, co-trimoxazole, erythromycin, amoxycillin, tetracycline, chloraquine 1878
Anticardiolipin antibodies
b_2 glycoprotein I, recurrent spontaneous abortion, letters 2033
uterine artery, pulsatility index, unexplained infertility 3487
Antioxidants
albumin, spermatozoa, DNA damage, NADPH, motility 1429
assisted reproductive techniques, spermatozoa, oocytes, embryos, future research, debate 1415
dithiothreitol, oocytes, ageing *in vitro*, oocyte/conceptus viability *in vitro*, mouse 381
glutathione, seminal plasma, spermatozoa, decreased intracellular concentrations, infertility 353
spermatozoa, DNA fragmentation, reactive oxygen species, antioxidant pretreatment, TUNEL assay 896
spermatozoa, supplementation, Percoll, ascorbic acid, a-tocopherol, urate, DNA 1240
Antiphospholipid antibodies
IVF, spontaneous abortion after first embryo transfer, clinical study 1180
pregnancy, activated protein C, APC resistance, clinical study 2633
recurrent spontaneous abortion, HLA class II alleles 3326
spontaneous recurrent abortion, mid-trimester loss, clinical population study, screening protocol appraisal 1975
Antiprogestins
contraception, mifepristone, long-term low dose, menstrual cycle, controlled trial, effects on reproductive system 793
mifepristone, luteal phase, prostaglandin analogue/inhibitor, endometrium, histometric effects, rhesus monkey 1047
ZK 137 316, chronic low-dose regimen, contraception, rhesus monkey 2132
ZK 137 316, endometrium, antiproliferative action, histology, rhesus monkey 269
ZK 137 316, menstrual cycle, anovulation, amenorrhoea, rhesus monkey 259
Antisperm antibodies
immunology, diagnosis, management, assisted reproductive techniques, survey by questionnaire 3363
semen, large granular lymphocytes, increased numbers, flow cytometry 296
Aorta
vascular resistance, nitric oxide, pregnancy, gestational age, rat 214
Apolipoprotein-B
HCL-2 monoclonal antibody, granulosa–luteal cells, low density lipoprotein uptake, immunohistochemistry 936, 944
Apoptosis
bcl-2, endometrium, endometriosis, adenomyosis, menstrual cycle 3496
endometrium, receptivity, glandular epithelium, bcl-2 protein 3177
oocytes, DNA, strand breaks, annexin V staining, TUNEL staining, mouse/human 1317
placenta, early placental bed, discrimination from necrosis, in-situ DNA ligation, immunocytochemistry 3511
preimplantation embryos, fragmentation, reactive oxygen species, hydrogen peroxide, IVF 998
Appendicectomy
conscious pain mapping, local anaesthesia, microlaparoscopy, case reports 588
Arginine
menopause, body weight, somatotropic axis, growth hormone, insulin-like growth factors, obesity, pre-/post-menopausal women 279
Arteries
ovarian hyperstimulation syndrome, peripheral arteriolar dilatation, renin, sodium retention 2718
Artificial insemination by husband
unexplained infertility, endometriosis, clinical comparison of outcomes 2602
Ascites
chylous ascites, presacral neurectomy, dysmenorrhoea, management, case reports 880
ovarian hyperstimulation syndrome, paracentesis, uterus, blood flow, pregnancy outcomes 2077
peritoneal fluid, angiogenin, ovarian hyperstimulation syndrome 2068
Ascorbic acid
spermatozoa, DNA, supplementation, Percoll, a-tocopherol, urate, protection from X-irradiation 1240
Asherman's syndrome
intrauterine adhesions, prevalence, removal of placental remnants, curettage for incomplete abortion 3347
Aspirin
adhesions, prevention, low dose versus high dose aspirin, thromboxane, prostacyclin, rabbit 1486
Assisted hatching
embryos, co-culture, Buffalo rat liver cells, IVF, ICSI, pregnancy rates 165
IVF, maternal age, evaluation, prospective randomized double-blind study, implantation/pregnancy rates 409
IVF, poor prognosis patients, pregnancy rates 1331
IVF, preimplantation embryos, enzymatic treatment, blastocyst transfer, implantation rates 2926

Assisted reproduction
adjustment by patients to failure, counselling, psychological evaluation 1099
anaesthesia, propofol, general anaesthesia vs paracervical block, fertilization rates, embryo development 2456
antioxidants, spermatozoa, oocytes, embryos, future research, debate 1415
antisperm antibodies, diagnosis, management, survey by questionnaire 3363
cancer, chemotherapy, semen, cryopreservation, clinical experience 3256
children, welfare, ethics, legislation, debate 2339
cost analysis, health maintenance organizations, preferred provider organizations, outcome assessment 1200
Creutzfeldt–Jakob disease, synthetic serum substitute, contamination, risk assessment, debate 1777
donor gametes, anonymity, ethics, legislation, opinion 3268
donor gametes, anonymity, Human Fertilisation and Embryology Authority, questionnaire on treatment centre information sharing policy 3274
embryo research, international regulation, United States, debate 1
fertility treatment for HIV-positive patients, attitudes of treatment centres, UK survey 1085
ICSI, clinical experience, follow-up data, multicentre survey, ESHRE Task Force 1737
ICSI, fertilization failure, implications for prognosis, clinical study 2212
IVF, ovulation induction, burden on patients, attempts to simplify protocols, debate 1121
oocyte retrieval, failure rate, retrospective study 84
oocytes, polarity, cloning, opinion 3303
ovulation induction, GnRH, gonadotrophins, comparison of protocols, debate 1778
posthumous conception, ethics, legislation, response to consultation document, Human Fertilisation and Embryology Authority 2654
posthumous reproduction, legislation, ethics, donor insemination, donor oocytes 1407
placental protein 14, circulating concentrations, implantation/pregnancy rates, menstrual cycle, significant association 2612
regulatory framework, UK experience, HFEA, debate 1769
semen collection, rectal probe electroejaculation, penile vibratory stimulation, sperm number, accessory gland production, squirrel monkey 2527
surrogacy, Mayer–Rokitansky–Kuster–Hauser syndrome, ovulation induction, IVF, luteal phase determination, progesterone, plasma concentration 1470
'transport' ICSI, air freight, pregnancies, letter 3578
twins, spontaneous versus assisted reproduction, comparison of outcome risks, IVF, GIFT 2005
weight loss, improved outcomes, prospective study 1502
Asthenozoospermia
flagellum, pathology, ultrastructure, fibrous sheath dysplasia, fertility prognosis 2521
zinc, spermatozoa, seminal plasma, raised intrasperm zinc, effects on motility 111
Autoimmune deficiency syndrome
HIV-1 carrier male, ICSI, washed semen, pregnancy, case report 3247
***AZFb* microdeletion**
azoospermia, testicular sperm extraction, prognostic test, ICSI 2812
***AZFc* microdeletion**
frequency in future generations, ICSI, mathematical model 2808
Azoospermia
AZFb microdeletion, testicular sperm extraction, prognostic test, ICSI 2812
AZFc deletion, testicular sperm extraction, ICSI, fertilization/pregnancy rates 3332
AZFc microdeletion, frequency in future generations, ICSI, mathematical model 2808
diagnosis, testicular biopsy, open biopsy versus percutaneous needle biopsy, evaluation by histology 1266
differential diagnosis, colour Doppler, testis, blood vessel distribution 3090
epididymis, *Trichomonas vaginalis*, identification, letters 2335
hypogonadism, adrenoleukodystrophy (ALD), adult cerebral ALD, spermatozoa, morphological alterations, case report 2474
ICSI, FSH receptor gene mutation frequency, PCR–SSCP screening test 2098
maturation arrest, Sertoli cell-only syndrome, telomerase, oestradiol 1476
non-obstructive, histopathology, FSH, testicular volume, correlation with TESE success 3066
non-obstructive, ICSI, spermatids, successful pregnancy 1898
non-obstructive, spermatogenesis, distribution in testes, testicular sperm extraction, letter 2034
non-obstructive, testicular biopsy, elongated spermatids, ICSI, clinical results 709
non-obstructive, testicular sperm extraction, enzymatic treatment, sperm recovery, ICSI, clinical experience 2791
non-obstructive, testicular sperm extraction, multiple biopsies, efficacy, clinical experience 3081
non-obstructive, testicular sperm extraction, multiple needle versus single open biopsy, prospective comparison 3075
obstructive, ICSI, cryopreservation versus fresh epididymal spermatozoa, microepididymal sperm aspiration, percutaneous epididymal sperm aspiration, outcomes 1872
obstructive, ICSI, fine needle sperm aspiration versus open biopsy, clinical comparison 901
obstructive, percutaneous epididymal sperm aspiration, repeated procedure, efficacy and safety, ICSI, clinical trial 2805
obstructive, testicular fine needle aspiration, percutaneous testicular needle biopsy, microsurgical epididymal sperm aspiration, controlled clinical comparison 3086
obstructive, vasectomy reversal, second attempt, cost-effectiveness, comparison with MESA plus IVF/ICSI 387
obstructive azoospermia, ICSI, percutaneous epididymal sperm aspiration, microsurgical epididymal sperm aspiration, testicular sperm extraction, clinical comparison 620
obstructive azoospermia, spermatogenesis, seminal plasma, magnetic resonance spectroscopy, diagnostic capability 132
obstructive azoospermia, testicular biopsy, in-vitro culture, spermatogenesis, FSH, cell differentiation 2772
obstructive/non-obstructive, spermatids, testicular biopsy, velocity sedimentation under unit gravity, Percoll centrifugation, fluorescence-activated cell sorting, viability 639
polycystic kidney disease, 'seminal megavesicles', ultrasonography, vasography, case descriptions 1567
TESE/TESA, testicular sperm extraction, ultrasonography, Doppler, relation to clinical data 3390
testicular biopsy, testicular sperm extraction, histological analysis, FSH, cryopreservation, clinical study 1230
testicular sperm extraction, ejaculated spermatid detection, immunofluorescence, monoclonal antibody, prediction of TESE outcome 3061
testicular sperm extraction, spermatids, ICSI, debate 2045
Y chromosome, deletions, gene markers, polymerase chain reaction, potential problems of method 3032
Y chromosomes, microdeletions, molecular diagnosis of AZF, debate 1764

Baby oil
coital lubricants, spermatozoa, motility *in vitro*, CASA, infertility 3351
Back pain
spontaneous pregnancy versus IVF, relaxin, clinical comparison 3233
***bcl-2* gene**
apoptosis, endometrium, endometriosis, adenomyosis, menstrual cycle 3496
Bcl-2 protein
apoptosis, endometrium, receptivity, glandular epithelium 3177
***BCL-2* proto-oncogene**
placenta, expression, fibrin, correlation, immunohistochemistry 1717
Behaviour
children, IVF, development at 1 year, case–control study 1727
rat progeny, spontaneous/learning behaviour, paternal age 55
Behcet's disease
colchicine, side-effects, spermatogenesis, sperm function 360
Benign cystic teratoma
ovary, laparoscopy, resection, clinical experience 1810
Bioavailability
HCG, intramuscular versus subcutaneous administration, pituitary suppression, healthy females, randomized cross-over study 1461
Birth order
maternal age, sex ratio, grand grand multiparous women 2323
Birthweight
neonatal morbidity, IVF, twins, prematurity, neonatal mortality, case–control study 1702

Blastocysts
co-culture, preferability of sequential media, debate 2043
glycolysis, culture medium, vitamins, amino acids, mouse 991
ICSI, supernumerary embryos, development to blastocysts, pregnancy/implantation rates, prediction 2564
inner cell mass, mosaicism, no selection for euploidy, FISH 3151
inner cell mass, reduced cell number, oocytes, ultra-rapid, mouse 1595
IVF, culture (cell-free, serum-free), zona removal, pregnancy rates 169
IVF, culture media, embryo transfer, prospective randomized trial 3434
IVF, embryo transfer, blastocyst stage, debate 3285
trophoblasts, marmoset, human antigen homologues, monoclonal antibodies, contraception 1169
Bloch–Sulzemberg syndrome
preimplantation genetic diagnosis, IVF, day 4 embryo transfer, successful outcomes 1656
Blood
activated autologous blood therapy, spontaneous recurrent abortion, detectable immune effects, i.m. injections 491
Blood flow
corpus luteum, power Doppler, assessment of technique 2836
uterine artery, Doppler, endometrium, ablation, hysteroscopic rollerball, prediction of treatment failure 3456
uterine artery, levonorgestrel, intrauterine releasing system, progesterone, ovary, cyst formation 3379
uterine artery, pulsatility index, anticardiolipin antibodies, unexplained infertility 3487
uterus, ovarian hyperstimulation syndrome, ascites, paracentesis, pregnancy outcomes 2077
Blood groups
fetus, haemolytic disease, RhD antigen, Kell antigen, prenatal diagnosis, polymerase chain reaction, outcomes 1472
Blood pressure
pregnancy-induced hyperfension, oocyte donation, obstetric and perinatal outcome, comparison with IVF 483
BM1 medium
oocytes, embryos, culture media, Ménézo B2 medium, Medi-Cult universal medium, controlled comparison 2548
Body fluid regulation
ovarian hyperstimulation syndrome, peripheral arteriolar dilatation, renin, sodium retention 2718
Body mass index
leptin, obesity, polycystic ovary syndrome, associated metabolic disorders, clinical study 535
leptin, prediction of serum concentration, obesity, insulin, polycystic ovary syndrome, menstrual cycle 547
Body weight
somatotropic axis, menopause, growth hormone, insulin-like growth factors, arginine, obesity, pre-/post-menopausal women 279
Bone mineral density
androgen insensitivity syndrome, orchidectomy, hormone replacement therapy, oestrogen 2816
polycystic ovary syndrome, insulin resistance, hirsutism, antiandrogens, clinical trial 2703
Breast cancer gene 1 (*BRCA1*)
prenatal diagnosis, ethics, debate 1125
Breasts
mammary glands, oxytocin receptor, expression and immunolocalization, lactating and non-lactating 2645
Buffalo rat liver cells
embryos, co-culture, assisted hatching, IVF, ICSI, pregnancy rates 165
Buserelin
GnRH analogue, effective minimum dose, ovulation induction, IVF, clinical study 811
CA125
endometrioma diagnosis, colour Doppler energy imaging, transvaginal ultrasonography, clinical study 1691
hormone replacement therapy, morphological and biochemical responses, tibolone, continuous combined oestrogen plus progesterone, prospective randomized trial 2261
post-/peri-menopausal bleeding, endometrial adenocarcinoma, diagnostic value 2895
recurrent spontaneous abortion, uterine flushings, correlation with pregnancy outcome 3197
ruptured ovarian endometrioma, rise in serum concentrations, inflammatory reaction 3503
Cadherins
ovary, endometriomas, CD44, immunohistochemistry 1346
Cadmium
seminal plasma, spermatozoa, motility, survey of Finnish men 115
Caesarean section
incidence, teenage pregnancy, outcomes, retrospective cohort study 3228
Calcium
Ca^{2+}-activated potassium channels, myometrium, NS1619-induced relaxation 208
preimplantation genetic diagnosis, Ca^{2+}/Mg^{2+}-free biopsy medium, subsequent embryo development 2880
spermatozoa, chromosome analysis, ICSI, hamster oocytes, injection and culture techniques, omission of CA^{2+} 1336
Calcium ionophore
A23187, acrosome reaction, fertilization rates, correlation, teratozoospermia 905
cAMP
spermatozoa, intracellular concentration, motility, hyperactivation, pentoxifylline 911
Cancer
breast cancer gene 1 (*BRCA1*), prenatal diagnosis, debate 1125
chemotherapy, radiotherapy, effects on subsequent fertility, natural/assisted conception, semen, cryopreservation, ICSI 3250
chemotherapy, semen, cryopreservation, assisted reproductive techniques, clinical experience 3256
colon cancer, donor oocytes, ovulation induction, risk to donor, donor payments, legislation, ethics 227
endometrial adenocarcinoma, placental protein 14, CA-125, diagnostic value 2895
granulosa cell tumours, incidence, fertility drugs, oral contraceptives, Finland 2828
IVF, affect on oocyte quality, case reports 1837
ovary, adnexal masses, frozen section diagnosis, suspected malignancy, laparoscopy, clinical study 324
ovary, cystic tumours, soluble adhesion molecules in cyst fluid and serum, intercellular adhesion molecule-1, E-cadherin, CD44 2831
ovary, cysts, benign/malignant diagnosis, frozen sections, laparoscopy, letters 3575
testis, IVF, ICSI, successful treatments, electroejaculation, testicular sperm extraction 414
vagina, cervix, ovary, transposition of ovaries, fertility outcomes 660
Capacitation
acrosome reaction, culture media, IVF, protein-free SMART1â 2579
spermatozoa, hyperactivation, seminal plasma, chlortetracycline assay, computer-assisted sperm analysis 2139
Cardiovascular disease
combined oral contraceptives, venous thromboembolism, WHO technical report, debate 2981
coronary heart disease, thromboembolism, stroke, oral contraception, hormone replacement therapy, ESHRE Capri Workshop 2325
heart transplant, pregnancy, immunosuppression, literature review, case report 749
Cardiovascular function
hormone replacement therapy, postmenopausal women, prospective study 2399
Carotid artery
pregnancy, endothelium, smooth muscle, hypotrophy, stereology, guinea-pig 1074
CD44
ovary, cancer, cystic tumours, soluble adhesion molecules in cyst fluid and serum, intercellular adhesion molecule-1, E-cadherin 2831
ovary, endometriomas, cadherins, immunohistochemistry 1346
$CD56^{++}$
large granular lymphocytes, endometrium, menstrual cycle, decidua, flow cytometry 1036
Cell adhesion
galectin, placenta, first trimester, trophoblast, immunohistochemistry 730
Cerebrovascular infarction
thromboembolism, ovarian hyperstimulation syndrome, GnRH agonist, ICSI, case report 1793
Cervical mucus penetration
spermatozoa, quantitative modelling 1255
Cervical pregnancy
methotrexate, risk factors, quantitative review 2636
Cervix
cancer, transposition of ovaries, fertility outcomes 660

cervical dilatation, embryo transfer, difficult/repeated transfer, no effect on pregnancy rates/outcome 2452
cervical incompetence, unsuccessful cerclage, recurrent late spontaneous abortion, HLA-DR typing, clinical study 1079
cervical ripening, nitric oxide, cyclooxygenase, prostaglandins, tumour necrosis factor-a, interleukins, mechanism 245
cervical septum, septate uterus, surgical management, letters 243
contraception, implant users, Implanonâ, Norplantâ, 2-year comparative study, endometrium, histology/cytology 3057
endocervix, nitric oxide, NO synthase expression, immunohistochemistry 436

Chemotherapy
cancer, effects on subsequent fertility, natural/assisted conception, semen, cryopreservation, ICSI 3250
cancer, semen, cryopreservation, assisted reproductive techniques, clinical experience 3256

Children
behaviour, IVF, twins, parental stress, psychological evaluation 3244
donor oocytes, growth, development, health, follow-up questionnaire, parents' attitudes to secrecy comparison with, IVF 2009
ICSI, clinical experience, follow-up data, multicentre survey, ESHRE Task Force 1737
IVF, behaviour, development at 1 year, case–control study 1727
neonatal period, IVF, health care resources, utilization 2055
welfare, assisted reproductive techniques, ethics, legislation, debate 2339
welfare, IVF clinics, operational protocols, UK survey, HFEA Code of Practice 766

Chimerism
maternal–fetal interactions, alloimmunity, transplantation, invertebrates, evolution, opinion 455

Chlamydia trachomatis
antibody testing, tubal infertility, laparoscopy, evaluation 1094
Fallopian tube, severe occlusions, fimbrioplasty, laparoscopy, evaluation of 35 cases 1496
hsp60, ectopic pregnancy, serological response, pelvic inflammatory disease 1088
HSP60, infertility, spontaneous abortion, clinical evaluation 1175
tubal obstruction, ciliary beat frequency, CBF–serotype correlation 3121

Chloroquine
spermatozoa, motility, acrosome reaction 1878

Chlortetracycline assay
spermatozoa, capacitation, hyperactivation, seminal plasma, computer-assisted sperm analysis 2139

Chorionic villous sampling
ICSI, amniocentesis, obstetric outcomes 2958
normal villous morphology, cytogenetic abnormalities, diagnosis 2954

Chromatin condensation
spermatozoa, epidemiology, age, smoking, sexual abstinence, sperm chromatin structure assay, evaluation 2495

Chromosomes
aneuploidy, first polar body, chromosome analysis, oocytes, hamster/human 583
aneuploidy, mosaicism, blastocysts, inner cell mass, no selection for euploidy, FISH 3151
aneuploidy, spermatozoa, chromosomes 13 and 21, infertile men, oligozoospermia, teratozoospermia 2787
aneuploidy, spermatozoa, morphology, paternal age, fertile/infertile, in-situ hybridization 3406
aneuploidy, trisomy 21, paternal origin, asthenoteratozoospermia, ICSI, spontaneous abortion, case report 3345
binuclear oocyte, genetic constitution, triploidy, ICSI, case report 1653
chromosomal abnormalities, comparative genomic hybridization, recurrent spontaneous abortion, clinical study 805
chromosomal abnormalities, ICSI, prevalence, types, genetic diseases, counselling, clinical study 576
chromosomal abnormality, Y/autosome translocation, oligoasthenoteratozoospermia, ICSI, normal offspring, case report 2745
chromosomes 1,13,21, aneuploidy, donor insemination, donor age, FISH 2489
complex chromosomal rearrangement, 60 year old father, mentally retarded child, FISH, case report 1801
embryos, cryopreservation, post-thaw cleavage arrest, chromosomal abnormalities, chromosomes X/Y/1, FISH 425
fragile X syndrome, premature ovarian failure, FRAXA premutations, high frequency 1184
ICSI, chromosomal abnormalities, incidence, editorial 781
ICSI, female partners, chromosomal aberrations, high incidence, 'hidden' infertility factor 48
meiosis, spermatozoa, Klinefelter syndrome, 47,XXY male, non-disjunction 124
oocytes, DNA, strand breaks, apoptosis, annexin V staining, TUNEL staining, mouse/human 1317
oocytes, ICSI, failed fertilization, DNA fragmentation, DAPI and TUNEL labelling 703
spermatozoa, chromosome analysis, ICSI, hamster oocytes, injection and culture techniques, omission of CA^{2+} 1336
trisomy, non-disjunction, origin and mechanism, maternal age 313
unfertilized oocytes, ICSI, globozoospermia, premature chromatin condensation, case report 3094
unfertilized oocytes, IVF, chromosome abnormalities, maternal age, fertilization rate 419
X chromosome, deletion, premature ovarian failure, familial cases, cytogenetic screening 3039
X-linked immune deficiency, preimplantation genetic diagnosis, IVF, day 4 embryo transfer, successful outcomes 1656
Y chromosome, *AZFb* microdeletion, azoospermia, testicular sperm extraction, prognostic test 2812
Y chromosome, *AZFc* microdeletion, frequency in future generations, ICSI, mathematical model 2808
Y chromosome, deletions, azoospermia, gene markers, polymerase chain reaction, potential problems of method 3032
Y chromosomes, microdeletions, high frequency, Sertoli-cell-only syndrome, PCR 302

Chronic non-specific lung disease
oligomenorrhoea, adolescence, gynaecological age, weight, chronic non-specific lung disease, cross-sectional population study 2252

Chylous ascites
presacral neurectomy, dysmenorrhoea, management, case reports 880

Cigarette smoking
infertility, corpus luteum, progesterone, LH, letter 3576
semen analysis, WHO criteria, spermatozoa, morphology 3394

Cilia
ciliary beat frequency, Fallopian tube, epithelium, progesterone, oestradiol, mifepristone 2991
Fallopian tube, epithelial cell culture, differentiation, ciliated phenotype induction, oestradiol 3114
tubal obstruction, *Chlamydia trachomatis*, CBF–serotype correlation 3121

Clomiphene citrate
clomiphene versus clomiphene + HMG, Fallopian tube sperm perfusion, intrauterine insemination, clinical comparison 3053
cystic fibrosis, natural cycle versus clomiphene citrate, insulin, fatty acid deficiency, polycystic ovary syndrome 2092
intrauterine insemination, sequential clomiphene citrate/HMG treatment, previous CC/IUI failure, male/female age, pregnancy rates 2110
ovulation induction, contralateral ovulation, follicular phase length, oocytes, maturation *in vivo*, clinical study 1590
ovulation induction, future clinical role, safety, alternatives, debate 2356
side-effects, psychiatric instability, debate 2986

Cloning
oocytes, polarity, assisted reproductive techniques, opinion 3303

Co-culture
embryos, Buffalo rat liver cells, assisted hatching, IVF, ICSI, pregnancy rates 165
IVF, embryo transfer, timing of transfer, cryopreservation, influence on viability, pregnancy rates 676
oocytes, maturation *in vitro*, ampullary cells, fertilization/hatching rates 1916
oviduct cells, embryotrophic factors, partial purification 1613
preimplantation embryos, fibroblasts, IVF, pregnancy rates 1325
preimplantation embryos, preferability of sequential media, blastocysts, debate 2043
preimplantation embryos, Vero cells, platelet-derived growth factor, IL-6, leukaemia inhibitory factor, TGFb, epidermal growth factor 1600
spermatozoa, Fallopian tube, epithelial monolayers, zona-free hamster penetration assay, motility, human/macaque/bovine 2797

Co-trimoxazole
spermatozoa, motility, acrosome reaction 1878

Coelomic fluid
fentanyl, analgesia, placenta, first trimester, amniotic fluid 2317
placental isoferritin, first trimester, maternal serum, amniotic fluid 1044

Coffee
spontaneous abortion risk, first trimester, case-controlled study 2286

Coital lubricants
spermatozoa, motility *in vitro*, CASA, infertility, KY jelly, olive oil, saliva 3351
Coital rates
sex ratio, reproductive hazards, pollution, psychological variables 1083
Colchicine
side-effects, spermatogenesis, sperm function, Behcet's disease, gout, familial Mediterranean fever 360
Collagen propeptide
fetal antigen 2, Down's syndrome, screening, maternal serum, first trimester 1706
Complex chromosomal rearrangement
60 year old father, mentally retarded child, FISH, case report 1801
Computer-assisted semen analysis
Celltrak, evaluation 611
diagnostic accuracy, Hamilton–Thorn, IVF 2512
ESHRE Andrology Special Interest Group, guidelines 142
Conception
insemination timing, sex ratio, follicular phase length, planned/unplanned pregnancies, natural family planning, multicentre prospective study 1397
subfertile couples, spontaneous conception, prediction model, letters 1411
Contraception
antiprogestin, mifepristone, long-term low dose, menstrual cycle, controlled trial, effects on reproductive system 793
antiprogestin, ZK 137 316, anovulation, amenorrhoea, rhesus monkey 259
antiprogestin, ZK 137 316, endometrium, antiproliferative action, histology, rhesus monkey 269
antiprogestins, ZK 137 316, chronic low-dose regimen, rhesus monkey 2132
blastocysts, trophoblasts, marmoset, human antigen homologues, monoclonal antibodies 1169
combined oral contraceptives, thromboembolism, risk, debate 1781
combined oral contraceptives, venous thromboembolism, WHO technical report, debate 2981
implant users, Implanonâ, Norplantâ, 2-year comparative study, endometrium, cervix, histology/cytology 3057
implant users, Norplant, uterus, vascularity, precise measurement of structures, hysteroscopy, menorrhagia 3190
levonorgestrel, intrauterine release, endometrium, decidualization, morphology and function, prolactin receptor, granulocyte-macrophage colony stimulating factor 1218
levonorgestrel, intrauterine releasing system, endometrium, ultrastructure 1846
levonorgestrel, intrauterine releasing system, uterine artery, blood flow, progesterone, ovary, cyst formation 3379
levonorgestrel, intrauterine-releasing system, endometrium, progestin receptor isoforms, prostaglandin dehydrogenase, immunohistochemistry, longitudinal study 1210
levonorgestrel, rod implants (Jadelle), 5-year randomized study 3371
male contraception, spermatogenesis, cyproterone acetate, testosterone enanthate, clinical assessment, low dose regimen 1225
mifepristone, luteal phase, prostaglandin analogue/inhibitor, endometrium, histometric effects, rhesus monkey 1047
Norplantâ, bleeding irregularities, endometrial thickness, oestradiol, correlations 188
oral contraception, coronary heart disease, thromboembolism, stroke, ESHRE Capri Workshop 2325
oral contraception, dizygotic twinning rates, sperm count, secular trends, letters 2335
oral contraception, thromboembolism, debate 1115
oral contraceptives, granulosa cell tumours, incidence, Finland 2828
oral contraceptives, vagina, cytomorphometric analysis 2767
oral contraceptives, venous thromboembolism, role of regulatory authorities, letter 2660
ovulation, inhibition, mifepristone, nomegestrol acetate, combined sequential regimen 3297
vasectomy, infertility, vasectomy reversal, IVF, ICSI, debate 1757
Copper IUD
regularly menstruating women, uterine artery, blood flow, pain 1841
Cornual pregnancy
conservative management, laparoscopy, case report 2002
interstitial pregnancy, colour Doppler, methotrexate, case report 1723
Coronary heart disease
oral contraception, hormone replacement therapy, ESHRE Capri Workshop 2325
Coronase
cumulus cell removal, Coronase versus hyaluronidase, human and mouse oocytes, ICSI 1933
Corpus luteum
cigarette smoking, progesterone, LH, infertility, letter 3577
function and differentiation, luteal cells, peripheral blood mononuclear cells, IL-4, IL-10, pregnant/non-pregnant women 2738
granulosa luteal cells, steroidogenesis, in vitro, progesterone, endothelin-1, inhibition 2425
HCL-2 monoclonal antibody, apolipoprotein-B, granulosa–luteal cells, low density lipoprotein uptake, immunohistochemistry 936, 944
IGFBP-1, endothelial cells, angiogenesis, marmoset 2180
induced luteolysis, ovary, LH receptor expression, marmoset 2532
luteal phase, HCG, macrophages, decrease in numbers, immunohistochemistry 2435
luteal phase defect, HCG, effect on progesterone production 1907
power Doppler, blood flow, assessment of technique 2836
steroidogenesis, modulation, leukocytes, IL-1b, flow cytometry 1584
Cortical granules
oocytes, maturation, membrane organization, antral follicle development, ultrastructure, mouse 2842
Cortisol
follicular fluid, cortisol concentrations, IVF, 'low responder' patients, fertilization/outcomes 27
placenta, intrauterine growth restriction, 11b-hydroxysteroid dehydrogenase type 2, immunohistochemistry 799
Cost analysis
assisted reproductive techniques, health maintenance organizations, preferred provider organizations, outcome assessment 1200
Cotinine
spermatozoa, motility, smoking, reactive oxygen species, leukocytes, letters 777
Counselling
assisted reproductive techniques, adjustment by patients to failure, psychological evaluation 1099
genetic diseases, ICSI, chromosomal abnormalities, clinical study 576
genetic diseases, IVF, risk, prenatal genetic diagnosis, attitudes of couples, questionnaire 862
infertility, psychiatric morbidity, clinical survey 1733
recurrent spontaneous abortion, management guidelines 478
varicocele, counselling versus surgery, prospective randomized study, pregnancy rates 2147
Cranial suspensory ligament
testis, descent, androgens, sex differentiation, rat 1272
Creatine kinase
maternal serum, ectopic pregnancy, diagnosis, letter 2003
Creatinine
pre-ovulatory LH surge, detection in urine, immunofluorimetric assay, creatinine adjustment 15
Creutzfeldt–Jakob disease
assisted reproductive techniques, synthetic serum substitute, contamination, risk assessment, debate 1777
Cryopreservation
embryo development, ovulation induction, degree of LH suppression in mid-follicular phase, GnRH analogue, FSH, pregnancy rates 696
embryos, cooling rates, letter 2035
embryos, IVF versus ICSI, comparison of outcomes 2848
embryos, post-thaw cleavage arrest, chromosomal abnormalities, chromosomes X/Y/1, FISH 425
embryos, safety, development rates, statistical analysis, debate 783
embryos, selection for transfer, 24 h post-thaw culture, resumption of mitosis, pregnancy rates 178
ICSI, cryopreservation versus fresh epididymal spermatozoa, microepididymal sperm aspiration, percutaneous epididymal sperm aspiration, outcomes 1872
IVF, embryo transfer, combined fresh and frozen embryo transfer, twins, case report 2130
IVF, embryo transfer, timing of transfer, influence on viability, pregnancy rates 676
IVF, GnRH agonist, embryos, clinical trial with/without GnRHa 2712
oocytes, donor oocytes, clinical application, ICSI, pregnancies 3156
oocytes, ovulation induction, nuclear/cytoplasmic maturation protocol, cytoskeleton, epidermal growth factor, mouse 971
oocytes, ultra-rapid, blastocysts, inner cell mass, reduced cell number, mouse 1595
ovary, comparison of cryoprotectants, ethylene glycol, dimethylsulphoxide, propylene glycol, glycerol 376

preimplantation genetic diagnosis, biopsy procedure, effect on embryo development, mouse 3165
semen, cancer, chemotherapy, assisted reproductive techniques, clinical experience 3256
semen, cancer, chemotherapy, radiotherapy, effects on subsequent fertility, natural/assisted conception, ICSI 3250
spermatids, culture *in vitro*, morphology, viability 634
spermatozoa, ICSI, fresh versus frozen–thawed spermatozoa, testicular sperm extraction, outcomes 1893
spermatozoa, immotile, ICSI, full-term delivery 3399
spermatozoa, pentoxifylline, motility post-thaw, acrosome reaction, ionophore 3384
spermatozoa, processing methods, Percoll, gradient separation, washing, sperm stress test 2151
spermatozoa, vasectomy, infertility, vasectomy reversal, IVF, ICSI, debate 1757
testicular biopsy, testicular sperm extraction, histological analysis, FSH, clinical study 1230
zygotes, 8-year storage, live birth, case report 2970

Culture media
IVF, preimplantation embryos, blastocysts, embryo transfer, prospective randomized trial 3434
oocytes, embryos, Ménézo B2 medium, Medi-Cult universal medium, BM1 medium, controlled comparison 2548
preimplantation embryos, IGF-I, enhanced development 3144
spermatozoa, capacitation, acrosome reaction, IVF, protein-free SMART1â 2579

Cumulative pregnancy rates
IVF, drop-out rates, retrospective cohort study 339
IVF, first cycle results, predictive value, maternal age 403

Cumulus oophorus
ICSI, cumulus cell removal, Coronase versus hyaluronidase, human and mouse oocytes 1933
oocytes, maturation *in vitro*, germinal vesicle stage, epidermal growth factor, gonadotrophins 1638

Cumulus–oocyte complex
preimplantation genetic diagnosis, ICSI, effect of no. of COC on outcome after PGD, clinical study 3169

Cyclooxygenase
cervical ripening, nitric oxide, mechanism, debate 245

Cyproterone acetate
male contraception, spermatogenesis, testosterone enanthate, clinical assessment, low dose regimen 1225

Cystic fibrosis
ovulation induction, natural cycle versus clomiphene citrate, insulin, fatty acid deficiency, polycystic ovary syndrome 2092

Cysts
ovary, benign/malignant diagnosis, frozen sections, laparoscopy, letters 3575

Cytology
Fallopian tube, epithelium, cell viability assessment, nuclear dye, Methylene Blue, salpingoscopy 3414

Cytoskeleton
oocytes, maturation, meiosis, microtubules, microfilaments, immunofluorescence localization 2217
spermatozoa, hypo-osmotic swelling test, sperm subtypes, incubation time 1578

Cytotrophoblasts
HCG, secretion and regulation *in vitro*, sex hormone binding globulin 1368

Danazol
endometriosis, pelvis, deeply infiltrating, vaginal danazol ring, clinical study 1952

***DAZ* gene**
DAZ protein locations, spermatids, sperm tails, immunofluorescence, immunohistochemistry 363

Decidua
decidualization, endometrium, morphology and function, levonorgestrel, intrauterine release, prolactin receptor, granulocyte-macrophage colony stimulating factor, immunohistochemistry 1218
decidualization, endometrium, stromal cells, b_2-microglobulin, HLA class I 2246
large granular lymphocytes, $CD56^{++}$, flow cytometry 1036
lymphocytes, T cell populations, immunohistochemistry, spontaneous abortion 44
methotrexate, effect on trophoblast proliferation, large granular lymphocytes, immunohistochemistry 1063

Delayed parenthood
effects on offspring, genetic diseases, mitochondrial DNA 2371

Deltorphin
LH, naloxone-induced release, FSH, healthy fertile women, circulating concentrations, d-opioid receptors 1159

Density gradient centrifugation
sperm preparation, alternatives to Percoll, ISolate/PureSperm/OptiPrep, evaluation 3139

Dexamethasone
antenatal treatment for prematurity, IGFBP-1, effect on maternal synthesis by decidua 1714
ovulation induction, HMG versus GnRH agonist + HMG, follicular phase, progesterone, origin of serum rise, adrenal 9
pregnancy, androgens, oestradiol, maternal plasma steroid concentrations, baboon 2282

Dibromochloropropane
environmental pollution, spermatogenesis, debate 2041

Diclofenac
menstruation, pain, copper intrauterine device, uterine artery, blood flow, clinical study 2480

Diethylstilboestrol exposure
hysteroscopy, metroplasty, clinical outcomes 2751

Dimethylsulphoxide
ovary, cryopreservation, comparison of cryoprotectants, ethylene glycol, propylene glycol, glycerol 376

Dithiothreitol
antioxidants, oocytes, ageing *in vitro*, oocyte/conceptus viability *in vitro*, mouse 381

DNA
DNA fragmentation, spermatozoa, reactive oxygen species, antioxidant pretreatment, TUNEL assay 896
DNA status, acridine orange, IVF, prediction of outcomes, logistic regression model, spermatozoa, morphology 1235
mitochondrial DNA, genetic diseases, delayed parenthood, effects on offspring 2371
mitochondrial DNA inheritance, ICSI, letter 1747
spermatozoa, antioxidants, supplementation, Percoll, ascorbic acid, a-tocopherol, urate 1240
spermatozoa, reactive oxygen species, DNA damage, NADPH, motility, albumin 1429
spermatozoa, reactive oxygen species, ICSI, pronucleus formation 1864
strand breaks, oocytes, apoptosis, annexin V staining, TUNEL staining, mouse/human 1317

Donor insemination
anonymity, ethics, legislation, opinion 3268
anonymity, Human Fertilisation and Embryology Authority, questionnaire on treatment centre information sharing policy 3274
Corsendonk consensus document, European Union, legislation, ethics 500
donor age, aneuploidy, frequency, chromosomes 1,13,21, FISH 2489
fertilization rates, tubal infertility, unexplained infertility, endometriosis, oocytes, spermatozoa, dysfunction 1825
intrauterine insemination, LH monitoring, cumulative pregnancy rates, 3-year clinical review 3045
payment, ethics, debate 1129
payment of donors, UK survey, public attitudes 771
posthumous reproduction, legislation, ethics 1407

Donor oocytes
>35 years of age, meiosis, non-disjunction, clinical study 154
anonymity, ethics, legislation, opinion 3268
anonymity, Human Fertilisation and Embryology Authority, questionnaire on treatment centre information sharing policy 3274
anonymous donors, demographic survey 2762
anovulation, oligoasthenoteratozoospermia, IVF, ICSI, shared egg donation programme 2158
children, growth, development, health, follow-up questionnaire, parents' attitudes to secrecy, comparison with IVF 2009
colon cancer, ovulation induction, risk to donor, legislation, ethics 227
Corsendonk consensus document, European Union, legislation, ethics 500
cryopreservation, clinical application, ICSI, pregnancies 3156
donor motives in egg share programmes, payment policy, ethics, legislation, opinion 2671
embryo transfer, implantation window, duration of progesterone therapy, postmenopausal women, pregnancy rates 720

ovulation induction, GnRH analogue, long-acting regimen efficacy, prospective clinical study 1148
ovulation induction, pregnant mare's serum gonadotrophin, embryos, viability reduction, hamster 724
payment, ethics, debate 1129
posthumous reproduction, legislation, ethics 1407
pregnancy rates, incidence of complications, obstetric outcomes, prospective study 1819
screening, policies and procedures, paid donor oocyte registry 2020
statutory information for children, response to HFEA forms, one UK centre 1106

Doppler
corpus luteum, blood flow, power Doppler, assessment of technique 2836
endometrioma diagnosis, colour Doppler energy imaging, transvaginal ultrasonography, CA125, clinical study 1691
TESE/TESA, percutaneous epididymal sperm aspiration, relation to clinical data 3390
uterine artery, endometrium, ablation, hysteroscopic rollerball, prediction of treatment failure 3456
uterine artery, pulsatility index, unexplained infertility, anticardiolipin antibodies 3487

Down's syndrome
screening, fetal antigen 2, collagen propeptide, maternal serum 1706
screening test, maternal dimeric inhibin A, second trimester, clinical evaluation 744
second trimester maternal serum screening, free b-HCG, a-fetoprotein, oestriol, clinical comparison 220

E-cadherin
ovary, cancer, cystic tumours, soluble adhesion molecules in cyst fluid and serum, intercellular adhesion molecule-1, CD44 2831

Early pregnancy loss
oocytes, post-ovulatory ageing *in vivo*, increased risk, prospective study 394

Earthquake
Kobe earthquake, fertility, sex ratio, stress 2321

Economics
assisted reproductive techniques, cost analysis, health maintenance organizations, preferred provider organizations, infertility 1200

Ectopic pregnancy
aetiology, spermatozoa, donor versus husband, GIFT, IVF 3505
bilateral tubal pregnancy, IVF, case report 465
cervical pregnancy, methotrexate, risk factors, quantitative review 2636
Chlamydia trachomatis, hsp60, serological response, pelvic inflammatory disease 1088
conservative laparoscopy versus methotrexate, subsequent fertility, randomized trial 3239
cornual pregnancy, conservative management, laparoscopy, case report 2002
diagnosis, maternal serum creatine kinase, letter 2003
diagnosis, progesterone, serum concentrations, meta-analysis 3220
diagnosis, transvaginal 3-D ultrasound, endometrium 450
ectopic/intrauterine, HCG, bioactivity/immunoreactivity, maternal serum 2629
Fallopian tube, implantation window, integrins, a_v and b_3 subunit expression in epithelium 2916
glutathione S-transferase, ectopic human fetus, immunohistochemistry, GST a and p 1380
heterotopic pregnancy, triplets, monozygotic twinning, IVF, two embryos replaced, case report 1999
implantation, junctional zone contractions, endometrium, myometrium, embryo transfer, ultrasonography 1540
inhibin A, evaluation as surveillance marker, HCG 2305
interstitial pregnancy, cornual pregnancy, colour Doppler, methotrexate, case report 1723
interstitial pregnancy, methotrexate, case report, literature review 1981
interstitial pregnancy, salpingectomy, IVF, sextuplets, case report 762
IVF, three ectopic pregnancies, case report 468
oxytocin, intramesosalpingeal injection, laparoscopy, preliminary results 3042
retrospective study of treatment options, laparotomy, laparoscopy, methotrexate, second interventions 203
rudimentary horn, laparoscopy, case report 2643
rudimentary horn, rupture, case report 3566
tubal pregnancy, conservative surgery versus radical surgery, subsequent fertility outcomes, retrospective cohort study 1804
tubal pregnancy, methotrexate, mifepristone, combination treatment, randomized controlled trial 1987

Egg share programmes
donor motives in egg share programmes, payment policy, ethics, legislation, opinion 2671

Ejaculation
ejaculation interval, sex preselection, Y sperm enrichment, letters 2658
semen collection, rectal probe electroejaculation, penile vibratory stimulation, sperm number, accessory gland production, squirrel monkey 2527

Electric field trapping
sperm selection, description of method, ICSI 136

Electrodesiccation
haemostasis, thrombin, comparative study, rabbit 1493

Electroejaculation
anejaculation, idiopathic, previous microsurgical vas aspiration, IVF, ICSI, case report 370
ICSI, IVF, clinical experience 1854
rectal probe electroejaculation, semen collection, penile vibratory stimulation, sperm number, accessory giand production, squirrel monkey 2527
testis, cancer, IVF, ICSI, successful treatments 414

Elongated spermatid injection (ELSI)
current problems, opinion 255

Embryo research
international regulation, United States, debate 1
legislation, international regulation, ethics, debate 2047

Embryo transfer
blastocyst stage, debate 3285
blastocysts, culture media, prospective randomized trial 3434
co-culture, cryopreservation, timing of transfer, influence on viability, pregnancy rates 676
co-culture, preferability of sequential media, blastocysts, debate 2043
combined fresh and frozen embryo transfer, twins, case report 2130
cryopreservation, selection for transfer, 24 h post-thaw culture, resumption of mitosis, pregnancy rates 178
donor oocytes, implantation window, duration of progesterone therapy, postmenopausal women, pregnancy rates 720
embryo positioning in uterine cavity, standing up after transfer, transvaginal ultrasound tracking 2107
ICSI, female age > 39 years, embryo quality, number of embryos replaced, clinical outcomes 884
implantation, junctional zone contractions, endometrium, myometrium, ultrasonography, ectopic pregnancy 1540
IVF, difficult/repeated transfer, no effect on pregnancy rates/outcome 2452
IVF, multiple pregnancy, clinical policy, debate 2988
IVF, multiple pregnancy, clinical results 3550
IVF, multiple pregnancy, policy, debate 2663
IVF, one or two embryos, cost-effectiveness 88
IVF, preimplantation genetic diagnosis, day 4 embryo transfer, successful outcomes 1656
IVF, probability of success, ovulation induction, fertilization, implantation, logistic regression model 78
IVF, pronuclear embryos, 1 day after retrieval, clinical pregnancy rates 1003
selection for transfer, ICSI, early cleavage, pregnancy rates 182
uterine contractions, altered pregnancy rates, progesterone, uterine relaxing properties 1968

Embryos
antioxidants, assisted reproductive techniques, future research, debate 1415
blastocysts, development, IVF, ICSI, paternal influence, abnormal spermatozoa 1632
blastocysts, glycolysis, culture medium, vitamins, amino acids, mouse 991
blastocysts, trophoblasts, marmoset, human antigen homologues, monoclonal antibodies, contraception 1169
co-culture, Buffalo rat liver cells, assisted hatching, IVF, ICSI, pregnancy rates 165
cryopreservation, cooling rates, letter 2035
cryopreservation, IVF, GnRH agonist, clinical trial with/without GnRHa 2712
cryopreservation, IVF versus ICSI, comparison of outcomes 2848
cryopreservation, post-thaw cleavage arrest, chromosomal abnormalities, chromosomes X/Y/1, FISH 425

cryopreservation, safety, development rates, statistical analysis, debate 783
cryopreservation, selection for transfer, 24 h post-thaw culture, resumption of mitosis, pregnancy rates 178
culture (cell-free, serum-free), IVF, blastocysts, zona removal, pregnancy rates 169
culture media, Ménézo B2 medium, Medi-Cult universal medium, BM1 medium, controlled comparison 2548
donor oocytes, ovulation induction, pregnant mare's serum gonadotrophin, viability reduction, hamster 724
early pregnancy loss, increased risk, oocytes, post-ovulatory ageing *in vivo*, prospective study 394
embryo quality, IVF, smoking, males, detrimental to pregnancy outcomes, retrospective cohort study 1506
embryo transfer, co-culture, cryopreservation, timing of transfer, influence on viability, pregnancy rates 676
embryotrophic factors, oviduct cells, co-culture, partial purification 1613
glutathione S-transferase, ectopic human fetus, immunohistochemistry, GST a and p 1380
growth retardation, heated testes, sperm quality, reduced embryo weight, mouse 372
growth retardation, heated testes, transient embryo growth retardation, mouse 342
hydrosalpingeal fluid, blastocyst development rate, cell count, mouse 2852
ICSI, supernumerary embryos, development to blastocysts, pregnancy/implantation rates, prediction 2564
ICSI, viability, early cleavage, selection for transfer, pregnancy rates 182
implantation, outgrowth *in vitro*, epidermal growth factor, anti-EGF prevents outgrowth, mouse 2231
IVF, ICSI, multinucleated blastomeres, poor implantation rates, clinical experience 960
IVF, oocyte maturity, follicular fluid aspirate volume, oocyte recovery rates, embryo quality, prospective study 1901
IVF, transvaginal ultrasonography, embryo-toxicity of covers and sonographic gels, comparison with polyethylene bags and paraffin oil, mouse 2234
oocytes, cryopreservation, ultra-rapid, blastocysts, inner cell mass, reduced cell number, mouse 1595
preimplantation embryos, 2-cell block, phosphate, timing of sensitivity, maturation-promoting factor, rat 398
preimplantation embryos, assisted hatching, IVF, poor prognosis patients, pregnancy rates 1331
preimplantation embryos, biopsy procedure, cryopreservation, effect on embryo development, mouse 3165
preimplantation embryos, blastocysts, inner cell mass, FISH, mosaicism, no selection for euploidy 3151
preimplantation embryos, cellular fragmentation, developmental effects *in vitro*, mouse 1307
preimplantation embryos, co-culture, fibroblasts, IVF, pregnancy rates 1325
preimplantation embryos, co-culture, preferability of sequential media, blastocysts, debate 2043
preimplantation embryos, culture media, IGF-I, enhanced development 3144
preimplantation embryos, culture medium, heparin-binding EGF, improved development 1645
preimplantation embryos, development, endogenous folate essential, methotrexate, mouse 1312
preimplantation embryos, heat shock proteins, monoclonal antibodies, impaired development in vitro, mouse 987
preimplantation embryos, hydrosalpingeal fluid, embryo development *in vitro*, implantation process *in vitro* 2921
preimplantation embryos, hydrosalpinx, fluid composition, cytotoxicity, lack of evidence 1620
preimplantation embryos, IL-1, mRNA in single blastomeres, RT–PCR 2206
preimplantation embryos, intracellular pH, amino acids, buffer system, mouse 3441
preimplantation embryos, IVF, ICSI, morphology, predictive value, implantation/pregnancy rates 2869
preimplantation embryos, IVF, ICSI, multinuclear blastomeres, genetic analysis, FISH 1625
preimplantation embryos, IVF, propofol, toxicity, mouse 430
preimplantation embryos, pH regulation, effects of acid/alkaline shock, sperm–zona interaction, ICSI 964
preimplantation embryos, vitrification, 8-cell mouse embryos, application to human IVF programme 2874
preimplantation embryos, zygotes, cryopreservation, propanediol, formaldehyde, effects of contamination, mouse 979
preimplantation genetic diagnosis, Ca^{2+}/Mg^{2+}-free biopsy medium, subsequent embryo development 2880
pronuclear embryos, embryo transfer, 1 day after retrieval, clinical pregnancy rates 1003
trophoblast, implantation, uterus, epithelium, adhesion force measurement 3211

Embryotrophic factors
oviduct cells, co-culture, partial purification 1613

Empty follicle syndrome
HCG, bioavailability, clinical experience 1281
IVF, faulty HCG administration, clinical report 2703

Endocytosis
Fallopian tube, epithelium, menstrual cycle, MHC class II, antigen expression 1163

Endometriosis
adhesions, endometrium–amnion model *in vitro*, electron microscopy 2275
adhesions, pelvis, monocyte chemotactic protein-1, peritoneal fluid 1194
apoptosis, *bcl-2*, endometrium 3496
artificial insemination by husband, unexplained infertility, clinical comparison of outcomes 2602
endometrioma diagnosis, colour Doppler energy imaging, transvaginal ultrasonography, CA125, clinical study 1691
follicular fluid, stromal cell proliferation *in vitro* 3492
inhibins, activin, peritoneal fluid, menstrual cycle 2606
integrin a_vb_3, unreliability of antibody staining in formalin-fixed tissue, letter 3578
integrin a_vb_3, vascular expression, angiogenesis, immunohistochemistry 1030
intraepithelial leukocytes, characterization and quantification, eutopic versus ectopic endometrium, menstrual cycle 2910
ovary, endometriomas, cadherins, CD44, immunohistochemistry 1346
ovary, granulosa cell tumour, endometriosis, leiomyomata, case report 1357
pelvic splenosis, mimicking endometriosis, abdominal mass, pain, case report 1683
pelvis, deeply infiltrating, vaginal danazol ring, clinical study 1952
pelvis, diagnosis, ultrasonography, transvaginal, laparoscopy, prospective comparison 330
pelvis, endoscopy, rectum, ultrasonography, diagnosis 2266
pelvis, risk, previous abortions, spontaneous/induced abortions, letters 3283
peritoneal fluid, IL-8, relationship to stage of disease 1957
peritoneal fluid, leukocytes, spermatozoa, phagocytosis *in vitro*, lignocaine 1353
recurrence, laparotomy, laparoscopy, surgical comparison 2271
ruptured ovarian endometrioma, CA125, rise in serum concentrations, inflammatory reaction 3503
sperm–zona binding, hemizona binding assay, follicular fluid, IVF patients, male/female factor 128
stage of disease, non-pigmented peritoneal lesions, soluble HLA-I, intercellular adhesion molecule-1, serum concentrations 3206
unexplained infertility, fertilization rates, tubal infertility, donor insemination, oocytes, spermatozoa, dysfunction 1825
vascular endothelial growth factor, angiogenesis, red/black lesions, clinical study 1686

Endometrium
ablation, hysteroscopic rollerball, uterine artery, blood flow, Doppler, prediction of treatment failure 3456
adenomyosis, stromal vascularization, morphometry, retrospective clinical study 715
antiprogestin, ZK 137 316, antiproliferative action, histology, rhesus monkey 269
apoptosis, *bcl-2*, endometriosis, adenomyosis, menstrual cycle 3496
cancer, placental protein 14, CA-125, diagnostic value 2895
contraception, antiprogestin, mifepristone, long-term low dose, menstrual cycle, controlled trial, effects on reproductive system 793
contraception, implant users, Implanonâ, Norplantâ, 2-year comparative study, cervix, histology/cytology 3057
decidualization, morphology and function, levonorgestrel, intrauterine release, prolactin receptor, granulocyte-macrophage colony stimulating factor, immunohistochemistry 1218
decidualization, stromal cells, b_2-microglobulin, HLA class I 2246

endometrial resection, endoscopy, efficacy of pre-operative medical treatment, literature review 2592
epidermal growth factor, regulation of receptor *in vitro*, androgens, testosterone, polycystic ovary syndrome, endometrial thickness 2585
hormone replacement therapy, histological analysis, compared with healthy luteal phase controls 1674
implantation, donor oocytes, ovulation induction, GnRH analogue, long-acting regimen efficacy, prospective clinical study 1148
implantation, myometrium, junctional zone contractions, embryo transfer, ultrasonography, ectopic pregnancy 1540
integrin a_vb_3, vascular expression, menstrual cycle, endometriosis, angiogenesis, immunohistochemistry 1030
IVF, endometrial thickness, pregnancy-specific b_1-glycoprotein, relationship to outcome prognosis 1962
Le^y oligosaccharide, immunohistochemistry, menstrual cycle, mifepristone, rhesus monkey 1374
lymphocytes, T cell populations, decidua, immunohistochemistry, spontaneous abortion 44
maturation, IVF, GnRH agonist/FSH, histological evaluation on day of oocyte retrieval 3203
menstrual cycle, decidua, large granular lymphocytes, $CD56^{++}$, flow cytometry 1036
menstrual cycle, inhibin, activin, immunohistochemistry 3469
mifepristone, luteal phase, prostaglandin analogue/inhibitor, histometric effects, rhesus monkey 1047
MUC1, regional specialization, menstrual cycle, implantation, immunohistochemistry 2902
nitric oxide, NO synthase expression, immunohistochemistry 436
placental protein 14, mifepristone, luteal phase administration, implantation, rhesus monkey 3478
placental protein 14, uterine flushings, collection technique, method of expression of results, infertility 3357
progestin receptor isoforms, prostaglandin dehydrogenase, levonorgestrel, intrauterine-releasing system, immunohistochemistry, longitudinal study 1210
receptivity, apoptosis, glandular epithelium, bcl-2 protein 3177
receptivity, colour Doppler, transvaginal ultrasonography, IVF, prediction 1669
receptivity, leukaemia inhibitory factor, uterine expression, T-lymphocytes, pseudopregnant mouse 2888
receptivity, luteal phase defect, integrins, patterns of expression, immunohistochemistry 3460
stromal cell proliferation *in vitro*, follicular fluid, endometriosis 3492
stromal cells *in vitro*, interferon g, effect on cytokine secretion, IL-6/IL-8, monocyte chemoattractant protein-1, macrophage colony-stimulating factor 2598
thickness, contraception, Norplantâ, bleeding irregularities, oestradiol, correlations 188
thickness £ 4 mm, IVF, successful pregnancy, case report 1550
transvaginal 3-D ultrasound, ectopic pregnancy, diagnosis 450
tubal ligation, alterations in endometrial perfusion, laser Doppler fluxmetry, controlled clinical study 445
ultrastructure, levonorgestrel, intrauterine releasing system 1846

b-Endorphin
peripheral concentration, premenstrual syndrome, tibolone, placebo-controlled cross-over study 2402

Endoscopy
fetoscopy, amniotic band syndrome, first trimester diagnosis, ultrasonography, aetiopathology, case report 2966
laparoscopy, robotic surgery, voice/foot/hand control, AESOP 2000, clinical experience 2748
myomectomy, endometrial resection, efficacy of pre-operative medical treatment, literature review 2592
rectum, ultrasonography, endometriosis, pelvis, diagnosis 2266

Endothelin-1
corpus luteum, granulosa luteal cells, steroidogenesis, in vitro, progesterone, inhibition 2425

Endothelium
carotid artery, pregnancy, smooth muscle, hypotrophy, stereology, guinea-pig 1074

Endothelium-derived relaxing factor
uterine artery, effect on 5-hydroxytryptamine-induced contraction 1947

Environment
pollution, sex ratio, reproductive hazards, coital rates, psychological variables 1083
pollution, spermatogenesis, industry, agriculture, dibromochloropropane, oestrogen, debate 2041

Epidermal growth factor
embryos, implantation, outgrowth *in vitro*, anti-EGF prevents outgrowth, mouse 2231
follicles, follicular fluid, menstrual cycle, immunohistochemistry, transforming growth factor a 2199
heparin-binding EGF, preimplantation embryos, culture medium, improved development 1645
oocytes, maturation *in vitro*, culture, recombinant HCG, mouse 664
oocytes, maturation *in vitro*, FSH, mouse 690
oocytes, maturation *in vitro*, germinal vesicle stage, cumulus oophorus 1638
oocytes, ovulation induction, nuclear/cytoplasmic maturation protocol, cytoskeleton, cryopreservation, mouse 971
preimplantation embryos, co-culture, Vero cells 1600
regulation of receptor *in vitro*, endometrium, androgens, testosterone, polycystic ovary syndrome, endometrial thickness 2585

Epididymis
percutaneous epididymal sperm aspiration, TESE/TESA, ultrasonography, Doppler, relation to clinical data 3390
selenium, concentrations, sperm count 2172
seminal fluid, a-glucosidase, infertility, diagnostic value 591
spermatozoa, ICSI, comparison of fertilizing capability, ejaculate/epididymal/testicular, live birth rates 348
Trichomonas vaginalis, identification, azoospermia, letters 2335

Erythromycin
spermatozoa, motility, acrosome reaction 1878

ESHRE Capri Workshop Group
male infertility, diagnosis and treatment, update 2025

Ethics
assisted reproduction, donor gametes, anonymity, Human Fertilisation and Embryology Authority, questionnaire on treatment centre information sharing policy 3274
assisted reproductive techniques, children, welfare, legislation, debate 2339
assisted reproductive techniques, regulatory framework, UK experience, HFEA, debate 1769
donor gametes, anonymity, legislation, opinion 3268
donor insemination, payment of donors, UK survey, public attitudes 771
donor motives in egg share programmes, payment policy, legislation, opinion 2671
donor oocytes, colon cancer, ovulation induction, risk to donor, legislation 227
donor oocytes, statutory information for children, response to HFEA forms, one UK centre 1106
embryo research, international regulation, United States, debate 1
embryo research, legislation, international regulation, debate 2047
fertility treatment for HIV-positive patients, attitudes of treatment centres, UK survey 1085
gamete donation guidelines, Corsendonk consensus document, European Union, legislation 500
posthumous conception, legislation, response to consultation document, Human Fertilisation and Embryology Authority 2654
posthumous reproduction, legislation, donor insemination, donor oocytes 1407
preimplantation genetic diagnosis, legislation, FISH, PCR 2238
prenatal diagnosis, breast cancer gene 1 (*BRCA1*), trisomy 21, debate 1125

Ethylene glycol
ovary, cryopreservation, comparison of cryoprotectants, dimethylsulphoxide, propylene glycol, glycerol 376

Evolution
invertebrates, alloimmunity, maternal–fetal interactions, implantation, letter 503
invertebrates, maternal–fetal interactions, alloimmunity, transplantation, chimerism, opinion 455

Extra-embryonic coelom
extra-embryonic coelomic fluid, first trimester, activins, follistatin, inhibins 2624
first trimester, amniotic fluid, IL-8, monocyte chemotactic peptide-1, differential concentrations 2292

Extracellular matrix
galectin, placenta, first trimester, trophoblast, immunohistochemistry 730

Fallopian tube
adnexal torsion, ischaemia, management, reperfusion, free radical scavengers, follow-up study, rats 2823

ciliary beat frequency, tubal obstruction, *Chlamydia trachomatis*, CBF–serotype correlation 3121
ectopic pregnancy, implantation window, integrins, a_v and b_3 subunit expression in epithelium 2916
epithelial cell culture, differentiation, ciliated phenotype induction, oestradiol 3114
epithelial monolayers, co-culture, spermatozoa, motility, zona-free hamster penetration assay 2797
epithelium, cell viability assessment, nuclear dye, Methylene Blue, salpingoscopy 3414
epithelium, ciliary beat frequency, progesterone, oestradiol, mifepristone 2991
epithelium, MHC class II, antigen expression, menstrual cycle, endocytosis 1163
falloposcopy, technical evaluation 1490
fimbriae, ciliary activity, oocyte retrieval *in vivo*, visualization, laparoscopy 1425
fimbrioplasty, severe occlusions, laparoscopy, *Chlamydia trachomatis*, evaluation of 35 cases 1496
hydrosalpinx, IVF, aspiration, ultrasonography, improved pregnancy rates 736
hysterosalpingography, balloon versus metal cannula, prospective randomized trial 75
infertility, investigation, transvaginal hydrolaparoscopy, outpatient procedure 99
nitric oxide, NO synthase expression, immunohistochemistry 436
oviduct cells, co-culture, embryotrophic factors, partial purification 1613
patency, hystero salpingo contrast sonography, Echovist, transvaginal ultrasound, evaluation of method 3049
salpingectomy, IVF, interstitial pregnancy, sextuplets, case report 762
sonohysterography, contrast-enhanced, tubal patency, letters 3282
tubal infertility, *Chlamydia* antibody testing, laparoscopy, evaluation 1094
tubal ligation, alterations in endometrial perfusion, laser Doppler fluxmetry, controlled clinical study 445
tubal patency assessment, reversal of ligation, transvaginal salpingosonography 2819
tubal patency investigation, hystero salpingo contrast sonography, Echovist, first-line screening procedure, evaluation 1519
tubal pregnancy, methotrexate, mifepristone, combination treatment, randomized controlled trial 1987

Fallopian tube sperm perfusion
intrauterine insemination, clomiphene versus clomiphene + HMG, clinical comparison 3053

Falloposcopy
infertility, diagnosis, hysterosalpingoscopy, laparoscopy, prospective comparison 1815
technical evaluation 1490
tuboplasty, tubal occlusion, linear everting catheter, pregnancy rate 71

Familial Mediterranean fever
colchicine, side-effects, spermatogenesis, sperm function 360

Family planning
natural family planning, planned/unplanned pregnancies, follicular phase length, insemination timing, sex ratio, multicentre prospective study 1397

Fatty acids
deficiency, cystic fibrosis, natural cycle versus clomiphene citrate, insulin, polycystic ovary syndrome 2092
oocytes, composition analysis, IVF, fertilization failure 2227

Febrile morbidity
ovarian hyperstimulation syndrome, severe and critical OHSS, multicentre clinical review 3128

Fecundability
dizygotic twinning rates, reproductive health indicator, letter 3580
seasonality, women's age of marriage, cohort study 3520
smoking, women, meta-analysis 1532
Thai versus European regions, time-to-pregnancy questionnaire 471
time to pregnancy, epidemiology, methodology, statistical analysis, debate 1751

Fentanyl
analgesia, placenta, first trimester, amniotic fluid, coelomic fluid 2317

Ferric hyaluronate
adhesions, prevention gel, peritoneal surgery, randomized placebo-controlled study 1480

Fertility
aluminium industry workers, heat, magnetic fields, demographic analysis 2016
cancer, chemotherapy, radiotherapy, effects on subsequent fertility, natural/assisted conception, semen, cryopreservation 3250
dizygotic twinning as a measure of human fertility 95
heat exposure, spermatogenesis, occupation, review 2122
Kobe earthquake, sex ratio, stress 2321
seasonality, sperm parameters, normal versus IVF populations 2165

Fertilization
ejaculated versus testicular spermatozoa, IVF, ICSI, oocytes, activation, pronucleus formation 1606
gamete fusion, oolemma, b6 integrin, sperm adhesion receptor, immunolabelling 682
IVF, embryo transfer, probability of success, logistic regression model 78
oocytes, pH regulation, sperm–zona interaction, effects of acid/alkaline shock, ICSI 964
spermatozoa, DNA, reactive oxygen species, ICSI, pronucleus formation 1864

Fetal anomalies
IVF, pregnancy termination, motivation, opinion 2377

Fetal antigen 2
Down's syndrome, screening, maternal serum, first trimester 1706

Fetal growth
monochorionic placenta, vascular anatomy, amniotic fluid volume, twin–twin transfusion syndrome 2933
nitric oxide, decreased maternal and fetal production, small for gestational age infants 1070
placenta, 11b-hydroxysteroid dehydrogenase type 2, cortisol, immunohistochemistry 799
small for gestational age infants, hepatocyte growth factor, maternal circulation levels 2950

Fetal reduction
IVF, late selective fetal reduction, prospective study 1996
triplets, obstetric outcomes 3555

a-Fetoprotein
Down's syndrome, second trimester maternal serum screening, free b-HCG, oestriol, clinical comparison 220

Fetus
glutathione S-transferase, ectopic human fetus, immunohistochemistry, GST a and p 1380
haemolytic disease, RhD antigen, Kell antigen, prenatal diagnosis, polymerase chain reaction, outcomes 1472
second and third trimesters, IGF and binding proteins *in vivo*, cordocentesis 1389

Fibrin
placenta, *BCL-2* proto-oncogene, expression, correlation, immunohistochemistry 1717

Fibroblasts
co-culture, preimplantation embryos, IVF, pregnancy rates 1325

Fibroids--see leiomyomata/uterus

Fibrous sheath dysplasia
asthenozoospermia, flagellum, pathology, ultrastructure, fertility prognosis 2521

Fimbrioplasty
severe occlusions, laparoscopy, *Chlamydia trachomatis*, evaluation of 35 cases 1496

Fine needle sperm aspiration
ICSI, fine needle sperm aspiration versus open biopsy, clinical comparison 901

Flagellum
pathology, ultrastructure, fibrous sheath dysplasia, asthenozoospermia, fertility prognosis 2521

Flow cytometry
granulosa cells, IGF-I receptors, description of method, ovulation induction 161
MicroSort, sex preselection, spermatozoa, FISH, blind trial assessment 308
sex preselection, MicroSortâ, intrauterine insemination, IVF, ICSI, first births and clinical trial data 2367
sperm chromatin structure assay, epidemiology, age, smoking, sexual abstinence, evaluation 2495

Folic acid
preimplantation embryos, development, endogenous folate essential, methotrexate, mouse 1312

Follicles
antral follicle development, oocytes, maturation, membrane organization, cortical granules, ultrastructure, mouse 2842
development, primordial/antral stages, *SCID/hpg* mice, FSH, human ovarian xenografts 1133

empty follicle syndrome, HCG, bioavailability, clinical experience 1281
follicular fluid, glycoproteins, sperm–zona binding, inhibition, hemizona assay 2541
follicular fluid, HCG, diffusion rates, adhesions, ovary, IVF 2072
follicular fluid, HCG, oocytes, maturity, IVF, granulosa cells, purification technique 1303
follicular fluid, inhibins, activin, polycystic ovary syndrome 2693
follicular fluid, transforming growth factor a, epidermal growth factor, menstrual cycle, immunohistochemistry 2199
granulosa cells in vitro, FSH, small versus large follicle responses, menstrual cycle, TNFa 1285
granulosa luteal cells, aneuploidy, intrafollicular hormone concentrations, IVF 2679
granulosa luteal cells, steroidogenesis, HMG, FSH, HCG, response *in vitro* 2064
IVF, follicular fluid aspirate volume, oocyte maturity, oocyte recovery rates, embryo quality, prospective study 1901
IVF, ICSI, oocytes from large versus small follicles, fertilization/pregnancy rates 1912
IVF, new source, aspirates, editorial 2337
luteinization, follicular fluid, vascular endothelial growth factor, non-stimulated cycles 1144
preantral follicles, follicular aspirates, maturation *in vitro* 2561
preantral follicles, in-vitro maturation, recombinant LH, mouse 1292
preantral follicles *in vitro*, inhibin A and B, secretion, mouse 927

Follicular fluid
endometrium, stromal cell proliferation *in vitro*, follicular fluid 3492
IVF, 'low responder' patients, cortisol concentrations, fertilization/outcomes 27
sperm–zona binding, hemizona binding assay, IVF patients, male/female factor, endometriosis 128
TGFb1 concentration, ovulation induction, IVF, correlation with outcomes 656
vascular endothelial growth factor, thyroxine, thyroglobulin, IVF, ovarian stimulation 3310

Follicular phase
follicular phase length, contralateral ovulation, ovulation induction, clomiphene citrate, oocytes, maturation *in vivo*, clinical study 1590
ovulation induction, HMG versus GnRH agonist + HMG, progesterone, origin of serum rise, adrenal, dexamethasone 9

Folliculogenesis
angiogenesis, cyclic vascular changes, quantification, vascular endothelial growth factor, intercellular adhesion molecule-1, immunohistochemistry 953
IVF, ovulation induction, follicular fluid, IGF-I, IGFBP-3, measurement in 'poor' versus 'good' responders 285
meiosis, non-disjunction, maternal age, donor oocytes, clinical study 154

Follistatin
first trimester, maternal serum, amniotic fluid 2624
pregnancy, inhibin, activin, pro-a C, maternal serum concentrations, longitudinal study 3530
seminal plasma, testis, prostate, activin A, specific assays, immunohistochemistry 3319

Formaldehyde
zygotes, cryopreservation, propanediol, effects of contamination, mouse 979

Fragile X syndrome
premature ovarian failure, FRAXA premutations, high frequency 1184

Free radical scavengers
adnexal torsion, ischaemia, management, reperfusion, follow-up study, rats 2823

Frozen sections
ovary, cysts, benign/malignant diagnosis, laparoscopy, letters 3575

FSH
azoospermia, non-obstructive, correlation with TESE success, histopathology, testicular volume 3066
basal concentrations, smoking, ovarian reserve, ovulation induction, IVF 2192
follicles, development, primordial/antral stages, *SCID/hpg* mice, human ovarian xenografts 1133
follicles, granulosa luteal cells, steroidogenesis, HCG, response *in vitro* 2064
FSH receptor gene mutation frequency, PCR–SSCP screening test, azoospermia, ICSI 2098
gonadotrophin surge-inhibiting factor, regulation mechanism, LH, GnRH, ovarian cycle 2731
granulosa cells in vitro, small versus large follicle responses, menstrual cycle, TNFa 1285
infertility, male idiopathic, rFSH treatment, randomized placebo-controlled trial 596
LH, naloxone-induced release, healthy fertile women, circulating concentrations, deltorphin, d-opioid receptors 1159
menstrual cycle, early follicular phase, inhibins, women > 35 years, cycle characteristics 1442
oocytes, in-vitro maturation, FSH pretreatment of healthy ovaries, improved maturation rates 3132
oocytes, maturation *in vitro*, epidermal growth factor, mouse 690
ovarian failure, inhibin A, age, sheep, menopause 3016
ovulation induction, exogenous pulsatile GnRH, effect on LH and FSH secretion, ovariectomised women, three regimens tested 525
ovulation induction, follicular phase, spontaneous versus stimulated cycles, leptin, serum concentrations, oestradiol 1152
ovulation induction, FSH peak, controlled timing, oestradiol, clinical study 561
ovulation induction, FSH threshold, polycystic ovary syndrome, octreotide, insulin-like growth factors, clinical study 1465
ovulation induction, leptin, serum concentrations, letters 3281
ovulation induction, low dose FSH, polycystic ovary syndrome, impact of insulin resistance, clinical study 567
ovulation induction, rFSH (Puregon), initial low dose, IVF/ICSI, clinical study 565
ovulation induction, urinary versus recombinant FSH, LH response to GnRH, gonadotrophin surge attenuating factor, clinical trial 2415
recombinant FSH, anovulation, ovulation induction, chronic low-dose regimen, comparative prospective study 2688
recombinant FSH, granulosa–luteal cells, oestradiol, secretion, testosterone, androstenedione 1455
recombinant FSH, ovulation induction, intrauterine insemination, unexplained infertility, three low-dose protocols compared, randomized controlled trial 1527
recombinant FSH, preantral follicles, in-vitro maturation, recombinant LH, mouse 1292
recombinant FSH (Gonal-F), effect on LH secretion, double-blind placebo-controlled study 1139
recombinant FSH (Puregon), GnRH agonist, ganirelix, LH surge prevention, randomized dose-finding study 3023
recombinant FSH (Puregon), IVF, ovulation induction, HMG (Humegon), non-down-regulated cycles 2995
recombinant FSH versus urinary HMG, IVF, ICSI, clinical outcomes 1783
single bolus r-hFSH at mid cycle, periovulatory events, oocyte maturation, ovulation induction, macaques 554
spermatogenesis, in-vitro culture, testicular biopsy, obstructive azoospermia, cell differentiation 2772
spermatogenesis, primates, review 916

Fukuyama-type congenital muscular dystrophy
prenatal diagnosis, polymorphism analysis, microsatellite markers 320

Galectin
cell adhesion, extracellular matrix, placenta, first trimester, trophoblast, immunohistochemistry 730

Gamete donation
guidelines, Corsendonk consensus document, European Union, legislation, ethics 500
payment, ethics, debate 1129

Ganirelix (Org 37462)
GnRH antagonist, FSH, ICSI, pregnancy 294

Genetic diseases
androgen insensitivity syndrome, orchidectomy, hormone replacement therapy, oestrogen, bone mineral density 2816
azoospermia, Y chromosome, deletions, gene markers, polymerase chain reaction, potential problems of method 3032
complex chromosomal rearrangement, 60 year old father, mentally retarded child, FISH, case report 1801
delayed parenthood, effects on offspring, mitochondrial DNA 2371
fibrous sheath dysplasia, asthenozoospermia, flagellum, pathology, ultrastructure, fertility prognosis 2521
fragile X syndrome, premature ovarian failure, FRAXA premutations, high frequency 1184
Fukuyama-type congenital muscular dystrophy, prenatal diagnosis, polymorphism analysis, microsatellite markers 320
ICSI, chromosomal abnormalities, incidence, editorial 781

ICSI, chromosomal abnormalities, prevalence, types, counselling, clinical study 576
ICSI, female partners, chromosomal aberrations, high incidence, 'hidden' infertility factor 48
IVF, risk, prenatal genetic diagnosis, counselling, attitudes of couples, questionnaire 862
Klinefelter's syndrome, non-mosaic, preimplantation genetic diagnosis, testicular spermatozoa, ICSI, birth 1887
oocytes, mitochondrial transfer in mice/humans, methods for isolation and injection, clinical applications, issues in heteroplasmy, infertility 2857
preimplantation genetic diagnosis, ethics, legislation, FISH, PCR 2238
preimplantation genetic diagnosis, IVF, day 4 embryo transfer, successful outcomes 1656
preimplantation genetic diagnosis, b-thalassaemia, aneuploidy, attitudes, Sicily 1936
premature ovarian failure, familial cases, X chromosome, deletion, cytogenetic screening 3039
premature ovarian failure, incidence, inheritance pattern, clinical study 1796
prenatal diagnosis, breast cancer gene 1 (*BRCA1*), trisomy 21, debate 1125
recurrent spontaneous abortion, variant LH, luteal phase defect 2699
spermatozoa, chromosomes, de-novo translocation, G-banding, FISH, analysis of father, risk of transmission 60

Gestational age
aorta, vascular resistance, nitric oxide, rat 214

Gestational length
sex of child, letters 2975

GIFT
twins, spontaneous versus assisted reproduction, comparison of outcome risks 2005

Glass wool filtration
sperm preparation, Percoll gradient centrifugation, acrosome, percentages intact, ultrastructure 2506

Globozoospermia
ICSI, triplets, case report 2177
ICSI, unfertilized oocytes, cytogenetic analysis, premature chromatin condensation, case report 3094

Glucagon
polycystic ovary syndrome, insulin, acute response, obesity, oral glucose tolerance test 847

a-Glucosidase
infertility, diagnostic value, seminal fluid, ejaculate 591

Glutathione
seminal plasma, spermatozoa, decreased intracellular concentrations, infertility 353

Glutathione S-transferase
ectopic human fetus, immunohistochemistry, GST a and p 1380

Glycerol
ovary, cryopreservation, comparison of cryoprotectants, ethylene glycol, dimethylsulphoxide, propylene glycol 376

Glycodelin (see also placental protein 14)
uterine origin, normal women, Rokitansky syndrome 3418

Glycolysis
blastocysts, culture medium, vitamins, amino acids, mouse 991

b_2 Glycoprotein I
anticardiolipin antibodies, recurrent spontaneous abortion, letters 2033

Glycoproteins
follicular fluid, sperm–zona binding, inhibition, hemizona assay 2541

GnRH
exogenous pulsatile GnRH, effect on LH and FSH secretion, ovulation induction, ovariectomised women, three regimens tested 525
gonadotrophin surge-inhibiting factor, regulation mechanism, FSH, LH, ovarian cycle, rat 2731
ovulation induction, gonadotrophins, comparison of protocols, debate 1778
ovulation induction, urinary versus recombinant FSH, LH response to GnRH, gonadotrophin surge attenuating factor, clinical trial 2415

GnRH agonist
Cetrorelix, pharmacokinetics, pharmacodynamics, healthy female volunteers 2392
Cetrorelixâ, dosage, single-dose protocol, IVF, clinical study 2411
dosage, IVF, outcomes, letters 2973
ganirelix, LH surge prevention, recombinant FSH (Puregon), randomized dose-finding study 3023
ICSI, ovarian hyperstimulation syndrome, cerebrovascular infarction, case report 1793
IVF, embryos, cryopreservation, clinical trial with/without GnRHa 2712
IVF, polycystic ovary syndrome, hormone profile, androstenedione, utero-ovarian blood flow 815
minimum dosage to prevent LH surge, ovulation induction, IVF, outcomes 2386
ovarian hyperstimulation syndrome, sole administration of GnRHa, case reports 3421
ovulation induction, luteal phase deficiency, HCG, effective luteal support 3315
ovulation induction, reduced dosage, IVF, outcomes, clinical trial 2382
polycystic ovary syndrome, effect on growth hormone secretion, IGF-I 22
progesterone, pre-ovulatory rise, HMG, adrenal, ovary, letters 2657

GnRH analogue
buserelin, effective minimum dose, ovulation induction, IVF, clinical study 811
long-acting regimen efficacy, ovulation induction, donor oocytes, prospective clinical study 1148

GnRH antagonist
Cetrorelix, leiomyomata, slow-release depot treatment, prospective randomized study 1660
ganirelix, ovarian hyperstimulation syndrome, prevention, IVF, case report 573
ganirelix (Org 37462), FSH, ICSI, pregnancy 294

Gonadotrophin surge attenuating factor
ovulation induction, FSH, urinary versus recombinant FSH, LH response to GnRH, clinical trial 2415
ovulation induction, FSH, recombinant FSH (Gonal-F), effect on LH secretion, double-blind placebo-controlled study 1139

Gonadotrophin surge inhibiting factor
regulation mechanism, FSH, LH, GnRH, ovarian cycle 2731

Gonadotrophins
HMG, i.m. versus s.c. administration, efficacy, prospective randomized study, IVF 836
IVF, granulosa luteal cells, aneuploidy, intrafollicular hormone concentrations 2679
IVF, severe OHSS, prevention, withholding gonadotrophins, clinical study, age, oestradiol 1157
LHb core fragment, urinary molecular fragments, immunoradiometric assay, ovulation, test kits, potentially confounded 826
oocytes, maturation *in vitro*, germinal vesicle stage, epidermal growth factor, cumulus oophorus 1638
ovulation induction, FSH threshold, polycystic ovary syndrome, octreotide, insulin-like growth factors, clinical study 1465
ovulation induction, GnRH, comparison of protocols, debate 1778
pregnant mare's serum gonadotrophin, ovulation induction, donor oocytes, embryos, viability reduction, hamster 724
recombinant FSH versus urinary HMG, ovulation induction, IVF, ICSI, clinical outcomes 1783

Gout
colchicine, side-effects, spermatogenesis, sperm function 360

Granulocyte-macrophage colony stimulating factor
endometrium, decidualization, morphology and function, levonorgestrel, intrauterine release, prolactin receptor, immunohistochemistry 1218

Granulosa cell tumours
endometriosis, leiomyomata, case report 1357
ovary, incidence, fertility drugs, oral contraceptives, Finland 2828

Granulosa cells
IGF-I receptors, flow cytometry, description of method, ovulation induction 161
progesterone, anovulation, spontaneous abortion, polycystic ovary syndrome, IVF patients, *in vivo*/*in vitro* 290

Granulosa luteal cells
aneuploidy, intrafollicular hormone concentrations, IVF 2679
IGFBP-1, progesterone, steroidogenesis, octreotide 146
low density lipoprotein uptake, HCL-2 monoclonal antibody, apolipoprotein-B, immunohistochemistry 936, 944
oestradiol, secretion, recombinant FSH, testosterone, androstenedione 1455
steroidogenesis, HMG, FSH, HCG, response *in vitro* 2064
steroidogenesis, in vitro, progesterone, endothelin-1, inhibition 2425

Growth
fetal growth, nitric oxide, decreased maternal and fetal production, small for gestational age infants 1070

Growth colony stimulating factor
congenital neutropenia, IVF, term delivery, case report 498

Growth hormone
GnRH agonist, polycystic ovary syndrome, effect on growth hormone secretion, IGF-I 22
leiomyomata, acromegaly, clinical relationship 1945
menopause, body weight, somatotropic axis, insulin-like growth factors, arginine, obesity, pre-/post-menopausal women 279
Growth retardation
heated testes, sperm quality, reduced IVF rate, reduced embryo weight, mouse 372
heated testes, transient embryo growth retardation, mouse 342
Gynaecology
laparoscopy, diagnostic and operative, complications, long-term multicentre study 867

Haematocolpos
vaginal septum, hysteroscopy, resection, case report 1500
Haematocrit
biological marker of severity of OHSS, leukocytes, platelets, renin–aldosterone system 2406
Haemoconcentration
ovarian hyperstimulation syndrome, thromboembolism, no evidence of haemoconcentration, case reports 2088
Haemolytic disease
fetus, RhD antigen, Kell antigen, prenatal diagnosis, polymerase chain reaction, outcomes 1472
Haemophilia
preimplantation genetic diagnosis, IVF, day 4 embryo transfer, successful outcomes 1656
Haemostasis
electrodesiccation, thrombin, comparative study, rabbit 1493
Hamster egg penetration test
TEST-yolk buffer, diagnostic accuracy, acrosin activity 2115
Hatching
embryos, implantation, outgrowth *in vitro*, epidermal growth factor, anti-EGF prevents outgrowth, mouse 2231
HCG
bioavailability, empty follicle syndrome, clinical experience 1281
cytotrophoblasts, secretion and regulation *in vitro*, sex hormone binding globulin 1368
ectopic pregnancy, inhibin A, evaluation as surveillance marker 2305
follicular fluid, diffusion rates, adhesions, ovary, IVF 2072
follicular fluid, oocytes, maturity, IVF 1303
free b-HCG, Down's syndrome, second trimester maternal serum screening, a-fetoprotein, oestriol, clinical comparison 220
intramuscular versus subcutaneous administration, bioavailability, pituitary suppression, healthy females, randomized cross-over study 1461
IVF, empty follicle syndrome, faulty HCG administration, clinical report 2703
IVF, vascular endothelial growth factor, maternal serum concentrations, longitudinal study, first trimester, oestradiol, competitive radioimmunoassay 1057
luteal phase, corpus luteum, macrophages, decrease in numbers, immunohistochemistry 2435
luteal phase defect, effect on progesterone production, clinical study 1907
oligoasthenozoospermia, LH pulsatility, HCG response 2782
ovulation induction, FSH, single bolus r-hFSH at mid cycle, periovulatory events, oocyte maturation, macaques 554
ovulation induction, GnRH agonist, luteal phase deficiency, effective luteal support 3315
pregnancy, ectopic/intrauterine, first trimester, bioactivity/immunoreactivity, maternal serum 2629
recombinant HCG, oocytes, maturation *in vitro*, culture, epidermal growth factor, mouse 664
recurrent spontaneous abortion, value in pregnancy outcome prediction, placental protein 14, ultrasonography 3525
HCL-2 monoclonal antibody
apolipoprotein-B, granulosa–luteal cells, low density lipoprotein uptake, immunohistochemistry 936, 944
Health care resources
IVF, children, neonatal period, utilization 2055
Heart
cardiovascular function, hormone replacement therapy, postmenopausal women, prospective study 2399
Heart transplant
pregnancy, immunosuppression, literature review, case report 749
Heat
fertility, aluminium industry workers, magnetic fields, demographic analysis 2016
Heat exposure
spermatogenesis, fertility, occupation, review 2122
Heat shock proteins
hsp60, *Chlamydia trachomatis*, ectopic pregnancy, serological response, pelvic inflammatory disease 1088
HSP60, *Chlamydia trachomatis*, infertility, spontaneous abortion, clinical evaluation 1175
monoclonal antibodies, embryos, impaired development in vitro, mouse 987
Heparin-binding EGF
preimplantation embryos, culture medium, improved development 1645
Hepatocyte growth factor
maternal circulation levels, small for gestational age infants 2950
Heteroplasmy
oocytes, mitochondrial transfer in mice/humans, methods for isolation and injection, clinical applications, issues in heteroplasmy 2857
Heterotopic pregnancy
interstitial pregnancy, IVF, case report 1547
triplets, monozygotic twinning, IVF, two embryos replaced, case report 1999
Hirsutism
polycystic ovary syndrome, insulin resistance, bone mineral density, antiandrogens, clinical trial 2703
Histones
testis-specific histone 2B, spermatozoa, testis, immunohistochemistry 1559
HMG
contaminants, side-effects, immunology, allergy, lymphocytes, interleukins 2430
follicles, granulosa luteal cells, steroidogenesis, HCG, response *in vitro* 2064
HMG (Humegon), IVF, ovulation induction, recombinant FSH (Puregon), non-down-regulated cycles, prospective clinical trial 2995
i.m. versus s.c. administration, efficacy, prospective randomized study, IVF 836
intrauterine insemination, sequential clomiphene citrate/HMG treatment, previous CC/IUI failure, male/female age, pregnancy rates 2110
overdose, perivitelline space, granularity, ICSI 3425
ovulation induction, HMG versus GnRH agonist + HMG, follicular phase, progesterone, origin of serum rise, adrenal, dexamethasone 9
ovulation induction, recombinant FSH versus urinary HMG, IVF, ICSI, clinical outcomes 1783
progesterone, pre-ovulatory rise, GnRH agonist, adrenal, ovary, letters 2657
Hormone replacement therapy
cardiovascular function, postmenopausal women, prospective study 2399
coronary heart disease, thromboembolism, stroke, ESHRE Capri Workshop 2325
donor oocytes, embryo transfer, implantation window, duration of progesterone therapy, postmenopausal women, pregnancy rates 720
endometrium, histological analysis, compared with healthy luteal phase controls 1674
oestrogen, androgen insensitivity syndrome, bone mineral density 2816
ovary, cultured veins, human postmenopausal serum, intimal hyperplasia, reduced by oestrogen 1449
tibolone, continuous combined oestrogen plus progesterone, prospective randomized trial, morphological and biochemical responses, CA125, placental protein 14 2261
Human Fertilisation and Embryology Authority
assisted reproductive techniques, regulatory framework, UK experience, debate 1769
donor gametes, anonymity, legislation, Human Fertilisation and Embryology Authority, questionnaire on treatment centre information sharing policy 3274
HFEA Code of Practice, child welfare, IVF clinics, operational protocols, UK survey 766
posthumous conception, ethics, legislation, response to consultation document 2654
Human immunodeficiency virus
HIV-1 carrier male, ICSI, washed semen, pregnancy, case report 3247
screening, fertility treatment for HIV-positive patients, attitudes of treatment centres, UK survey 1085

Human leukocyte antigens
HLA class I, endometrium, decidualization, stromal cells, b_2-microglobulin 2246
HLA class II alleles, recurrent spontaneous abortion, antiphospholipid antibodies 3326
HLA-DR typing, recurrent late spontaneous abortion, cervical incompetence, unsuccessful cerclage, clinical study 1079
leukocytes, ovary, distribution and characterization, immunohistochemistry 2186
parental tissue matching, IVF, implantation failure, clinical study 39
parental tissue matching, spontaneous abortion risk, Hutterites, 10 year prospective study 33
soluble HLA-I, serum concentrations, endometriosis, stage of disease, non-pigmented peritoneal lesions 3206
Hutterites
human leukocyte antigens, parental tissue matching, spontaneous abortion risk, 10 year prospective study 33
Hyaluronidase
cumulus cell removal, Coronase versus hyaluronidase, human and mouse oocytes, ICSI 1933
Hydrogen peroxide
reactive oxygen species, preimplantation embryos, fragmentation, apoptosis, IVF 998
Hydrosalpinx
blastocyst development rate, cell count, mouse 2852
diagnosis by ultrasound, reduced implantation/pregnancy rates, IVF 1696
fluid composition, cytotoxicity, lack of evidence, embryos, granulosa cells 1620
hydrosalpingeal fluid, embryo development *in vitro*, implantation process *in vitro* 2921
IVF, aspiration, ultrasonography, improved pregnancy rates 736
IVF, lower pregnancy rates, clinical experience 983
Hydrothorax
ovarian hyperstimulation syndrome, case reports 859
Hydroxyethyl starch solution
ovarian hyperstimulation syndrome, prophylaxis, i.v. administration, IVF, randomized placebo-controlled trial 2421
11b-Hydroxysteroid dehydrogenase type 2
placenta, cortisol, immunohistochemistry, intrauterine growth restriction 799
Hyperinsulinaemia
polycystic ovary syndrome, oral drug treatments, effectiveness, risks, Troglitazone, debate 5
Hypertension
pregnancy-induced hypertension, oocyte donation, obstetric and perinatal outcome, comparison with IVF 483
Hypo-osmotic swelling test
sperm subtypes, incubation time, cytoskeleton 1578
spermatozoa, motility, membrane integrity, *Ureaplasma urealyticum* 2756
Hypogonadism
azoospermia, adrenoleukodystrophy (ALD), adult cerebral ALD, spermatozoa, morphological alterations, case report 2474
Hypoplastic uterus
hysteroscopy, metroplasty, clinical outcomes 2751
Hystero salpingo contrast sonography
Echovist, transvaginal ultrasound, evaluation of method 3049
tubal patency investigation, Echovist, first-line screening procedure, evaluation 1519
Hysterosalpingography
balloon versus metal cannula, prospective randomized trial 75
ICSI, hysterosonography, prospective comparison, pregnancy/miscarriage rates 2461
Hysterosalpingoscopy
infertility, diagnosis, falloposcopy, laparoscopy, prospective comparison 1815
Hysteroscopy
double uterus, vaginal septum, resection, case report 1500
menorrhagia, implant users, Norplant, vascularity, precise measurement of structures 3190
metroplasty, diethylstilboestrol exposure, hypoplastic uterus, clinical outcomes 2751
septate uterus, resection, reproductive outcomes, infertility, recurrent abortion 1188
Hysterosonography
ICSI, hysterosalpingography, prospective comparison, pregnancy/miscarriage rates 2461
infertility, diagnosis, first-line screening, clinical evaluation 2463

ICSI
absolute immobtile spermatozoa, repeated ejaculation, improved fertilization capacity, clinical results 630
andrology, role in assisted reproduction, need for clinical andrologists, debate, infertility 253
AZFb microdeletion, azoospermia, testicular sperm extraction, prognostic test 2812
AZFc microdeletion, frequency in future generations, mathematical model 2808
azoospermia, FSH receptor gene mutation frequency, PCR–SSCP screening test 2098
azoospermia, non-obstructive, testicular biopsy, elongated spermatids, clinical results 709
azoospermia, non-obstructive, testicular sperm extraction, enzymatic treatment, sperm recovery, clinical experience 2791
azoospermia, obstructive, fine needle sperm aspiration versus open biopsy, clinical comparison 901
binovular zona pellucida, normal development, two cases 2575
binuclear oocyte, maturation *in vitro*, genetic constitution, triploidy, case report 1653
cancer, chemotherapy, radiotherapy, effects on subsequent fertility, semen, ICSI 3250
chromosomal abnormalities, incidence, editorial 781
chromosomal abnormalities, prevalence, types, genetic diseases, counselling, clinical study 576
clinical experience, follow-up data, multicentre survey, ESHRE Task Force 1737
cryopreservation, embryos, IVF versus ICSI, comparison of outcomes 2848
cryopreservation versus fresh epididymal spermatozoa, microepididymal sperm aspiration, percutaneous epididymal sperm aspiration, outcomes 1872
cumulus cell removal, Coronase versus hyaluronidase, human and mouse oocytes 1933
donor oocytes, anovulation, oligoasthenoteratozoospermia, shared egg donation programme 2158
donor oocytes, cryopreservation, pregnancies 3156
electroejaculation, IVF, clinical experience 1854
embryos, co-culture, Buffalo rat liver cells, assisted hatching, IVF, pregnancy rates 165
embryos, IVF, multinucleated blastomeres, poor implantation rates, clinical experience 960
embryos, viability, early cleavage, selection for transfer, pregnancy rates 182
female age > 39 years, embryo quality, number of embryos replaced, clinical outcomes 884
female partners, chromosomal aberrations, high incidence, 'hidden' infertility factor 48
fertilization failure, implications for prognosis, clinical study 2212
follicles, oocytes from large versus small follicles, fertilization/pregnancy rates 1912
globozoospermia, triplets, case report 2177
globozoospermia, unfertilized oocytes, cytogenetic analysis, premature chromatin condensation, case report 3094
GnRH agonist, ovarian hyperstimulation syndrome, cerebrovascular infarction, case report 1793
HIV-1 carrier male, washed semen, pregnancy, case report 3247
HMG, overdose, perivitelline space, granularity 3425
hysterosonography, hysterosalpingography, prospective comparison, pregnancy/miscarriage rates 2461
IVF, ejaculated versus testicular spermatozoa, oocytes, activation, pronucleus formation 1606
IVF versus ICSI, perinatal outcomes, retrospective clinical study 1514
Klinefelter's syndrome, non-mosaic, preimplantation genetic diagnosis, testicular spermatozoa, birth 1887
leiomyomata, retrospective controlled study, pregnancy delivery rates 198
low pregnancy rate, IVF, low fertilization rate, comparison with male-factor couples 65
maternal age, paternal age, fertilization/pregnancy rates, retrospective study 334
microepididymal sperm aspiration (MESA), mini-MESA, description of technique, clinical outcomes 1260
mitochondrial DNA inheritance, letter 1747
obstructive azoospermia, percutaneous epididymal sperm aspiration, microsurgical epididymal sperm aspiration, testicular sperm extraction, clinical comparison 620

oligoasthenoteratozoospermia, pregnancy outcomes 2161
oligoasthenoteratozoospermia, Y/autosome translocation, normal offspring, case report 2745
oocyte denudation, micro-injection, timing of procedures, effect on survival/fertilization rates/embryo quality 3160
oocytes, failed fertilization, DNA fragmentation, DAPI and TUNEL labelling 703
oocytes, morphology, fertilization rate, embryo quality, implantation rate 3431
oocytes, pH regulation, effects of acid/alkaline shock, sperm–zona interaction 964
oocytes, polarity, cloning, assisted reproductive techniques, opinion 3303
oocytes, preincubation, fertilization/implantation rates 1014
oocytes, preincubation time, effect on fertilization rates 2223
ovarian hyperstimulation syndrome, effect on oocyte, case report 2583
ovulation induction, low responders, IVF vs ICSI, prospective comparison 2126
ovulation induction, recombinant FSH versus urinary HMG, clinical outcomes 1783
partial zona dissection–insemination, comparison, cynomolgus monkey 2555
percutaneous epididymal sperm aspiration, repeated procedure, efficacy and safety, clinical trial 2805
preimplantation embryos, development, IVF, paternal influence, abnormal spermatozoa 1632
preimplantation embryos, morphology, predictive value, implantation/pregnancy rates 2869
preimplantation embryos, multinuclear blastomeres, genetic analysis, FISH 1625
preimplantation genetic diagnosis, cumulus–oocyte complex, effect of no. of COC on outcome after PGD, clinical study 3169
prenatal diagnosis, chorionic villous sampling, amniocentesis, obstetric outcomes 2958
pronucleus formation, spermatozoa, DNA, reactive oxygen species 1864
protocol without PVP, fertilization rates 1922
rhesus monkey model 3449
round spermatid injection, hybrid sterile mice, normal fertilization and embryo development 3099
round spermatid injection, round spermatid nucleus injection, clinical value, debate 509
round spermatid injection (ROSI), elongated spermatid injection (ELSI), current problems, opinion 255
round spermatids, identification, phase-contrast microscopy, FISH, preclinical research 1570
sex preselection, flow cytometry, MicroSortâ, first births and clinical trial data 2367
sex ratios, hormonal influences, sex preselection, Y sperm enrichment, letter 2659
sperm selection, electric field trapping, description of method 136
spermatids, successful pregnancy 1898
spermatids, clinical pregnancy rate, multiple pregnancies 104
spermatids, testicular sperm extraction, debate 2045
spermatozoa, chromosome analysis, hamster oocytes, injection and culture techniques, omission of CA^{2+} 1336
spermatozoa, comparison of fertilizing capability, ejaculate/epididymal/testicular, live birth rates 348
spermatozoa, fresh versus frozen–thawed spermatozoa, testicular sperm extraction, outcomes 1893
spermatozoa, immotile, cryopreservation, full-term delivery 3399
spermatozoa, straight line velocity, prospective study, fertilization rate, embryo quality 3103
stress, psychological evaluation, IVF, comparison 1403
supernumerary embryos, development to blastocysts, pregnancy/implantation rates, prediction 2564
testicular sperm extraction, associated risks, caution against use, alternative methods, letters 505
testicular sperm extraction, ejaculated spermatid detection, immunofluorescence, monoclonal antibody, prediction of TESE outcome 3061
testicular sperm extraction, testicular biopsy, histological analysis, FSH, cryopreservation, clinical study 1230
testicular sperm extraction, Y chromosome, *AZFc* deletion, azoospermia, oligozoospermia, fertilization/pregnancy rates 3332
testicular spermatozoa, motility, testicular histology, clinical outcomes 890
testis, cancer, successful treatments, electroejaculation, testicular sperm extraction 414
transport of gametes over long distances, air freight, pregnancies, letter 3576
trisomy 21, paternal origin, asthenoteratozoospermia, spontaneous abortion, case report 3345
zona-free hamster egg penetration test, correlation 1928

Immunofluorimetric assay
pre-ovulatory LH surge, detection in urine, creatinine adjustment 15

Immunoglobulins
massive i.v. Ig treatment, recurrent spontaneous abortion, clinical efficacy 2620

Immunology
allergy, intrauterine insemination, penicillin, case report 3368
alloimmunity, maternal–fetal interactions, transplantation, invertebrates, chimerism, evolution, opinion 455
anticardiolipin antibodies, uterine artery, pulsatility index, unexplained infertility 3487
antiphospholipid antibodies, HLA class II alleles, recurrent spontaneous abortion 3326
antiphospholipid antibodies, IVF, spontaneous abortion after first embryo transfer, clinical study 1180
antisperm antibodies, diagnosis, management, assisted reproductive techniques, survey by questionnaire 3363
antisperm antibodies, semen, large granular lymphocytes, increased numbers, flow cytometry 296
endometriosis, stage of disease, non-pigmented peritoneal lesions, soluble HLA-I, intercellular adhesion molecule-1, serum concentrations 3206
HMG, contaminants, side-effects, allergy, lymphocytes, interleukins 2430
human leukocyte antigens, parental tissue matching, IVF, implantation failure, clinical study 39
human leukocyte antigens, parental tissue matching, spontaneous abortion risk, Hutterites, 10 year prospective study 33
immunoglobulins, massive i.v. Ig treatment, recurrent spontaneous abortion, clinical efficacy 2620
implantation, maternal–fetal interactions, alloimmunity, invertebrates, evolution, letter 503
leukocytes, ovary, distribution and characterization, immunohistochemistry, human leukocyte antigen 2186
MHC class II, antigen expression, Fallopian tube, epithelium, endocytosis 1163
neutrophil activation, soluble endothelial selectins, pre-eclampsia 3537
spontaneous recurrent abortion, activated autologous blood therapy, i.m. injections, detectable immune effects 491

Immunosuppression
heart transplant, pregnancy, literature review, case report 749

Implanonâ
contraception, implant users, Norplantâ, 2-year comparative study, endometrium, cervix, histology/cytology 3057

Implantation
assisted reproduction cycles, placental protein 14, circulating concentrations, menstrual cycle, implantation/pregnancy rates 2612
donor oocytes, ovulation induction, GnRH analogue, long-acting regimen efficacy, prospective clinical study 1148
ectopic pregnancy, Fallopian tube, implantation window, integrins, a_v and b_3 subunit expression in epithelium 2916
embryos, outgrowth *in vitro*, epidermal growth factor, anti-EGF prevents outgrowth, mouse 2231
endometrium, Le^y oligosaccharide, immunohistochemistry, menstrual cycle, mifepristone, rhesus monkey 1374
endometrium, placental protein 14, mifepristone, luteal phase administration, rhesus monkey 3478
endometrium, receptivity, apoptosis, glandular epithelium, bcl-2 protein 3177
endometrium, receptivity, colour Doppler, transvaginal ultrasonography, IVF, prediction 1669
endometrium, receptivity, luteal phase defect, integrins, patterns of expression, immunohistochemistry 3460
ICSI, oocytes, morphology, embryo quality, implantation rate 3431
IVF, embryo transfer, probability of success, logistic regression model 78
IVF, hydrosalpinx, diagnosis by ultrasound, reduced implantation/pregnancy rates 1696
IVF, preimplantation embryos, assisted hatching, enzymatic treatment, blastocyst transfer, implantation rates 2926
IVF, preimplantation embryos, hydrosalpingeal fluid, embryo development *in vitro*, implantation process *in vitro* 2921
junctional zone contractions, endometrium, myometrium, embryo transfer, ultrasonography, ectopic pregnancy 1540

maternal–fetal interactions, alloimmunity, invertebrates, evolution, letter 503
maternal–fetal interactions, alloimmunity, transplantation, invertebrates, chimerism, evolution, opinion 455
MUC1, endometrium, regional specialization, menstrual cycle, immunohistochemistry 2902
T-lymphocytes, leukaemia inhibitory factor, uterine expression, endometrium, receptivity, pseudopregnant mouse 2888
uterine contractions, embryo transfer, altered pregnancy rates, progesterone, uterine relaxing properties 1968
uterus, epithelium, trophoblast, adhesion force measurement 3211

Infertility
absolute immobtile spermatozoa, repeated ejaculation, ICSI, improved fertilization capacity, clinical results 630
andrology, role in assisted reproduction, need for clinical andrologists, debate 253
aneuploidy, spermatozoa, morphology, paternal age, fertile/infertile, in-situ hybridization 3406
anovulation, donor oocytes, oligoasthenoteratozoospermia, ICSI, shared egg donation programme 2158
anovulation, ovulation induction, recombinant FSH, chronic low-dose regimen, comparative prospective study 2688
antisperm antibodies, semen, large granular lymphocytes, increased numbers, flow cytometry 296
assisted reproductive techniques, adjustment by patients to failure, counselling, psychological evaluation 1099
assisted reproductive techniques, cost analysis, health maintenance organizations, preferred provider organizations, outcome assessment 1200
assisted reproductive techniques, weight loss, improved outcomes, prospective study 1502
azoospermia, ICSI, FSH receptor gene mutation frequency, PCR–SSCP screening test 2098
azoospermia, polycystic kidney disease, 'seminal megavesicles', ultrasonography, vasography, case descriptions 1567
azoospermia, spermatogenesis, maturation arrest, Sertoli cell-only syndrome, telomerase, oestradiol 1476
azoospermia, spermatogenesis, obstructive azoospermia, seminal plasma, magnetic resonance spectroscopy, diagnostic capability 132
azoospermia, Y chromosome, deletions, gene markers, polymerase chain reaction, potential problems of method 3032
azoospermia, Y chromosomes, microdeletions, molecular diagnosis of AZF, debate 1764
Chlamydia antibody testing, tubal infertility, laparoscopy, evaluation 1094
cigarette smoking, corpus luteum, progesterone, LH, letter 3576
cystic fibrosis, ovulation induction, natural cycle versus clomiphene citrate, insulin, fatty acid deficiency, polycystic ovary syndrome 2092
diagnosis, falloposcopy, hysterosalpingoscopy, laparoscopy, prospective comparison 1815
diagnosis, first-line screening, hysterosonography, clinical evaluation 2463
endometriosis, sperm–zona binding, hemizona binding assay, follicular fluid, IVF patients, male/female factor 128
endometrium, placental protein 14, uterine flushings, collection technique, method of expression of results 3357
genetic diseases, oocytes, mitochondrial transfer in mice/humans, methods for isolation and injection, clinical applications, issues in heteroplasmy 2857
globozoospermia, ICSI, triplets, case report 2177
hamster egg penetration test, TEST-yolk buffer, diagnostic accuracy, acrosin activity 2115
ICSI, chromosomal abnormalities, prevalence, types, genetic diseases, counselling, clinical study 576
ICSI, female partners, chromosomal aberrations, high incidence, 'hidden' infertility factor 48
investigation, transvaginal hydrolaparoscopy, outpatient procedure 99
IVF, follow-up study, marital and sexual function 3569
IVF, low fertilization rate, ICSI, low pregnancy rate, comparison with male-factor couples 65
leiomyomata, myomectomy, literature review 873
LH, b-subunit variant, increased prevalence, infertile population 3338
male infertility, diagnosis and treatment, ESHRE Capri Workshop Group, update 2025
male subfertility, intrauterine insemination, stimulated versus non-stimulated cycles, randomized cross-over study 1553
management, patient satisfaction, postal questionnaire 1831
pelvis, diagnosis, adhesions, endometriosis, ultrasonography, transvaginal, laparoscopy 330
premature ovarian failure, familial cases, X chromosome, deletion, cytogenetic screening 3039
psychiatric morbidity, counselling, clinical survey 1733
psycho-social factors, psychotherapy, selected cases 232
seminal fluid, ejaculate, a-glucosidase, diagnostic value 591
septate uterus, hysteroscopy, resection, reproductive outcomes 1188
Sertoli-cell-only syndrome, Y chromosomes, microdeletions, high frequency, PCR 302
smoking, women, meta-analysis 1532
spermatozoa, aneuploidy, chromosomes 13 and 21, infertile men, oligozoospermia, teratozoospermia 2787
spermatozoa, glutathione, decreased intracellular concentrations 353
spermatozoa, motility *in vitro*, coital lubricants, CASA, KY jelly, olive oil, saliva 3351
spermatozoa, vitamin C, vitamin E, motility, acrosome reaction, debate 2984
spermatozoa, zona-free hamster egg penetration test, IVF, ICSI, correlation 1928
spontaneous abortion, HSP60, *Chlamydia trachomatis*, clinical evaluation 1175
subfertile couples, spontaneous conception, prediction model, letters 1411
tubal infertility, falloposcopy, technical evaluation 1490
tubal obstruction, Fallopian tube, ciliary beat frequency, *Chlamydia trachomatis*, CBF–serotype correlation 3121
tubal occlusion, Falloposcopic tuboplasty, linear everting catheter, pregnancy rate 71
unexplained infertility, anticardiolipin antibodies, uterine artery, pulsatility index 3487
unexplained infertility, endometriosis, artificial insemination by husband, clinical comparison of outcomes 2602
unexplained infertility, endometriosis, fertilization rates, tubal infertility, donor insemination, oocytes, spermatozoa, dysfunction 1825
unexplained infertility, intrauterine insemination, ovulation induction, recombinant FSH, three low-dose protocols compared, randomized controlled trial 1527
vasectomy reversal, IVF, ICSI, debate 1757
waiting list patients, IVF, treatment-independent pregnancy rate 1206

Inhibins
Down's syndrome, screening test, maternal dimeric inhibin A, second trimester, clinical evaluation 744
endometrium, menstrual cycle, activin, immunohistochemistry 3469
first trimester, maternal serum, amniotic fluid 2624
follicular fluid, activin, polycystic ovary syndrome 2693
inhibin A, ectopic pregnancy, evaluation as surveillance marker, HCG 2305
inhibin A, ovarian failure, FSH, age, sheep, menopause 3016
inhibin A and B, secretion, preantral follicles *in vitro*, mouse 927
inhibin B, testicular origin, seminal plasma, spermatogenesis, Sertoli cell, clinical study 920
menstrual cycle, early follicular phase, FSH, women > 35 years, cycle characteristics 1442
peritoneal fluid, menstrual cycle, endometriosis 2606
pregnancy, activin, pro-a C, follistatin, maternal serum concentrations, longitudinal study 3530

Inner cell mass
blastocysts, mosaicism, no selection for euploidy, FISH 3151
reduced cell number, blastocysts, oocytes, ultra-rapid, mouse 1595

Insemination
timing of insemination, sex ratio, follicular phase length, letters 3280

Insemination timing
sex ratio, follicular phase length, planned/unplanned pregnancies, natural family planning, multicentre prospective study 1397

Insulin
cystic fibrosis, natural cycle versus clomiphene citrate, fatty acid deficiency, polycystic ovary syndrome 2092
glucagon, acute response, polycystic ovary syndrome, obesity, oral glucose tolerance test 847
hyperinsulinaemia, polycystic ovary syndrome, oral drug treatments, effectiveness, risks, Troglitazone, debate 5
insulin resistance, polycystic ovary syndrome, hirsutism, bone mineral density, antiandrogens, clinical trial 2703
polycystic ovary syndrome, leptin, prediction of serum concentration, obesity, body mass index, menstrual cycle 547

polycystic ovary syndrome, ovulation induction, low dose FSH, impact of insulin resistance, clinical study 567
polycystic ovary syndrome, pregnancy, insulin resistance, clinical study 542

Insulin-like growth factors
folliculogenesis, IVF, ovulation induction, follicular fluid, IGF-I, IGFBP-3 285
IGF and binding proteins *in vivo*, fetus, second and third trimesters, cordocentesis 1389
IGF-I, culture media, preimplantation embryos, enhanced development 3144
IGF-I, polycystic ovary syndrome, GnRH agonist, effect on growth hormone secretion 22
IGF-I receptors, granulosa cells, flow cytometry, description of method, ovulation induction 161
IGFBP-1, corpus luteum, endothelial cells, angiogenesis, marmoset 2180
IGFBP-1, dexamethasone, antenatal treatment for prematurity, effect on maternal synthesis by decidua 1714
IGFBP-1, steroidogenesis, granulosa–luteal cells, octreotide 146
menopause, body weight, somatotropic axis, growth hormone, arginine, obesity, pre-/post-menopausal women 279
polycystic ovary syndrome, octreotide, ovulation induction, FSH threshold, clinical study 1465

Integrins
a_v and b_3 subunit expression in epithelium, Fallopian tube, ectopic pregnancy, implantation window 2916
endometrium, luteal phase defect, patterns of expression, immunohistochemistry 3460
b6 integrin, sperm adhesion receptor, oolemma, gamete fusion, immunolabelling 682
integrin a_vb_3, endometrium, vascular expression, menstrual cycle, endometriosis, angiogenesis, immunohistochemistry 1030
integrin a_vb_3, unreliability of antibody staining in formalin-fixed tissue, endometriosis, letter 3578

Intercellular adhesion molecule-1
folliculogenesis, angiogenesis, cyclic vascular changes, quantification, vascular endothelial growth factor, immunohistochemistry 953
ovary, cancer, cystic tumours, soluble adhesion molecules in cyst fluid and serum, E-cadherin, CD44 2831
serum concentrations, endometriosis, stage of disease, non-pigmented peritoneal lesions 3206

Interferon g
effect on cytokine secretion, endometrium, stromal cells *in vitro*, IL-6/IL-8, monocyte chemoattractant protein-1, macrophage colony-stimulating factor 2598

Interleukins
cervical ripening, nitric oxide, mechanism, debate 245
IL-1, preimplantation embryos, mRNA in single blastomeres, RT–PCR 2206
IL-10, placenta, term, parturition, prostaglandin E_2 3560
IL-1b, corpus luteum, steroidogenesis, modulation, leukocytes, flow cytometry 1584
IL-4, IL-10, corpus luteum, function and differentiation, luteal cells, peripheral blood mononuclear cells, pregnant/non-pregnant women 2738
IL-6, preimplantation embryos, co-culture, Vero cells 1600
IL-6/IL-8, endometrium, stromal cells *in vitro*, interferon g, effect on cytokine secretion, monocyte chemoattractant protein-1, macrophage colony-stimulating factor 2598
IL-8, amniotic fluid, extra-embryonic coelom, differential concentrations, first trimester 2292
IL-8, peritoneal fluid, endometriosis, relationship to stage of disease 1957
lymphocytes, HMG, contaminants, side-effects 2430
placenta, trophoblasts, tumour necrosis factor-a, receptor shedding *in vitro*, IL-1 dependent regulation 2308

Interstitial pregnancy
cornual pregnancy, colour Doppler, methotrexate, case report 1723
heterotopic pregnancy, IVF, case report 1547
methotrexate, case report, literature review 1981
salpingectomy, IVF, sextuplets, case report 762

Intraepithelial leukocytes
endometriosis, adenomyosis, menstrual cycle, characterization and quantification, eutopic versus ectopic endometrium 2910

Intrauterine device
copper intrauterine device, menstruation, pain, uterine artery, blood flow, diclofenac, clinical study 2480
copper IUD, regularly menstruating women, uterine artery, blood flow, pain 1841

Intrauterine growth restriction
placenta, 11b-hydroxysteroid dehydrogenase type 2, cortisol, immunohistochemistry 799

Intrauterine insemination
allergy, penicillin, case report 3368
donor insemination, LH monitoring, cumulative pregnancy rates, 3-year clinical review 3045
Fallopian tube sperm perfusion, clomiphene versus clomiphene + HMG, clinical comparison 3053
male subfertility, stimulated versus non-stimulated cycles, randomized cross-over study 1553
multiple pregnancy, quintuplets, delayed interval delivery, case report 224
ovulation induction, clomiphene citrate, contralateral ovulation, follicular phase length, oocytes, maturation *in vivo*, clinical study 1590
ovulation induction, sequential clomiphene citrate/HMG treatment, previous CC/IUI failure, male/female age, pregnancy rates 2110
semen preparation, swim-up versus test yolk buffer incubation, randomized controlled trial 1859
sex preselection, flow cytometry, MicroSortâ, first births and clinical trial data 2367
unexplained infertility, ovulation induction, recombinant FSH, three low-dose protocols compared, randomized controlled trial 1527

Invertebrates
alloimmunity, maternal–fetal interactions, implantation, evolution, letter 503
alloimmunity, transplantation, maternal–fetal interactions, chimerism, evolution, opinion 455

Iodixanol
sperm preparation, density gradient centrifugation, alternatives to Percoll, ISolate/PureSperm/OptiPrep, evaluation 3139

Ischaemia
ovary, adnexal torsion, management, reperfusion, free radical scavengers, follow-up study, rats 2823

Isoferritin
placental isoferritin, first trimester, maternal serum, coelomic fluid, amniotic fluid 1044

IVF
'low responder' patients, follicular fluid, cortisol concentrations, fertilization/outcomes 27
adhesions, ovary, HCG, follicular fluid, diffusion rates 2072
anaesthetics, propofol, toxicity, oocytes, preimplantation embryos, mouse 430
antiphospholipid antibodies, spontaneous abortion after first embryo transfer, clinical study 1180
assisted hatching, maternal age, evaluation, prospective randomized double-blind study, implantation/pregnancy rates 409
assisted hatching, poor prognosis patients, pregnancy rates 1331
back pain, spontaneous pregnancy versus IVF, relaxin, clinical comparison 3233
bilateral tubal pregnancy, case report 465
cancer, affect on oocyte quality, case reports 1837
child welfare, IVF clinics, operational protocols, UK survey, HFEA Code of Practice 766
children, behaviour, development at 1 year, case–control study 1727
children, growth, development, health, parents' attitudes to secrecy, comparison with donor oocytes 2009
children, neonatal period, health care resources, utilization 2055
co-culture, embryo transfer, timing of transfer, cryopreservation, influence on viability, pregnancy rates 676
co-culture, preimplantation embryos, fibroblasts, pregnancy rates 1325
computer-assisted sperm analysis, diagnostic accuracy, Hamilton–Thorn 2512
cryopreservation, embryos, IVF versus ICSI, comparison of outcomes 2848
cumulative pregnancy rates, drop-out rates, retrospective cohort study 339
cumulative pregnancy rates, first cycle results, predictive value, maternal age 403
donor oocytes, ICSI, oligoasthenoteratozoospermia, anovulation, shared egg donation programme 2158
ectopic pregnancy, three ectopic pregnancies, case report 468
ejaculated versus testicular spermatozoa, ICSI, oocytes, activation, pronucleus formation 1606
electroejaculation, ICSI, clinical experience 1854

embryo transfer, blastocyst stage, debate 3285
embryo transfer, combined fresh and frozen embryo transfer, twins, case report 2130
embryo transfer, difficult/repeated transfer, no effect on pregnancy rates/outcome 2452
embryo transfer, embryo positioning in uterine cavity, standing up after transfer, transvaginal ultrasound tracking 2107
embryo transfer, multiple pregnancy, clinical policy, debate 2988
embryo transfer, one or two embryos, cost-effectiveness 88
embryo transfer, policy, multiple pregnancy, debate 2663
embryo transfer, probability of success, ovulation induction, fertilization, implantation, logistic regression model 78
embryo transfer, pronuclear embryos, 1 day after retrieval, clinical pregnancy rates 1003
embryo transfer, uterine contractions, altered pregnancy rates, progesterone, uterine relaxing properties 1968
embryos, co-culture, Buffalo rat liver cells, assisted hatching, ICSI, pregnancy rates 165
embryos, cryopreservation, safety, development rates, statistical analysis, debate 783
embryos, culture (cell-free, serum-free), blastocysts, zona removal, pregnancy rates 169
embryos, ICSI, multinucleated blastomeres, poor implantation rates, clinical experience 960
embryos, transvaginal ultrasonography, embryo-toxicity of covers and sonographic gels, comparison with polyethylene bags and paraffin oil, mouse 2234
empty follicle syndrome, faulty HCG administration, clinical report 2703
endometrial thickness, pregnancy-specific b_1-glycoprotein, relationship to outcome prognosis 1962
endometrium, maturation, histological evaluation on day of oocyte retrieval, GnRH agonist/FSH 3203
endometrium, thickness £ 4 mm, successful pregnancy, case report 1550
fertility, seasonality, sperm parameters, normal versus IVF populations 2165
fertilization rates, light scattering analysis, flow cytometry, acrosome reaction, reactive oxygen species, leukocytes 2568
follicles, oocytes from large versus small follicles, fertilization/pregnancy rates 1912
genetic diseases, risk, prenatal genetic diagnosis, counselling, attitudes of couples, questionnaire 862
GnRH agonist, dosage, outcomes, letters 2973
GnRH agonist, embryos, cryopreservation, clinical trial with/without GnRHa 2712
GnRH agonist, ganirelix, LH surge prevention, recombinant FSH (Puregon), randomized dose-finding study 3023
GnRH antagonist, ganirelix, ovarian hyperstimulation syndrome, prevention, case report 573
granulosa luteal cells, aneuploidy, intrafollicular hormone concentrations 2679
heterotopic pregnancy, interstitial pregnancy, case report 1547
heterotopic pregnancy, triplets, monozygotic twinning, two embryos replaced, case report 1999
human leukocyte antigens, parental tissue matching, implantation failure, clinical study 39
hydrosalpinx, aspiration, ultrasonography, improved pregnancy rates 736
hydrosalpinx, diagnosis by ultrasound, reduced implantation/pregnancy rates 1696
hydrosalpinx, lower pregnancy rates, clinical experience 983
implantation, prediction, endometrium, receptivity, colour Doppler, transvaginal ultrasonography 1669
infertility, follow-up study, marital and sexual function 3569
interstitial pregnancy, sextuplets, salpingectomy, case report 762
IVF versus ICSI, perinatal outcomes, retrospective clinical study 1514
leiomyomata, matched case–control follow-up study, pregnancy delivery rates 192
leiomyomata, retrospective controlled study, pregnancy delivery rates 198
low fertilization rate, ICSI, low pregnancy rate, comparison with male-factor couples 65
Mayer–Rokitansky–Kuster–Hauser syndrome, surrogacy, ovulation induction, luteal phase determination, progesterone, plasma concentration 1470
multiple pregnancy, embryo transfer, restricted to two embryos, clinical results 3550
multiple pregnancy, late selective fetal reduction, prospective study 1996
oligoasthenoteratozoospermia, pregnancy outcomes 2161
oocyte maturity, follicular fluid aspirate volume, oocyte recovery rates, embryo quality, prospective study 1901
oocyte retrieval, failure rate, retrospective study 84
oocyte retrieval, follicular aspirates, preantral follicles, maturation *in vitro* 2561
oocyte retrieval, new source, aspirates, editorial 2337
oocytes, fertilization failure, lipids, fatty acids, composition analysis 2227
oocytes, maturation *in vitro*, co-culture, ampullary cells, fertilization/hatching rates 1916
oocytes, maturity, follicular fluid, HCG, granulosa cells, purification technique 1303
ovarian hyperstimulation syndrome, GnRH agonist, sole administration of GnRHa, case reports 3421
ovarian hyperstimulation syndrome, pleural effusion, case report 571
ovarian hyperstimulation syndrome, prophylaxis, hydroxyethyl starch solution, i.v. administration, randomized placebo-controlled trial 2421
ovarian hyperstimulation syndrome, responsive patient, 'coasting' technique, critical OHSS, case report 3005
ovarian stimulation, follicular fluid, vascular endothelial growth factor, thyroxine, thyroglobulin 3310
ovary, abscess resulting from follicle aspiration, laparoscopy, laparotomy, case report 1813
ovulation induction, burden on patients, attempts to simplify protocols, debate 1121
ovulation induction, clomiphene citrate, future clinical role, safety, alternatives, debate 2356
ovulation induction, degree of LH suppression in mid-follicular phase, GnRH analogue, FSH, cryopreservation, embryo development, pregnancy rates 696
ovulation induction, follicular fluid, IGF-I, IGFBP-3, measurement in 'poor' versus 'good' responders, folliculogenesis 285
ovulation induction, follicular fluid, TGFb1 concentration, correlation with outcomes 656
ovulation induction, GnRH agonist, Cetrorelixâ, dosage, single-dose protocol, clinical study 2411
ovulation induction, GnRH agonist, minimum dosage to prevent LH surge, outcomes 2386
ovulation induction, GnRH agonist, reduced dosage, outcomes, clinical trial 2382
ovulation induction, HMG, i.m. versus s.c. administration, efficacy, prospective randomized study 836
ovulation induction, LH suppression, effects on outcomes, prospective study 1788
ovulation induction, low responders, IVF vs ICSI, prospective comparison 2126
ovulation induction, oocyte retrieval 60 h after HCG, pregnancy, case report 1020
ovulation induction, pregnancy, activin B, serum immunoenzymometric assay, potential uses 841
ovulation induction, recombinant FSH (Puregon), HMG (Humegon), non-down-regulated cycles, prospective clinical trial 2995
ovulation induction, recombinant FSH versus urinary HMG, clinical outcomes 1783
prediction of outcomes, logistic regression model, spermatozoa, morphology, strict criteria, DNA status, acridine orange 1235
pregnancy, prognostic models, external validation 3542
pregnancy termination, motivation, fetal anomalies, opinion 2377
preimplantation embryos, assisted hatching, enzymatic treatment, blastocyst transfer, implantation rates 2926
preimplantation embryos, co-culture, preferability of sequential media, blastocysts, debate 2043
preimplantation embryos, culture media, blastocysts, embryo transfer, prospective randomized trial 3434
preimplantation embryos, culture media, IGF-I, enhanced development 3144
preimplantation embryos, development, ICSI, paternal influence, abnormal spermatozoa 1632
preimplantation embryos, fragmentation, apoptosis, reactive oxygen species, hydrogen peroxide 998
preimplantation embryos, hydrosalpingeal fluid, embryo development *in vitro*, implantation process *in vitro* 2921
preimplantation embryos, morphology, predictive value, implantation/pregnancy rates 2869
preimplantation embryos, multinuclear blastomeres, genetic analysis, FISH 1625

preimplantation embryos, vitrification, 8-cell mouse embryos, application to human IVF programme 2874
preimplantation genetic diagnosis, day 4 embryo transfer, successful outcomes 1656
severe OHSS, prevention, withholding gonadotrophins, clinical study, age, oestradiol 1157
sex preselection, flow cytometry, MicroSortâ, first births and clinical trial data 2367
smoking, males, detrimental to pregnancy outcomes, retrospective cohort study 1506
smoking, ovarian reserve, ovulation induction, FSH 2192
sperm stress test, modified test, prediction of sperm-related abnormalities 2484
sperm–zona binding, hemizona binding assay, follicular fluid, IVF patients, male/female factor, endometriosis 128
spermatozoa, culture media, protein-free SMART1â, capacitation, acrosome reaction 2579
stress, husband/wife response patterns, psychological evaluation 3262
stress, psychological evaluation, ICSI, comparison 1403
stress, psychological evaluation, spontaneous abortion, reproductive outcomes 2296
teratozoospermia, A23187, calcium ionophore, acrosome reaction, fertilization rates, correlation 905
testis, cancer, successful treatments, electroejaculation, testicular sperm extraction 414
twins, parental stress, child behaviour, psychological evaluation 3244
twins, prematurity, birthweight, neonatal morbidity, neonatal mortality, case–control study 1702
twins, spontaneous versus assisted reproduction, comparison of outcome risks 2005
unfertilized oocytes, chromosome abnormalities, maternal age, fertilization rate 419
vagina, cytomorphometric analysis 2767
vascular endothelial growth factor, maternal serum concentrations, longitudinal study, first trimester, oestradiol, competitive radioimmunoassay 1057
waiting list patients, treatment-independent pregnancy rate 1206
zona-free hamster egg penetration test, acrosome reaction, ionophore induction, various insemination concentrations, predictive value 624
zona-free hamster egg penetration test, correlation 1928

Junctional zone contractions
endometrium, myometrium, implantation, embryo transfer, ultrasonography, ectopic pregnancy 1540

Kell antigen
fetus, haemolytic disease, prenatal diagnosis, polymerase chain reaction, outcomes 1472
Kidney
polycystic kidney disease, 'seminal megavesicles', ultrasonography, vasography, azoospermia, case descriptions 1567
selenium, concentrations, sperm count 2172
Kinin–kallikrein system
ovarian hyperstimulation syndrome, pathophysiology, progesterone, rat 3009
Klinefelter syndrome
47,XXY male, spermatozoa, meiosis, non-disjunction, FISH 124
Klinefelter's syndrome
non-mosaic, preimplantation genetic diagnosis, testicular spermatozoa, ICSI, birth 1887
Kobe earthquake
fertility, sex ratio, stress 2321
KY jelly
coital lubricants, spermatozoa, motility *in vitro*, CASA, infertility 3351

Lactation
mammary glands, oxytocin receptor, expression and immunolocalization, lactating and non-lactating 2645
Laparoscopy
appendicectomy, conscious pain mapping, local anaesthesia, microlaparoscopy, case reports 588
cornual pregnancy, conservative management, case report 2002
diagnosis, complication rate, importance of prospective evaluation, transvaginal ultrasound as alternative procedure, debate 1761
ectopic pregnancy, conservative laparoscopy versus methotrexate, subsequent fertility, randomized trial 3239
ectopic pregnancy, oxytocin, intramesosalpingeal injection, preliminary results 3042
ectopic pregnancy, retrospective study of treatment options, laparotomy, methotrexate, second interventions 203
ectopic pregnancy, rudimentary horn, case report 2643
endometriosis, recurrence, laparotomy, surgical comparison 2271
fimbrioplasty, severe occlusions, laparoscopy, *Chlamydia trachomatis*, evaluation of 35 cases 1496
gynaecology, diagnostic and operative, complications, long-term multicentre study 867
infertility, diagnosis, falloposcopy, hysterosalpingoscopy, prospective comparison 1815
myomectomy, risk of adhesion formation, second look clinical study 2102
oocyte retrieval *in vivo*, visualization, fimbriae, ciliary activity 1425
ovary, abscess resulting from follicle aspiration, laparotomy, case report 1813
ovary, adnexal masses, frozen section diagnosis, suspected malignancy, clinical study 324
ovary, benign cystic teratoma, resection, clinical experience 1810
ovary, cysts, benign/malignant diagnosis, frozen sections, laparoscopy, letters 3575
pelvis, adhesions, endometriosis, diagnosis, ultrasonography, transvaginal, prospective comparison 330
robotic surgery, voice/foot/hand control, AESOP 2000, clinical experience 2748
Laparotomy
ectopic pregnancy, retrospective study of treatment options, laparoscopy, methotrexate, second interventions 203
endometriosis, recurrence, laparoscopy, surgical comparison 2271
ovary, abscess resulting from follicle aspiration, laparoscopy, case report 1813
Lazaroids
steroidal/non-steroidal, i.p. administration, adhesions, peritoneum, rabbit 2443
Lead
seminal plasma, spermatozoa, motility, survey of Finnish men 115
Legislation
assisted reproduction, donor gametes, anonymity, Human Fertilisation and Embryology Authority, questionnaire on treatment centre information sharing policy 3274
assisted reproductive techniques, children, welfare, ethics, debate 2339
assisted reproductive techniques, regulatory framework, UK experience, HFEA, debate 1769
child welfare, IVF clinics, operational protocols, UK survey, HFEA Code of Practice 766
donor gametes, anonymity, ethics, opinion 3268
donor insemination, payment of donors, UK survey, public attitudes 771
donor motives in egg share programmes, payment policy, ethics, opinion 2671
donor oocytes, colon cancer, ovulation induction, risk to donor, ethics 227
donor oocytes, statutory information for children, response to HFEA forms, one UK centre 1106
embryo research, international regulation, ethics, debate 2047
embryo research, international regulation, United States, debate 1
gamete donation guidelines, Corsendonk consensus document, European Union, ethics 500
oral contraceptives, venous thromboembolism, role of regulatory authorities, letter 2660
posthumous conception, ethics, response to consultation document, Human Fertilisation and Embryology Authority 2654
posthumous reproduction, ethics, donor insemination, donor oocytes 1407
preimplantation genetic diagnosis, biopsy experiments, mouse, training procedures, France 1022
preimplantation genetic diagnosis, ethics, FISH, PCR 2238
Leiomyomata
acromegaly, growth hormone, clinical relationship 1945
GnRH antagonist, Cetrorelix, slow-release depot treatment, prospective randomized study 1660
IVF, ICSI, retrospective controlled study, pregnancy delivery rates 198
IVF, ZIFT, matched case–control follow-up study, pregnancy delivery rates 192
myomectomy, endoscopy, efficacy of pre-operative medical treatment, literature review 2592
myomectomy, infertility, literature review 873

myomectomy, laparoscopy, risk of adhesion formation, second look clinical study 2102
ovary, granulosa cell tumour, endometriosis, leiomyomata, case report 1357
Leptin
obesity, body mass index, polycystic ovary syndrome, associated metabolic disorders, clinical study 535
prediction of serum concentration, obesity, body mass index, insulin, polycystic ovary syndrome, menstrual cycle 547
secretion, presynaptic norepinephrine inhibition, effects in normal weight subjects 822
serum concentrations, ovulation induction, FSH, letters 3281
serum concentrations, spontaneous versus stimulated cycles, FSH, follicular phase, oestradiol 1152
Leukaemia inhibitory factor
preimplantation embryos, co-culture, Vero cells 1600
uterine expression, T-lymphocytes, endometrium, receptivity, pseudopregnant mouse 2888
Leukocytes
corpus luteum, steroidogenesis, modulation, IL-1b, flow cytometry 1584
intraepithelial leukocytes, endometriosis, adenomyosis, menstrual cycle, characterization and quantification, eutopic versus ectopic endometrium 2910
IVF, fertilization rates, light scattering analysis, flow cytometry 2568
lymphocytes, interleukins, HMG, contaminants, side-effects 2430
macrophages, decrease in numbers, corpus luteum, luteal phase, HCG, immunohistochemistry 2435
neutrophil activation, soluble endothelial selectins, pre-eclampsia 3537
ovarian hyperstimulation syndrome, haematocrit, biological marker of severity of OHSS, platelets, renin–aldosterone system 2406
ovary, distribution and characterization, immunohistochemistry, human leukocyte antigen 2186
peritoneal fluid, endometriosis, spermatozoa, phagocytosis *in vitro*, lignocaine 1353
reactive oxygen species, smoking, cotinine, nicotine, spermatozoa, motility, letters 777
Levonorgestrel
intrauterine release, endometrium, decidualization, morphology and function, prolactin receptor, granulocyte-macrophage colony stimulating factor, immunohistochemistry 1218
intrauterine releasing system, endometrium, ultrastructure 1846
intrauterine releasing system, uterine artery, blood flow, progesterone, ovary, cyst formation 3379
intrauterine-releasing system, endometrium, progestin receptor isoforms, prostaglandin dehydrogenase, immunohistochemistry, longitudinal study 1210
rod implants (Jadelle), 5-year randomized study 3371
Le^y oligosaccharide
endometrium, immunohistochemistry, menstrual cycle, mifepristone, rhesus monkey 1374
LH
2nd digit:4th digit ratio, spermatogenesis, sperm count, population study, testosterone, oestrogen 3000
b-subunit variant, increased prevalence, infertile population 3338
corpus luteum, cigarette smoking, infertility, progesterone, letter 3577
donor insemination, intrauterine insemination, LH monitoring, cumulative pregnancy rates, 3-year clinical review 3045
FSH, recombinant FSH (Gonal-F), effect on LH secretion, double-blind placebo-controlled study 1139
gonadotrophin surge-inhibiting factor, regulation mechanism, FSH, GnRH, ovarian cycle, rat 2731
IVF, ovulation induction, degree of LH suppression in mid-follicular phase, GnRH analogue, FSH, cryopreservation embryo, development 696
IVF, ovulation induction, LH suppression, effects on outcomes, prospective study 1788
LH pulsatility, oligoasthenozoospermia, HCG response 2782
LH response to GnRH, urinary versus recombinant FSH, gonadotrophin surge attenuating factor, clinical trial 2415
LH surge, oestrogen, progesterone, age, menopause 852
LH surge prevention, GnRH agonist, ganirelix, recombinant FSH (Puregon), randomized dose-finding study 3023
LHb core fragment, urinary molecular fragments, immunoradiometric assay, ovulation, test kits, potentially confounded 826
naloxone-induced release, FSH, healthy fertile women, circulating concentrations, deltorphin, d-opioid receptors 1159
ovary, LH receptor expression, induced luteolysis, marmoset 2532
ovulation induction, exogenous pulsatile GnRH, effect on LH and FSH secretion, ovariectomised women, three regimens tested 525
ovulation induction, poor response prediction, day 3 LH values, clinical trial 531
pre-ovulatory LH surge, detection in urine, immunofluorimetric assay, creatinine adjustment, creatinine 15
recombinant LH, preantral follicles, in-vitro maturation, recombinant FSH, mouse 1292
variant LH, recurrent spontaneous abortion, luteal phase defect 2699
Light scattering analysis
flow cytometry, semen, IVF, fertilization rates, acrosome reaction, reactive oxygen species, leukocytes 2568
Lignocaine
endometriosis, peritoneal fluid, leukocytes, spermatozoa, phagocytosis *in vitro* 1353
Lipids
oocytes, IVF, fertilization failure, fatty acids, composition analysis 2227
Liver
selenium, concentrations, sperm count 2172
Lung
chronic non-specific lung disease, oligomenorrhoea, adolescence, gynaecological age, weight, cross-sectional population study 2252
Luteal phase
corpus luteum, macrophages, decrease in numbers, HCG, immunohistochemistry 2435
luteal phase defect, endometrium, integrins, patterns of expression, immunohistochemistry 3460
mifepristone, prostaglandin analogue/inhibitor, endometrium, histometric effects, rhesus monkey 1047
ovulation induction, GnRH agonist, luteal phase deficiency, HCG, effective luteal support 3315
Luteinization
follicular fluid, vascular endothelial growth factor, non-stimulated cycles 1144
Luteolysis
induced luteolysis, ovary, LH receptor expression, marmoset 2532
Lymphocytes
interleukins, HMG, contaminants, side-effects 2430
large granular lymphocytes, $CD56^{++}$, endometrium, menstrual cycle, decidua, flow cytometry 1036
large granular lymphocytes, decidua, methotrexate, effect on trophoblast proliferation, immunohistochemistry 1063
large granular lymphocytes, increased numbers, semen, antisperm antibodies, flow cytometry 296
ovary, distribution and characterization, immunohistochemistry, human leukocyte antigen 2186
peripheral blood mononuclear cells, corpus luteum, function and differentiation, luteal cells, IL-4, IL-10, pregnant/non-pregnant women 2738
T cell populations, decidua, immunohistochemistry, spontaneous abortion 44
T-lymphocytes, leukaemia inhibitory factor, uterine expression, endometrium, receptivity, pseudopregnant mouse 2888

Müllerian anomalies
classification, treatment, opinion 789
double uterus, vaginal septum, haematocolpos, hysteroscopy, resection, case report 1500
rudimentary horn, ectopic pregnancy, laparoscopy, case report 2643
rudimentary horn, ectopic pregnancy, rupture, case report 3566
septate uterus, infertility, recurrent abortion, hysteroscopy, resection, reproductive outcomes 1188
septate uterus, Tomkins metroplasty, successful pregnancy, case report 1387
uterine metroplasty, pregnancy, mode of delivery, letters 1113
Ménézo B2 medium
oocytes, embryos, culture media, Medi-Cult universal medium, BM1 medium, controlled comparison 2548
Macrophage colony-stimulating factor
endometrium, stromal cells *in vitro*, interferon g, effect on cytokine secretion, IL-6/IL-8, monocyte chemoattractant protein-1 2598
Macrophages
decrease in numbers, corpus luteum, luteal phase, HCG, immunohistochemistry 2435
Magnesium
preimplantation genetic diagnosis, Ca^{2+}/Mg^{2+}-free biopsy medium, subsequent embryo development 2880

Magnetic fields
fertility, aluminium industry workers, heat, demographic analysis 2016
Magnetic resonance spectroscopy
diagnostic capability, seminal plasma, azoospermia, spermatogenesis, obstructive azoospermia 132
Major histocompatibility complex
MHC class II, Fallopian tube, epithelium, menstrual cycle, antigen expression, endocytosis 1163
Mammary glands
oxytocin receptor, expression and immunolocalization, lactating and non-lactating 2645
Marfan's syndrome
preimplantation genetic diagnosis, IVF, day 4 embryo transfer, successful outcomes 1656
Maternal age
birth order, sex ratio, grand grand multiparous women 2323
delayed parenthood, effects on offspring, genetic diseases, mitochondrial DNA 2371
donor oocytes, >35 years of age, meiosis, non-disjunction, clinical study 154
ICSI, fertilization/pregnancy rates, retrospective study 334
IVF, assisted hatching, evaluation, prospective randomized double-blind study, implantation/pregnancy rates 409
IVF, unfertilized oocytes, chromosome abnormalities, fertilization rate 419
sex ratio, variation, large sibships, letters 1412
Maternal–fetal interactions
alloimmunity, transplantation, invertebrates, chimerism, evolution 455
implantation, alloimmunity, invertebrates, evolution, letter 503
Maturation-promoting factor
preimplantation embryos, 2-cell block, phosphate, timing of sensitivity, rat 398
Mayer–Rokitansky–Kuster–Hauser syndrome
surrogacy, ovulation induction, IVF, luteal phase determination, progesterone, plasma concentration 1470
Medi-Cult universal medium
oocytes, embryos, culture media, Ménézo B2 medium, BM1 medium, controlled comparison 2548
Meiosis
non-disjunction, donor oocytes, >35 years of age, clinical study 154
oocytes, maturation, cytoskeleton, microtubules, microfilaments, immunofluorescence localization 2217
spermatozoa, Klinefelter syndrome, 47,XXY male, non-disjunction 124
trisomy, non-disjunction, origin and mechanism, maternal age 313
Menopause
hormone replacement therapy, endometrium, histological analysis, compared with healthy luteal phase controls 1674
LH surge, oestrogen, progesterone, age 852
ovarian failure, inhibin A, FSH, age, sheep 3016
post-/peri-menopausal bleeding, placental protein 14, CA-125, endometrial adenocarcinoma, diagnostic value 2895
somatotropic axis, body weight, growth hormone, insulin-like growth factors, arginine, obesity, pre-/post-menopausal women 279
Menorrhagia
hysteroscopy, implant users, Norplant, vascularity, precise measurement of structures 3190
Menstrual cycle
adolescence, gynaecological age, oligomenorrhoea, weight, chronic non-specific lung disease, cross-sectional population study 2252
antiprogestin, ZK 137 316, oestradiol, progesterone, anovulation, amenorrhoea, contraception 259
antiprogestins, ZK 137 316, chronic low-dose regimen, contraception, rhesus monkey 2132
apoptosis, *bcl-2*, endometrium 3496
contraception, antiprogestin, mifepristone, long-term low dose, controlled trial, effects on reproductive system 793
cystic fibrosis, natural cycle versus clomiphene citrate, insulin, fatty acid deficiency, polycystic ovary syndrome 2092
early follicular phase, FSH, inhibins, women > 35 years, cycle characteristics 1442
endometriosis, adenomyosis, intraepithelial leukocytes, characterization and quantification, eutopic versus ectopic endometrium 2910
endometriosis, peritoneal fluid, inhibins, activin 2606
endometrium, inhibin, activin, immunohistochemistry 3469
endometrium, integrin $a_v b_3$, vascular expression, endometriosis, angiogenesis, immunohistochemistry 1030
endometrium, large granular lymphocytes, $CD56^{++}$, flow cytometry 1036
endometrium, MUC1, regional specialization, implantation, immunohistochemistry 2902
endometrium, receptivity, apoptosis, glandular epithelium, bcl-2 protein 3177
follicles, follicular fluid, transforming growth factor a, epidermal growth factor, immunohistochemistry 2199
follicular phase, ovulation induction, HMG versus GnRH agonist + HMG, progesterone, origin of serum rise, adrenal, dexamethasone 9
follicular phase, spontaneous versus stimulated cycles, FSH, leptin, serum concentrations, oestradiol 1152
follicular phase length, insemination timing, sex ratio, planned/unplanned pregnancies, natural family planning, multicentre prospective study 1397
follicular phase length, sex ratio, timing of insemination, letters 3280
FSH, granulosa cells in vitro, small versus large follicle responses, TNFa 1285
leptin, prediction of serum concentration, obesity, body mass index, insulin, polycystic ovary syndrome 547
leukocytes, ovary, distribution and characterization, immunohistochemistry, human leukocyte antigen 2186
luteal phase, corpus luteum, steroidogenesis, modulation, leukocytes, IL-1b, flow cytometry 1584
luteal phase, endometrium, Le^y oligosaccharide, immunohistochemistry, mifepristone, rhesus monkey 1374
luteal phase defect, effect on progesterone production, clinical study 1907
luteal phase defect, endometrium, receptivity, integrins, patterns of expression, immunohistochemistry 3460
luteal phase defect, variant LH, recurrent spontaneous abortion 2699
luteal phase determination, progesterone, plasma concentration, Mayer–Rokitansky–Kuster–Hauser syndrome, surrogacy, ovulation induction, IVF 1470
menstruation, pain, copper intrauterine device, uterine artery, blood flow, diclofenac, clinical study 2480
MHC class II, antigen expression, Fallopian tube, epithelium, endocytosis 1163
placental protein 14, circulating concentrations, assisted reproduction cycles, implantation/pregnancy rates, significant association 2612
pre-ovulatory LH surge, detection in urine, immunofluorimetric assay, creatinine adjustment 15
premenstrual syndrome, b-endorphin, peripheral concentration, tibolone, placebo-controlled cross-over study 2402
tubal ligation, alterations in endometrial perfusion, laser Doppler fluxmetry, controlled clinical study 445
vagina, cytomorphometric analysis, normal cycle, oral contraceptives, IVF 2767
Methotrexate
abortion, effect on trophoblast proliferation, decidua, large granular lymphocytes, immunohistochemistry 1063
cervical pregnancy, risk factors, quantitative review 2636
ectopic pregnancy, retrospective study of treatment options, laparotomy, laparoscopy, second interventions 203
interstitial pregnancy, case report, literature review 1981
interstitial pregnancy, cornual pregnancy, colour Doppler, case report 1723
preimplantation embryos, development, endogenous folate essential, mouse 1312
tubal pregnancy, mifepristone, combination treatment, randomized controlled trial 1987
Methylene Blue
nuclear dye, Fallopian tube, epithelium, cell viability assessment, salpingoscopy 3414
Microepididymal sperm aspiration (MESA)
azoospermia, obstructive, testicular fine needle aspiration, percutaneous testicular needle biopsy, controlled clinical comparison 3086
ICSI, cryopreservation versus fresh epididymal spermatozoa, percutaneous epididymal sperm aspiration, outcomes 1872
ICSI, percutaneous epididymal sperm aspiration, testicular sperm extraction, clinical comparison 620
mini-MESA, description of technique, clinical outcomes 1260
Microfilaments
oocytes, maturation, cytoskeleton, meiosis, microtubules, immunofluorescence localization 2217
b_2-Microglobulin
endometrium, decidualization, stromal cells, b_2-microglobulin 2246

Microtubules
oocytes, maturation, cytoskeleton, microtubules, microfilaments, immunofluorescence localization 2217
Mifepristone
contraception, ovulation, inhibition, nomegestrol acetate, combined sequential regimen 3297
endometrium, Le^y oligosaccharide, immunohistochemistry, menstrual cycle, rhesus monkey 1374
Fallopian tube, epithelium, ciliary beat frequency, progesterone, oestradiol 2991
induced abortion, effective regimen, oral mifepristone + vaginal misoprostol, report of 2000 consecutive cases 2962
long-term low dose, contraception, menstrual cycle, controlled trial, effects on reproductive system 793
luteal phase, prostaglandin analogue/inhibitor, endometrium, histometric effects, rhesus monkey 1047
luteal phase administration, endometrium, placental protein 14, implantation, rhesus monkey 3478
tubal pregnancy, methotrexate, combination treatment, randomized controlled trial 1987
Misoprostol
induced abortion, effective regimen, oral mifepristone + vaginal misoprostol, report of 2000 consecutive cases 2962
Mitochondria
mitochondrial DNA, genetic diseases, delayed parenthood, effects on offspring 2371
mitochondrial DNA inheritance, ICSI, letter 1747
oocytes, mitochondrial transfer in mice/humans, methods for isolation and injection, clinical applications, issues in heteroplasmy 2857
Monochorionic placenta
vascular anatomy, fetal growth, amniotic fluid volume, twin–twin transfusion syndrome 2933
Monoclonal antibodies
ejaculated spermatid detection, immunofluorescence, prediction of TESE outcome 3061
heat shock proteins, embryos, impaired development in vitro, mouse 987
Monocyte chemoattractant protein-1
endometrium, stromal cells *in vitro*, interferon g, effect on cytokine secretion, IL-6/IL-8, macrophage colony-stimulating factor 2598
Monocyte chemotactic peptide-1
amniotic fluid, extra-embryonic coelom, differential concentrations, first trimester 2292
placenta, term, parturition, prostaglandin E_2 3560
Monocyte chemotactic protein-1
peritoneal fluid, adhesions, pelvis, endometriosis 1194
Mosaicism
blastocysts, inner cell mass, no selection for euploidy, FISH 3151
Mucins
MUC1, endometrium, regional specialization, menstrual cycle, implantation, immunohistochemistry 2902
Multinuclear blastomeres
IVF, ICSI, genetic analysis, FISH 1625
Multiple pregnancy
elective multifetal reduction, twins, clinical experience 2301
embryo transfer, clinical policy, debate 2988
ICSI, spermatids, clinical pregnancy rate 104
IVF, embryo transfer, policy, debate 2663
IVF, embryo transfer, restricted to two embryos, clinical results 3550
IVF, interstitial pregnancy, sextuplets, salpingectomy, case report 762
IVF, late selective fetal reduction, prospective study 1996
monochorial placenta, twin–twin transfusion syndrome, amnioreduction, efficacy, vascular anatomy 1709
quintuplets, delayed interval delivery, intrauterine insemination, case report 224
triplets, fetal reduction, obstetric outcomes 3555
twins, IVF, parental stress, child behaviour, psychological evaluation 3244
twins, twinning rates, temporal trends, Italy, mid 20th century, letter 3279
Muscular dystrophy
Fukuyama-type congenital muscular dystrophy, prenatal diagnosis, polymorphism analysis, microsatellite markers 320
Myomectomy
endoscopy, efficacy of pre-operative medical treatment, literature review 2592
infertility, literature review 873
laparoscopy, risk of adhesion formation, second look clinical study 2102
Myometrium
implantation, endometrium, junctional zone contractions, embryo transfer, ultrasonography, ectopic pregnancy 1540
pregnancy, NS1619-induced relaxation, Ca^{2+}-activated potassium channels, parturition 208

Neonatal period
IVF, children, health care resources, utilization 2055
Neutropenia
congenital neutropenia, growth colony stimulating factor, IVF, term delivery, case report 498
Neutrophil activation
soluble endothelial selectins, pre-eclampsia 3537
Nicotine
spermatozoa, motility, smoking, reactive oxygen species, leukocytes, letters 777
Nitric oxide
cervical ripening, mechanism, debate 245
decreased maternal and fetal production, small for gestational age infants 1070
NO synthase expression, endometrium, endocervix, Fallopian tube, immunohistochemistry 436
uterine artery, dilation/relaxation *in vitro*, acetylcholine, pregnancy 1361
vascular resistance, aorta, pregnancy, gestational age, rat 214
Nomegestrol acetate
contraception, ovulation, inhibition, mifepristone, combined sequential regimen 3297
Norepinephrine
presynaptic norepinephrine inhibition, leptin, secretion, effects in normal weight subjects 822
Norplantâ
contraception, bleeding irregularities, endometrial thickness, oestradiol, correlations 188
contraception, implant users, Implanonâ, 2-year comparative study, endometrium, cervix, histology/cytology 3057
NS1619
myometrium, NS1619-induced relaxation, Ca^{2+}-activated potassium channels, parturition 208

Obesity
adipose tissue, sympathetic nervous system, presynaptic norepinephrine inhibition, leptin, secretion, effects in normal weight subjects 822
assisted reproductive techniques, weight loss, improved outcomes, prospective study 1502
leptin, body mass index, polycystic ovary syndrome, associated metabolic disorders, clinical study 535
leptin, prediction of serum concentration, body mass index, insulin, polycystic ovary syndrome, menstrual cycle 547
polycystic ovary syndrome, glucagon, insulin, acute response, oral glucose tolerance test 847
somatotropic axis, menopause, growth hormone, insulin-like growth factors, arginine, pre-/post-menopausal women 279
Occupation
heat exposure, spermatogenesis, fertility, review 2122
Octreotide
ovulation induction, FSH threshold, polycystic ovary syndrome, insulin-like growth factors, clinical study 1465
steroidogenesis, granulosa–luteal cells, IGFBP-1, progesterone 146
Oestradiol
Fallopian tube, epithelial cell culture, differentiation, ciliated phenotype induction 3114
Fallopian tube, epithelium, ciliary beat frequency, progesterone, mifepristone 2991
follicles, granulosa cells in vitro, FSH, small versus large follicle responses, menstrual cycle, TNFa 1285
granulosa–luteal cells, secretion, recombinant FSH, testosterone, androstenedione 1455
IVF, ovulation induction, follicular fluid, TGFb1 concentration, correlation with outcomes 656
IVF, vascular endothelial growth factor, maternal serum concentrations, longitudinal study, first trimester, HCG, competitive radioimmunoassay 1057
leptin, serum concentrations, spontaneous versus stimulated cycles, FSH, follicular phase 1152
menstrual cycle, antiprogestin, ZK 137 316, anovulation, amenorrhoea, rhesus monkey 259

Norplantâ, contraception, bleeding irregularities, endometrial thickness, correlations 188
ovulation induction, FSH peak, controlled timing, clinical study 561
pregnancy, dexamethasone, androgens, maternal plasma steroid concentrations, baboon 2282
severe OHSS, prevention, withholding gonadotrophins, clinical study, age 1157
spermatogenesis, maturation arrest, Sertoli cell-only syndrome, telomerase 1476
Oestriol
Down's syndrome, second trimester maternal serum screening, free b-HCG, a-fetoprotein, clinical comparison 220
Oestrogen
2nd digit:4th digit ratio, spermatogenesis, sperm count, population study, testosterone, LH 3000
environmental oestrogens, spermatogenesis, debate 2041
hormone replacement therapy, cardiovascular function, postmenopausal women, prospective study 2399
LH surge, progesterone, age, menopause 852
ovary, cultured veins, human postmenopausal serum, intimal hyperplasia, reduced by oestrogen 1449
Oligoasthenoteratozoospermia
ICSI, donor oocytes, anovulation, shared egg donation programme 2158
IVF, ICSI, pregnancy outcomes 2161
Y/autosome translocation, ICSI, normal offspring, case report 2745
Oligoasthenozoospermia
LH pulsatility, HCG response 2782
Oligomenorrhoea
adolescence, gynaecological âge, weight, chronic non-specific lung disease, cross-sectional population study 2252
Oligozoospermia
AZFc deletion, testicular sperm extraction, ICSI, fertilization/pregnancy rates 3332
partial obstruction, frequency, testicular biopsy, quantitative analysis, varicocele 3402
reactive oxygen species, oxygen tension, isolated spermatozoa *in vitro* 3108
spermatozoa, aneuploidy, chromosomes 13 and 21, infertile men 2787
Olive oil
coital lubricants, spermatozoa, motility *in vitro*, CASA, infertility 3351
Oocyte denudation
ICSI, micro-injection, timing of procedures, effect on survival/fertilization rates/embryo quality 3160
Oocyte donation
obstetric and perinatal outcome, comparison with IVF, pregnancy-induced hypertension 483
Oocyte retrieval
empty follicle syndrome, HCG, bioavailability, clinical experience 1281
failure rate, retrospective study 84
follicular aspirates, preantral follicles, maturation *in vitro* 2561
IVF, endometrium, maturation, histological evaluation on day of oocyte retrieval, GnRH agonist/FSH 3203
IVF, new source, aspirates, editorial 2337
IVF, oocyte retrieval 60 h after HCG, pregnancy, case report 1020
visualization, laparoscopy, fimbriae, ciliary activity 1425
Oocytes
activation, pronucleus formation, ejaculated versus testicular spermatozoa 1606
ageing *in vitro*, dithiothreitol, oocyte/conceptus viability *in vitro*, antioxidants, mouse 381
antioxidants, assisted reproductive techniques, future research, debate 1415
binovular zona pellucida, ICSI, normal development, two cases 2575
binuclear oocyte, maturation *in vitro*, genetic constitution, triploidy, ICSI, case report 1653
cancer, IVF, affect on oocyte quality, case reports 1837
cryopreservation, donor oocytes, clinical application, ICSI, pregnancies 3156
cryopreservation, sperm–zona binding, effects of (i) prior exposure to spermatozoa and (ii) oocyte cryopreservation 670
cryopreservation, ultra-rapid, blastocysts, inner cell mass, reduced cell number, mouse 1595
culture media, Ménézo B2 medium, Medi-Cult universal medium, BM1 medium, controlled comparison 2548
cumulus–oocyte complex, preimplantation genetic diagnosis, ICSI, effect of no. of COC on outcome after PGD, clinical study 3169
DNA, strand breaks, apoptosis, annexin V staining, TUNEL staining, mouse/human 1317
donor oocytes, >35 years of age, meiosis, non-disjunction, clinical study 154
dysfunction, unexplained infertility, endometriosis, fertilization rates, tubal infertility, donor insemination 1825
first polar body, chromosome analysis, aneuploidy, hamster/human 583
follicles, oocytes from large versus small follicles, IVF, ICSI, fertilization/pregnancy rates 1912
ICSI, cumulus cell removal, Coronase versus hyaluronidase, human and mouse oocytes 1933
ICSI, failed fertilization, DNA fragmentation, DAPI and TUNEL labelling 703
ICSI, HMG, overdose, perivitelline space, granularity 3425
ICSI, preincubation, fertilization/implantation rates 1014
ICSI, preincubation time, effect on fertilization rates 2223
in-vitro maturation, FSH pretreatment of healthy ovaries, improved maturation rates 3132
IVF, fertilization failure, lipids, fatty acids, composition analysis 2227
IVF, new source, aspirates, editorial 2337
IVF, oocyte maturity, follicular fluid aspirate volume, oocyte recovery rates, embryo quality, prospective study 1901
IVF, unfertilized oocytes, chromosome abnormalities, maternal age, fertilization rate 419
maturation, cytoskeleton, meiosis, microtubules, microfilaments, immunofluorescence localization 2217
maturation, membrane organization, cortical granules, antral follicle development, ultrastructure, mouse 2842
maturation *in vitro*, co-culture, ampullary cells, fertilization/hatching rates 1916
maturation *in vitro*, culture, epidermal growth factor, recombinant HCG, mouse 664
maturation *in vitro*, FSH, epidermal growth factor, mouse 690
maturation *in vitro*, germinal vesicle stage, epidermal growth factor, cumulus oophorus 1638
maturation *in vivo*, ovulation induction, clomiphene citrate, contralateral ovulation, follicular phase length, clinical study 1590
maturity, HCG, follicular fluid, granulosa cells, purification technique, IVF 1303
mitochondrial transfer in mice/humans, methods for isolation and injection, clinical applications, issues in heteroplasmy 2857
morphology, ICSI, fertilization rate, embryo quality, implantation rate 3431
oolemma, b6 integrin, sperm adhesion receptor, immunolabelling, gamete fusion 682
ovarian hyperstimulation syndrome, effect on oocyte, ICSI, case report 2583
ovulation induction, nuclear/cytoplasmic maturation protocol, cytoskeleton, cryopreservation, epidermal growth factor, mouse 971
pH regulation, fertilization, ICSI, effects of acid/alkaline shock, sperm–zona interaction 964
polarity, assisted reproductive techniques, opinion 3303
post-ovulatory ageing *in vivo*, early pregnancy loss, increased risk, prospective study 394
preantral follicles, in-vitro maturation, recombinant LH, recombinant FSH, mouse 1292
propofol, toxicity, IVF, mouse 430
d-Opioid receptors
deltorphin, LH, naloxone-induced release, FSH, healthy fertile women, circulating concentrations 1159
Oral glucose tolerance test
polycystic ovary syndrome, glucagon, insulin, acute response, obesity 847
Orchidectomy
androgen insensitivity syndrome, hormone replacement therapy, bone mineral density 2816
Ovarian hyperstimulation syndrome
angiogenin, ascites, peritoneal fluid, serum 2068
ascites, paracentesis, uterus, blood flow, pregnancy outcomes 2077
effect on oocyte, ICSI, case report 2583
GnRH agonist, sole administration of GnRHa, case reports 3421
haematocrit, biological marker of severity of OHSS, leukocytes, platelets, renin–aldosterone system 2406
hydrothorax, case reports 859
IVF, pleural effusion, case report 571
IVF, responsive patient, 'coasting' technique, critical OHSS, case report 3005

IVF, severe OHSS, prevention, withholding gonadotrophins, clinical study, age, oestradiol 1157
pathophysiology, kinin–kallikrein system, progesterone, rat 3009
pathophysiology, thromboembolism, letters 778
peripheral arteriolar dilatation, renin, sodium retention 2718
prevention, GnRH antagonist, ganirelix, IVF, case report 573
prevention strategies, opinion 2051
prophylaxis, hydroxyethyl starch solution, i.v. administration, IVF, randomized placebo-controlled trial 2421
severe and critical OHSS, febrile morbidity, multicentre clinical review 3128
severe OHSS, albumin, intravenous, opinion 3306
spontaneous pregnancy, triploidy, vascular endothelial growth factor, case report 2082
thromboembolism, cerebrovascular infarction, GnRH agonist, ICSI, case report 1793
thromboembolism, no evidence of haemoconcentration, case reports 2088
vascular endothelial growth factor, serum concentrations, evaluation as clinical marker, prospective study 30

Ovarian stimulation — see ovulation induction

Ovary
abscess resulting from follicle aspiration, laparoscopy, laparotomy, case report 1813
adhesions, IVF, HCG, follicular fluid, diffusion rates 2072
adnexal masses, frozen section diagnosis, suspected malignancy, laparoscopy, clinical study 324
adnexal torsion, ischaemia, management, reperfusion, free radical scavengers, follow-up study, rats 2823
benign cystic teratoma, laparoscopy, resection, clinical experience 1810
cancer, cystic tumours, soluble adhesion molecules in cyst fluid and serum, intercellular adhesion molecule-1, E-cadherin, CD44 2831
cancer, transposition of ovaries, fertility outcomes 660
cryopreservation, comparison of cryoprotectants, ethylene glycol, dimethylsulphoxide, propylene glycol, glycerol 376
cultured veins, human postmenopausal serum, intimal hyperplasia, reduced by oestrogen 1449
cyst formation, levonorgestrel, intrauterine releasing system, uterine artery, blood flow, progesterone 3379
cyst formation, ovarian hyperstimulation syndrome, GnRH agonist, sole administration of GnRHa, case reports 3421
cysts, benign/malignant diagnosis, frozen sections, laparoscopy, letters 3575
endometriomas, cadherins, CD44, immunohistochemistry 1346
endometriosis, ruptured ovarian endometrioma, CA125, rise in serum concentrations, inflammatory reaction 3503
follicles, development, primordial/antral stages, *SCID/hpg* mice, FSH, human ovarian xenografts 1133
follicles, follicular fluid, transforming growth factor a, epidermal growth factor, menstrual cycle, immunohistochemistry 2199
follicles, granulosa cells in vitro, small versus large follicle responses, FSH, menstrual cycle, TNFa 1285
follicles, granulosa luteal cells, steroidogenesis, HMG, FSH, HCG response, *in vitro* 2064
folliculogenesis, angiogenesis, cyclic vascular changes, quantification, vascular endothelial growth factor, intercellular adhesion molecule-1, immunohistochemistry 953
functional ovarian cysts, diagnosis, colour Doppler ultrasound, letters 503
granulosa cell tumour, endometriosis, leiomyomata, case report 1357
granulosa cell tumours, incidence, fertility drugs, oral contraceptives, Finland 2828
granulosa cells, IGF-I receptors, flow cytometry, description of method, ovulation induction 161
granulosa cells, progesterone, anovulation, spontaneous abortion, polycystic ovary syndrome, IVF patients, *in vivo/in vitro* 290
granulosa cells, purification technique, follicular fluid, HCG, oocytes, maturity, IVF 1303
granulosa–luteal cells, IGFBP-1, progesterone, steroidogenesis, octreotide 146
granulosa–luteal cells, low density lipoprotein uptake, HCL-2 monoclonal antibody, apolipoprotein-B, immunohistochemistry 936, 944
increased stromal blood flow, vascular endothelial growth factor, raised serum concentrations, polycystic ovaries, polycystic ovary syndrome, clinical study 651
inhibin A and B, preantral follicles *in vitro*, secretion, mouse 927
leukocytes, distribution and characterization, immunohistochemistry, human leukocyte antigen 2186
LH receptor expression, induced luteolysis, marmoset 2532
ovarian failure, FSH, inhibin A, sheep, menopause 3016
ovarian reserve, smoking, IVF, ovulation induction, FSH 2192
ovulation, right-sided dominance, spontaneous versus stimulated cycles, letters 244
placental protein 14, uterine origin, normal women, Rokitansky syndrome 3418
polycystic ovary syndrome, androgens, serum concentrations, increased stromal volume, 3-D ultrasound 1437
premature ovarian failure, incidence, inheritance pattern, clinical study 1796
premature ovarian failure, pregnanediol glucuronide, excretion, adrenal, progesterone, pituitary down-regulation 2061
progesterone, pre-ovulatory rise, GnRH agonist, HMG, adrenal, letters 2657
utero-ovarian blood flow, polycystic ovary syndrome, hormone profile, androstenedione, GnRH agonist, IVF 815

Ovulation
assisted reproductive techniques, weight loss, improved outcomes, prospective study 1502
contralateral ovulation, ovulation induction, clomiphene citrate, follicular phase length, oocytes, maturation *in vivo*, clinical study 1590
inhibition, contraception, mifepristone, nomegestrol acetate, combined sequential regimen 3297
oocyte retrieval *in vivo*, visualization, laparoscopy, fimbriae, ciliary activity 1425
spontaneous versus stimulated cycles, ovary, right-sided dominance, letters 244
test kits, potentially confounded, LHb core fragment, urinary molecular fragments, immunoradiometric assay 826

Ovulation induction
anovulation, recombinant FSH, chronic low-dose regimen, comparative prospective study 2688
burden on patients, attempts to simplify protocols, debate 1121
cancer, granulosa cell tumours, incidence, fertility drugs, oral contraceptives, Finland 2828
clomiphene citrate, contralateral ovulation, follicular phase length, oocytes, maturation *in vivo*, clinical study 1590
clomiphene citrate, future clinical role, safety, alternatives, debate 2356
clomiphene citrate, side-effects, psychiatric instability, debate 2986
clomiphene versus clomiphene + HMG, Fallopian tube sperm perfusion, intrauterine insemination, clinical comparison 3053
cystic fibrosis, natural cycle versus clomiphene citrate, insulin, fatty acid deficiency, polycystic ovary syndrome 2092
donor oocytes, colon cancer, risk to donor, donor payments, legislation, ethics 227
donor oocytes, pregnant mare's serum gonadotrophin, embryos, viability reduction, hamster 724
follicular fluid, TGFb1 concentration, IVF, correlation with outcomes 656
follicular phase, spontaneous versus stimulated cycles, FSH, leptin, serum concentrations, oestradiol 1152
FSH, leptin, serum concentrations, letters 3281
FSH, recombinant FSH (Gonal-F), effect on LH secretion, double-blind placebo-controlled study 1139
FSH, single bolus r-hFSH at mid cycle, periovulatory events, oocyte maturation, macaques 554
FSH, urinary versus recombinant FSH, LH response to GnRH, gonadotrophin surge attenuating factor, clinical trial 2415
FSH peak, controlled timing, oestradiol, clinical study 561
FSH threshold, polycystic ovary syndrome, octreotide, insulin-like growth factors, clinical study 1465
GnRH, exogenous pulsatile GnRH, effect on LH and FSH secretion, ovariectomised women, three regimens tested 525
GnRH, gonadotrophins, comparison of protocols, debate 1778
GnRH agonist, Cetrorelix, pharmacokinetics, pharmacodynamics, healthy female volunteers 2392
GnRH agonist, Cetrorelixâ, dosage, single-dose protocol, IVF, clinical study 2411
GnRH agonist, ganirelix, LH surge prevention, recombinant FSH (Puregon), randomized dose-finding study 3023
GnRH agonist, IVF, embryos, cryopreservation, clinical trial with/without GnRHa 2712
GnRH agonist, IVF, polycystic ovary syndrome, hormone profile, androstenedione, utero-ovarian blood flow 815
GnRH agonist, luteal phase deficiency, HCG, effective luteal support 3315

GnRH agonist, minimum dosage to prevent LH surge, IVF, outcomes 2386
GnRH agonist, reduced dosage, IVF, outcomes, clinical trial 2382
GnRH analogue, buserelin, effective minimum dose, IVF, clinical study 811
GnRH analogue, long-acting regimen efficacy, donor oocytes, prospective clinical study 1148
gonadotrophins, IVF, granulosa luteal cells, aneuploidy, intrafollicular hormone concentrations 2679
granulosa cells, IGF-I receptors, flow cytometry, description of method 161
HMG versus GnRH agonist + HMG, follicular phase, progesterone, origin of serum rise, adrenal, dexamethasone 9
intrauterine insemination, sequential clomiphene citrate/HMG treatment, previous CC/IUI failure, male/female age, pregnancy rates 2110
IVF, degree of LH suppression in mid-follicular phase, GnRH analogue, FSH, cryopreservation, embryo development, pregnancy rates 696
IVF, embryo transfer, probability of success, logistic regression model 78
IVF, follicular fluid, IGF-I, IGFBP-3, measurement in 'poor' versus 'good' responders, folliculogenesis 285
IVF, HMG, i.m. versus s.c. administration, efficacy, prospective randomized study 836
IVF, LH suppression, effects on outcomes, prospective study 1788
IVF, oocyte retrieval 60 h after HCG, pregnancy, case report 1020
IVF, pregnancy, activin B, serum immunoenzymometric assay, potential uses 841
IVF, recombinant FSH (Puregon), HMG (Humegon), non-down-regulated cycles, prospective clinical trial 2995
low dose FSH, polycystic ovary syndrome, impact of insulin resistance, clinical study 567
low responders, IVF vs ICSI, prospective comparison 2126
male subfertility, intrauterine insemination, stimulated versus non-stimulated cycles, randomized cross-over study 1553
Mayer–Rokitansky–Kuster–Hauser syndrome, surrogacy, IVF, luteal phase determination, progesterone, plasma concentration 1470
oocyte retrieval, empty follicle syndrome, HCG, bioavailability, clinical experience 1281
oocytes, nuclear/cytoplasmic maturation protocol, cytoskeleton, cryopreservation, epidermal growth factor, mouse 971
poor response prediction, day 3 LH values, clinical trial 531
rFSH (Puregon), initial low dose, IVF/ICSI, clinical study 565
right-sided dominance, spontaneous versus stimulated cycles, letters 244
smoking, ovarian reserve, IVF, FSH 2192
unexplained infertility, intrauterine insemination, recombinant FSH, three low-dose protocols compared, randomized controlled trial 1527

Oxygen tension
spermatozoa, reactive oxygen species, oligozoospermia, isolated spermatozoa *in vitro* 3108

Oxytocin
ectopic pregnancy, intramesosalpingeal injection, laparoscopy, preliminary results 3042

Oxytocin receptor
mammary glands, expression and immunolocalization, lactating and non-lactating 2645

Pain
appendicectomy, conscious pain mapping, local anaesthesia, microlaparoscopy, case reports 588
back pain, spontaneous pregnancy versus IVF, relaxin, clinical comparison 3233
copper IUD, regularly menstruating women, uterine artery, blood flow 1841
menstruation, diclofenac, copper intrauterine device, uterine artery, blood flow, clinical study 2480

Paracentesis
ascites, ovarian hyperstimulation syndrome, uterus, blood flow, pregnancy outcomes 2077

Parental stress
IVF, twins, child behaviour, psychological evaluation 3244

Partial zona dissection–insemination
ICSI, comparison, cynomolgus monkey 2555

Parturition
delayed interval delivery, quintuplets, intrauterine insemination, case report 224
myometrium, NS1619-induced relaxation, Ca^{2+}-activated potassium channels 208
placenta, term, monocyte chemotactic peptide-1, IL-10, RANTES, prostaglandin E_2 3560
prematurity, IVF, twins, birthweight, neonatal morbidity, neonatal mortality, case–control study 1702
uterine metroplasty, mode of delivery, letters 1113

Paternal age
60 year old father, mentally retarded child, complex chromosomal rearrangement, FISH, case report 1801
behaviour of progeny, spontaneous/learning behaviour, rat 55
delayed parenthood, effects on offspring, genetic diseases, mitochondrial DNA 2371
ICSI, fertilization/pregnancy rates, retrospective study 334
sex ratio, variation, large sibships, letters 1412
spermatozoa, aneuploidy, morphology, fertile/infertile, in-situ hybridization 3406

Pelvic inflammatory disease
hsp60, ectopic pregnancy, serological response, *Chlamydia trachomatis* 1088

Pelvis
adhesions, monocyte chemotactic protein-1, peritoneal fluid, endometriosis 1194
endometriosis, deeply infiltrating, vaginal danazol ring, clinical study 1952
endometriosis, endoscopy, rectum, ultrasonography, diagnosis 2266
endometriosis, risk, previous abortions, spontaneous/induced abortions, letters 3283
infertility, diagnosis, pelvis, adhesions, ultrasonography, transvaginal laparoscopy, prospective comparison 330
splenosis, mimicking endometriosis, abdominal mass, pain, case report 1683

Penicillin
allergy, intrauterine insemination, case report 3368

Penile vibratory stimulation
semen collection, rectal probe electroejaculation, sperm number, accessory gland production, squirrel monkey 2527

Pentoxifylline
spermatozoa, cAMP, intracellular concentration, motility, hyperactivation 911
spermatozoa, cryopreservation, motility post-thaw, acrosome reaction, ionophore 3384

Percoll gradient centrifugation
spermatozoa, processing methods, cryopreservation, gradient separation, washing, sperm stress test 2151
sperm preparation, glass wool filtration, acrosome, percentages intact, ultrastructure 2506

Percutaneous epididymal sperm aspiration
azoospermia, diagnosis, open biopsy versus percutaneous needle biopsy, evaluation by histology 1266
azoospermia, obstructive, testicular fine needle aspiration, microsurgical epididymal sperm aspiration, controlled clinical comparison 3086
ICSI, cryopreservation versus fresh epididymal spermatozoa, microepididymal sperm aspiration, outcomes 1872
ICSI, microsurgical epididymal sperm aspiration, testicular sperm extraction, clinical comparison 620
local anaesthesia, efficacy, clinical study 646
repeated procedure, efficacy and safety, ICSI, clinical trial 2805
ultrasonography, Doppler, relation to clinical data 3390

Peripheral blood mononuclear cells
corpus luteum, function and differentiation, luteal cells, IL-4, IL-10, pregnant/non-pregnant women 2738

Peritoneal fluid
ascites, angiogenin, ovarian hyperstimulation syndrome 2068
endometriosis, leukocytes, spermatozoa, phagocytosis *in vitro*, lignocaine 1353
IL-8, endometriosis, relationship to stage of disease 1957
inhibins, activin, endometriosis, menstrual cycle 2606
monocyte chemotactic protein-1, adhesions, pelvis, endometriosis 1194

Peritoneum
adhesions, endometriosis, endometrium–amnion model *in vitro*, electron microscopy 2275
adhesions, lazaroids, steroidal/non-steroidal, i.p. administration 2443
endometriosis, stage of disease, non-pigmented peritoneal lesions, soluble HLA-I, intercellular adhesion molecule-1, serum concentrations 3206

Perivitelline space
granularity, ICSI, HMG, overdose 3425

pH
PH regulation, oocytes, fertilization, ICSI, effects of acid/alkaline shock, sperm–zona interaction 964
preimplantation embryos, intracellular pH, amino acids, buffer system, mouse 3441
Phagocytosis
placenta, first trimester, extravillous trophoblasts, fluorescent dye labelling 2941
Phosphate
preimplantation embryos, 2-cell block, timing of sensitivity, maturation-promoting factor, rat 398
Phosphodiesterase inhibitors
spermatozoa, motility, acrosome reaction, enhancement 1248
Placenta
apoptosis, early placental bed, discrimination from necrosis, in-situ DNA ligation, immunocytochemistry 3511
Asherman's syndrome, intrauterine adhesions, prevalence, removal of placental remnants, curettage for incomplete abortion 3347
BCL-2 proto-oncogene, expression, fibrin, correlation, immunohistochemistry 1717
chorionic villi, HCL-2 monoclonal antibody, apolipoprotein-B, low density lipoprotein uptake, immunohistochemistry 936, 944
chorionic villous sampling, normal villous morphology, cytogenetic abnormalities, diagnosis 2954
cytotrophoblasts, HCG, secretion and regulation *in vitro*, sex hormone binding globulin 1368
first trimester, phagocytosis, extravillous trophoblasts, fluorescent dye labelling 2941
first trimester, trophoblast, galectin, cell adhesion, immunohistochemistry 730
11b-hydroxysteroid dehydrogenase type 2, cortisol, immunohistochemistry, intrauterine growth restriction 799
IGFBP-1, dexamethasone, antenatal treatment for prematurity, effect on maternal synthesis by decidua 1714
monochorial placenta, twin–twin transfusion syndrome, amnioreduction, efficacy, vascular anatomy 1709
monochorionic placenta, vascular anatomy, fetal growth, amniotic fluid volume, twin–twin transfusion syndrome 2933
pregnancy, fentanyl, analgesia, amniotic fluid, coelomic fluid 2317
term, parturition, monocyte chemotactic peptide-1, IL-10, RANTES, prostaglandin E_2 3560
trophoblasts, tumour necrosis factor-a, receptor shedding *in vitro*, IL-1 dependent regulation 2308
Placental isoferritin
first trimester, maternal serum, coelomic fluid, amniotic fluid 1044
Placental protein 14 (see also glycodelin)
circulating concentrations, menstrual cycle, assisted reproduction cycles, implantation/pregnancy rates, significant association 2612
endometrium, mifepristone, luteal phase administration, implantation, rhesus monkey 3478
endometrium, uterine flushings, collection technique, method of expression of results, infertility 3357
hormone replacement therapy, morphological and biochemical responses, tibolone, continuous combined oestrogen plus progesterone, prospective randomized trial 2261
post-/peri-menopausal bleeding, endometrial adenocarcinoma, diagnostic value 2895
recurrent spontaneous abortion, uterine flushings, correlation with pregnancy outcome 3197
recurrent spontaneous abortion, value in pregnancy outcome prediction, HCG, ultrasonography 3525
uterine origin, normal women, Rokitansky syndrome 3418
Platelet-derived growth factor
preimplantation embryos, co-culture, Vero cells 1600
Platelets
ovarian hyperstimulation syndrome, haematocrit, biological marker of severity of OHSS, leukocytes, renin–aldosterone system 2406
Pleural effusion
ovarian hyperstimulation syndrome, IVF, case report 571
Polar bodies
first polar body, chromosome analysis, aneuploidy, oocytes, hamster/human 583
Pollution
sex ratio, reproductive hazards, coital rates, psychological variables 1083
Polycystic kidney disease
'seminal megavesicles', ultrasonography, vasography, azoospermia, case descriptions 1567
Polycystic ovaries
increased stromal blood flow, vascular endothelial growth factor, raised serum concentrations, polycystic ovary syndrome, clinical study 651
Polycystic ovary syndrome
androgens, serum concentrations, ovary, increased stromal volume, 3-D ultrasound 1437
associated metabolic disorders, leptin, obesity, body mass index, clinical study 535
endometrial thickness, epidermal growth factor, regulation of receptor *in vitro*, androgens, testosterone 2585
follicular fluid, inhibins, activin 2693
glucagon, insulin, acute response, obesity, oral glucose tolerance test 847
GnRH agonist, effect on growth hormone secretion, IGF-I 22
granulosa cells, progesterone, anovulation, spontaneous abortion, IVF patients, *in vivo/in vitro* 290
hyperinsulinaemia, oral drug treatments, effectiveness, risks, Troglitazone, debate 5
insulin, cystic fibrosis, natural cycle versus clomiphene citrate, fatty acid deficiency 2092
insulin, leptin, prediction of serum concentration, obesity, body mass index, menstrual cycle 547
insulin resistance, hirsutism, bone mineral density, antiandrogens, clinical trial 2703
ovulation induction, FSH threshold, octreotide, insulin-like growth factors, clinical study 1465
ovulation induction, low dose FSH, impact of insulin resistance, clinical study 567
polycystic ovaries, increased stromal blood flow, vascular endothelial growth factor, raised serum concentrations, clinical study 651
pregnancy, insulin resistance, oral glucose tolerance test, clinical study 542
utero-ovarian blood flow, hormone profile, androstenedione, GnRH agonist, IVF 815
Polyhydramnios
monochorionic placenta, vascular anatomy, fetal growth, amniotic fluid volume, twin–twin transfusion syndrome 2933
Polymerase chain reaction
potential problems of method, Y chromosome, deletions 3032
Polyvinylpyrrolidone
ICSI, protocol without PVP, fertilization rates 1922
spermatozoa, ultrastructure, detrimental effects 120
Posthumous conception
ethics, legislation, response to consultation document, Human Fertilisation and Embryology Authority 2654
legislation, ethics, donor insemination, donor oocytes 1407
Postmenopausal women
donor oocytes, embryo transfer, implantation window, duration of progesterone therapy, pregnancy rates 720
hormone replacement therapy, tibolone, continuous combined oestrogen plus progesterone, prospective randomized trial, morphological and biochemical responses, CA125 placental protein 14
Pre-eclampsia
soluble endothelial selectins, neutrophil activation 3537
Preconception diagnosis
oocytes, first polar body, chromosome analysis, aneuploidy, hamster/human 583
Pregnancy
antiphospholipid antibodies, activated protein C, APC resistance, clinical study 2633
aorta, vascular resistance, nitric oxide, gestational age, rat 214
back pain, spontaneous pregnancy versus IVF, relaxin, clinical comparison 3233
bilateral tubal pregnancy, IVF, case report 465
carotid artery, endothelium, smooth muscle, hypotrophy, stereology, guinea-pig 1074
cervical pregnancy, methotrexate, risk factors, quantitative review 2636
chorionic villous sampling, normal villous morphology, cytogenetic abnormalities, diagnosis 2954
cornual pregnancy, conservative management, laparoscopy, case report 2002
corpus luteum, function and differentiation, luteal cells, peripheral blood mononuclear cells, IL-4, IL-10, pregnant/non-pregnant women 2738
cycle of conception, androgens, maternal serum values, artificial insemination, controlled study, testosterone, androstenedione 460
decidua, large granular lymphocytes, $CD56^{++}$, endometrium, menstrual cycle, flow cytometry 1036

dexamethasone, androgens, oestradiol, maternal plasma steroid concentrations, baboon 2282
early pregnancy loss, oocytes, post-ovulatory ageing *in vivo*, increased risk, prospective study 394
ectopic pregnancy, aetiology, spermatozoa, donor versus husband, GIFT, IVF 3505
ectopic pregnancy, *Chlamydia trachomatis*, hsp60, serological response, pelvic inflammatory disease 1088
ectopic pregnancy, conservative laparoscopy versus methotrexate, subsequent fertility, randomized trial 3239
ectopic pregnancy, diagnosis, maternal serum creatine kinase, letter 2003
ectopic pregnancy, diagnosis, progesterone, serum concentrations, meta-analysis 3220
ectopic pregnancy, diagnosis, transvaginal 3-D ultrasound, endometrium 450
ectopic pregnancy, Fallopian tube, implantation window, integrins, a_v and b_3 subunit expression in epithelium 2916
ectopic pregnancy, inhibin A, evaluation as surveillance marker, HCG 2305
ectopic pregnancy, IVF, three ectopic pregnancies, case report 468
ectopic pregnancy, oxytocin, intramesosalpingeal injection, laparoscopy, preliminary results 3042
ectopic pregnancy, retrospective study of treatment options, laparotomy, laparoscopy, methotrexate, second interventions 203
ectopic pregnancy, rudimentary horn, laparoscopy, case report 2643
ectopic pregnancy, rudimentary horn, rupture, case report 3566
ectopic pregnancy, tubal pregnancy, conservative surgery versus radical surgery, subsequent fertility outcomes, retrospective cohort study 1804
fetal growth, nitric oxide, decreased maternal and fetal production, small for gestational age infants 1070
first trimester, activins, follistatin, inhibins, maternal serum, amniotic fluid, extra-embryonic coelomic fluid 2624
first trimester, amniotic fluid, extra-embryonic coelom, IL-8, monocyte chemotactic peptide-1, differential concentrations 2292
first trimester, coffee, spontaneous abortion risk, case-controlled study 2286
first trimester, Down's syndrome, screening, fetal antigen 2, maternal serum, first trimester 1706
first trimester, ectopic/intrauterine, HCG, bioactivity/immunoreactivity, maternal serum 2629
first trimester, IVF, vascular endothelial growth factor, maternal serum concentrations, longitudinal study, HCG, oestradiol 1057
first trimester, placenta, apoptosis, early placental bed, discrimination from necrosis, in-situ DNA ligation, immunocytochemistry 3511
first trimester, placenta, fentanyl, analgesia, amniotic fluid, coelomic fluid 2317
first trimester, placenta, phagocytosis, extravillous trophoblasts, fluorescent dye labelling 2941
first trimester, placenta, trophoblast, galectin, immunohistochemistry 730
first trimester, placental isoferritin, maternal serum, coelomic fluid, amniotic fluid 1044
first trimester, ultrasonography, three-dimensional, preliminary clinical study 740
glutathione S-transferase, ectopic human fetus, immunohistochemistry, GST a and p 1380
haemolytic disease, RhD antigen, Kell antigen, prenatal diagnosis, polymerase chain reaction, outcomes 1472
heart transplant, immunosuppression, literature review, case report 749
hepatocyte growth factor, maternal circulation levels, small for gestational age infants 2950
heterotopic pregnancy, triplets, monozygotic twinning, IVF, two embryos replaced, case report 1999
HIV-1 carrier male, ICSI, washed semen, case report 3247
inhibin, activin, pro-a C, follistatin, maternal serum concentrations, longitudinal study 3530
interstitial pregnancy, cornual pregnancy, colour Doppler, methotrexate, case report 1723
interstitial pregnancy, heterotopic pregnancy, IVF, case report 1547
interstitial pregnancy, methotrexate, case report, literature review 1981
interstitial pregnancy, salpingectomy, IVF, sextuplets, case report 762
IVF, endometrium, thickness £ 4 mm, successful pregnancy, case report 1550
IVF, prognostic models, external validation 3542
IVF, twins, prematurity, birthweight, neonatal morbidity, neonatal mortality, case–control study 1702
mid-trimester loss, clinical population study, screening protocol appraisal, antiphospholipid antibodies 1975
multifetal pregnancy, elective multifetal reduction, twins, clinical experience 2301
multiple pregnancy, embryo transfer, clinical policy, debate 2988
multiple pregnancy, IVF, embryo transfer, policy, debate 2663
multiple pregnancy, IVF, embryo transfer, restricted to two embryos, clinical results 3550
multiple pregnancy, IVF, late selective fetal reduction, prospective study 1996
multiple pregnancy, monochorial placenta, twin–twin transfusion syndrome, amnioreduction, efficacy, vascular anatomy 1709
multiple pregnancy, triplets, fetal reduction, obstetric outcomes 3555
ovulation induction, IVF, activin B, serum immunoenzymometric assay, potential uses 841
placenta, cytotrophoblasts, HCG, secretion and regulation *in vitro*, sex hormone binding globulin 1368
placenta, 11b-hydroxysteroid dehydrogenase type 2, cortisol, immunohistochemistry, intrauterine growth restriction 799
placenta, monochorionic placenta, vascular anatomy, fetal growth, amniotic fluid volume, twin–twin transfusion syndrome 2933
placenta, term, monocyte chemotactic peptide-1, IL-10, RANTES, prostaglandin E_2 3560
placenta, trophoblasts, tumour necrosis factor-a, receptor shedding *in vitro*, IL-1 dependent regulation 2308
polycystic ovary syndrome, insulin resistance, oral glucose tolerance test, clinical study 542
pre-eclampsia, soluble endothelial selectins, neutrophil activation 3537
pregnancy-specific b_1-glycoprotein, endometrial thickness, IVF, relationship to outcome prognosis 1962
second and third trimesters, fetus, IGF and binding proteins *in vivo*, cordocentesis 1389
second trimester, maternal dimeric inhibin A, Down's syndrome, screening test, clinical evaluation 744
spontaneous pregnancy, ovarian hyperstimulation syndrome, triploidy, vascular endothelial growth factor, case report 2082
teenage pregnancies, induced abortion, subsequent preterm delivery, retrospective case–control study 758
teenage pregnancy, outcomes, Caesarean section, incidence, retrospective cohort study 3228
time to pregnancy, epidemiology, methodology, statistical analysis, debate 1751
tubal pregnancy, methotrexate, mifepristone, combination treatment, randomized controlled trial 1987
unintended pregnancies, characteristics of women, South American hospitals 1991
uterine artery, dilation/relaxation *in vitro*, acetylcholine, nitric oxide 1361
uterine metroplasty, mode of delivery, letters 1113
uterus, myometrium, NS1619-induced relaxation, Ca^{2+}-activated potassium channels, parturition 208

Pregnancy termination
IVF, motivation, fetal anomalies, opinion 2377
non-surgical methods, opinion 2379

Pregnancy-induced hypertension
oocyte donation, obstetric and perinatal outcome, comparison with IVF 483

Pregnancy-specific b_1-glycoprotein
IVF, endometrial thickness, relationship to outcome prognosis 1962

Pregnanediol glucuronide
excretion, adrenal, progesterone, premature ovarian failure, pituitary down-regulation, leuprolide acetate 2061

Pregnant mare's serum gonadotrophin
ovulation induction, donor oocytes, embryos, viability reduction, hamster 724

Preimplantation embryos
2-cell block, phosphate, timing of sensitivity, maturation-promoting factor, rat 398
assisted hatching, IVF, poor prognosis patients, pregnancy rates 1331
blastocysts, glycolysis, culture medium, vitamins, amino acids, mouse 991
blastocysts, inner cell mass, FISH, mosaicism, no selection for euploidy 3151
cellular fragmentation, developmental effects *in vitro*, mouse 1307
co-culture, fibroblasts, IVF, pregnancy rates 1325
co-culture, preferability of sequential media, blastocysts, debate 2043
co-culture, Vero cells, platelet-derived growth factor, IL-6, leukaemia inhibitory factor, TGFb, epidermal growth factor 1600
cryopreservation, post-thaw cleavage arrest, chromosomal abnormalities, chromosomes X/Y/1, FISH 425

culture media, IGF-I, enhanced development 3144
culture medium, heparin-binding EGF, improved development 1645
development, endogenous folate essential, methotrexate, mouse 1312
development, IVF, ICSI, paternal influence, abnormal spermatozoa 1632
heat shock proteins, monoclonal antibodies, impaired development in vitro, mouse 987
hydrosalpingeal fluid, embryo development *in vitro*, implantation process *in vitro* 2921
hydrosalpinx, fluid composition, cytotoxicity, lack of evidence 1620
ICSI, fertilization, embryo development, rhesus monkey model 3449
ICSI, oocytes, morphology, fertilization rate, embryo quality 3431
IL-1, mRNA in single blastomeres, RT–PCR 2206
intracellular pH, amino acids, buffer system, mouse 3441
IVF, assisted hatching, enzymatic treatment, blastocyst transfer, implantation rates 2926
IVF, culture media, blastocysts, embryo transfer, prospective randomized trial 3434
IVF, embryo transfer, pronuclear embryos, 1 day after retrieval, clinical pregnancy rates 1003
IVF, fragmentation, apoptosis, reactive oxygen species, hydrogen peroxide 998
IVF, ICSI, morphology, predictive value, implantation/pregnancy rates 2869
IVF, ICSI, multinuclear blastomeres, genetic analysis, FISH 1625
maturation *in vitro*, co-culture, ampullary cells, fertilization/hatching rates 1916
pH regulation, fertilization, ICSI, effects of acid/alkaline shock, sperm–zona interaction 964
propofol, toxicity, IVF, mouse 430
vitrification, 8-cell mouse embryos, application to human IVF programme 2874
zygotes, cryopreservation, 8-year storage, live birth, case report 2970
zygotes, cryopreservation, propanediol, formaldehyde, effects of contamination, mouse 979

Preimplantation genetic diagnosis
biopsy experiments, mouse, training procedures, legislation, France 1022
biopsy procedure, cryopreservation, effect on embryo development, mouse 3165
Ca^{2+}/Mg^{2+}-free biopsy medium, subsequent embryo development 2880
cumulus–oocyte complex, ICSI, effect of no. of COC on outcome after PGD, clinical study 3169
ethics, legislation, FISH, PCR 2238
IVF, day 4 embryo transfer, successful outcomes 1656
Klinefelter's syndrome, non-mosaic, testicular spermatozoa, ICSI, birth 1887
b-thalassaemia, aneuploidy, attitudes, Sicily 1936

Premature chromatin condensation
unfertilized oocytes, globozoospermia, ICSI, case report 3094

Premature ovarian failure
familial cases, X chromosome, deletion, cytogenetic screening 3039
fragile X syndrome, FRAXA premutations, high frequency 1184
incidence, inheritance pattern, clinical study 1796
pregnanediol glucuronide, excretion, adrenal, progesterone, pituitary down-regulation 2061

Premenstrual syndrome
b-endorphin, peripheral concentration, tibolone, placebo-controlled cross-over study 2402

Prenatal genetic diagnosis
breast cancer gene 1 (*BRCA1*), ethics, debate 1125
Fukuyama-type congenital muscular dystrophy, polymorphism analysis, microsatellite markers 320
haemolytic disease, RhD antigen, Kell antigen, polymerase chain reaction, outcomes 1472
ICSI, chorionic villous sampling, amniocentesis, obstetric outcomes 2958
risk, counselling, attitudes of couples, questionnaire 862

Pro-a C
pregnancy, inhibin, activin, follistatin, maternal serum concentrations, longitudinal study 3530

Progesterone
adrenal, pregnanediol glucuronide, excretion, premature ovarian failure, pituitary down-regulation, leuprolide acetate 2061
corpus luteum, cigarette smoking, LH, infertility, letter 3577
donor oocytes, embryo transfer, implantation window, duration of progesterone therapy, postmenopausal women, pregnancy rates 720
ectopic pregnancy, diagnosis, serum concentrations, meta-analysis 3220
Fallopian tube, epithelium, ciliary beat frequency, oestradiol, mifepristone 2991
follicles, granulosa cells in vitro, FSH, small versus large follicle responses, menstrual cycle, TNFa 1285
granulosa cells, anovulation, spontaneous abortion, polycystic ovary syndrome, IVF patients, *in vivo*/*in vitro* 290
levonorgestrel, intrauterine releasing system, uterine artery, blood flow, ovary, cyst formation 3379
LH surge, oestrogen, age, menopause 852
luteal phase defect, effect on progesterone production, clinical study 1907
luteal phase determination, plasma concentration, Mayer–Rokitansky–Kuster–Hauser syndrome, surrogacy, ovulation induction, IVF 1470
menstrual cycle, antiprogestin, ZK 137 316, anovulation, amenorrhoea, rhesus monkey 259
origin of serum rise, follicular phase, ovulation induction, HMG versus GnRH agonist + HMG, adrenal, dexamethasone 9
ovarian hyperstimulation syndrome, pathophysiology, kinin–kallikrein system, rat 3009
pre-ovulatory rise, GnRH agonist, HMG, adrenal, ovary, letters 2657
steroidogenesis, corpus luteum, granulosa luteal cells, in vitro, endothelin-1, inhibition 2425
steroidogenesis, granulosa–luteal cells, octreotide 146
uterine relaxing properties, embryo transfer, uterine contractions, altered pregnancy rates 1968

Progestin receptor isoforms
endometrium, prostaglandin dehydrogenase, levonorgestrel, intrauterine-releasing system, immunohistochemistry, longitudinal study 1210

Prolactin receptor
endometrium, decidualization, morphology and function, levonorgestrel, intrauterine release, granulocyte-macrophage colony stimulating factor, immunohistochemistry 1218

Pronucleus formation
ICSI, spermatozoa, DNA, reactive oxygen species 1864

Propanediol
zygotes, cryopreservation, formaldehyde, effects of contamination, mouse 979

Propofol
assisted reproductive techniques, general anaesthesia vs paracervical block, fertilization rates, embryo development 2456
toxicity, oocytes, preimplantation embryos, IVF, mouse 430

Propylene glycol
ovary, cryopreservation, comparison of cryoprotectants, ethylene glycol, dimethylsulphoxide, glycerol 376

Prostaglandins
cervical ripening, nitric oxide, mechanism, debate 245
prostaglandin dehydrogenase, endometrium, progestin receptor isoforms, levonorgestrel, intrauterine-releasing system, immunohistochemistry, longitudinal study 1210
prostaglandin E_2, placenta, term, parturition, monocyte chemotactic peptide-1, IL-10, RANTES 3560

Prostanoids
endothelium-derived relaxing factor, uterine artery, effect on 5-hydroxytryptamine-induced contraction 1947

Prostate
follistatin, activin A, specific assays, immunohistochemistry 3319
selenium, concentrations, sperm count 2172

Psychiatric instability
clomiphene citrate, side-effects, debate 2986

Psychological evaluation
assisted reproductive techniques, adjustment by patients to failure, counselling 1099
infertility, counselling, clinical survey 1733
IVF, ICSI, stress, comparison 1403
IVF, stress, husband/wife response patterns 3262
parental stress, child behaviour, IVF, twins 3244
stress, spontaneous abortion, IVF, reproductive outcomes 2296

Psychotherapy
infertility, psycho-social factors, selected cases 232

Radiotherapy
cancer, effects on subsequent fertility, natural/assisted conception, semen, cryopreservation, ICSI 3250

RANTES
placenta, term, parturition, prostaglandin E_2 3560

Reactive oxygen species
antioxidants, assisted reproductive techniques, spermatozoa, oocytes, embryos, future research, debate 1415

antioxidants, glutathione, seminal plasma, spermatozoa, decreased intracellular concentrations, infertility 353
hydrogen peroxide, preimplantation embryos, fragmentation, apoptosis, IVF 998
IVF, fertilization rates, light scattering analysis, flow cytometry 2568
sperm stress test, modified test, IVF, prediction of sperm-related abnormalities 2484
spermatozoa, DNA, ICSI, pronucleus formation 1864
spermatozoa, DNA fragmentation, antioxidant pretreatment, TUNEL assay 896
spermatozoa, motility, leukocytes, nicotine, cotinine, smoking, letters 777
spermatozoa, oxygen tension, oligozoospermia, isolated spermatozoa *in vitro* 3108
vitamin C, vitamin E, spermatozoa, motility, acrosome reaction, infertility, debate 2984

Rectal probe electroejaculation
semen collection, penile vibratory stimulation, sperm number, accessory gland production, squirrel monkey 2527

Rectum
endoscopy, ultrasonography, endometriosis, pelvis, diagnosis 2266

Relaxin
back pain, spontaneous pregnancy versus IVF, clinical comparison 3233

Renin
ovarian hyperstimulation syndrome, peripheral arteriolar dilatation, sodium retention 2718

Renin–aldosterone system
ovarian hyperstimulation syndrome, haematocrit, biological marker of severity of OHSS, leukocytes, platelets 2406

Reproductive hazards
sex ratio, coital rates, pollution, psychological variables 1083

Retinitis pigmentosa
preimplantation genetic diagnosis, IVF, day 4 embryo transfer, successful outcomes 1656

RhD antigen
fetus, haemolytic disease, prenatal diagnosis, polymerase chain reaction, outcomes 1472

Robotic surgery
laparoscopy, voice/foot/hand control, AESOP 2000, clinical experience 2748

Rokitansky syndrome
placental protein 14, uterine origin, normal women 3418

Round spermatid injection (ROSI)
current problems, opinion 255
debate, clinical value 509
hybrid sterile mice, normal fertilization and embryo development 3099
identification of spermatids, Hoffman optics, letters 2976

Rudimentary horn
ectopic pregnancy, rupture, case report 3566

Saliva
coital lubricants, spermatozoa, motility *in vitro*, CASA, infertility 3351

Salpingectomy
IVF, interstitial pregnancy, sextuplets, case report 762

Salpingoscopy
Fallopian tube, epithelium, cell viability assessment, nuclear dye, Methylene Blue 3414

Seasonality
fecundability, women's age of marriage, cohort study 3520
fertility, sperm parameters, normal versus IVF populations 2165
sex ratio, Germany 1946–1995 1401

Selectins
soluble endothelial selectins, pre-eclampsia, neutrophil activation 3537

Selenium
concentrations, sperm count, testis, epididymis, prostate, seminal vesicle, kidney 2172

Semen
antisperm antibodies, large granular lymphocytes, increased numbers, flow cytometry 296
cryopreservation, cancer, chemotherapy, assisted reproductive techniques, clinical experience 3256
cryopreservation, cancer, chemotherapy, radiotherapy, effects on subsequent fertility, natural/assisted conception, ICSI 3250
glutathione, seminal plasma, spermatozoa, decreased intracellular concentrations, infertility 353
light scattering analysis, flow cytometry, IVF, fertilization rates, acrosome reaction, reactive oxygen species, leukocytes 2568
semen analysis, hamster egg penetration test, TEST-yolk buffer, diagnostic accuracy, acrosin activity 2115
semen analysis, WHO criteria, spermatozoa, morphology, cigarette smoking, alcohol consumption 3394
semen preparation, swim-up versus test yolk buffer incubation, intrauterine insemination, randomized controlled trial 1859
semen quality, oligoasthenoteratozoospermia, IVF, ICSI, pregnancy outcomes 2161
seminal fluid, ejaculate, a-glucosidase, infertility, diagnostic value 591
seminal plasma, aluminium, cadmium, lead, spermatozoa, motility, survey of Finnish men 115
seminal plasma, chlortetracycline assay, spermatozoa, capacitation, hyperactivation 2139
seminal plasma, follistatin, activin A, specific assays, immunohistochemistry 3319
seminal plasma, inhibin B, testicular origin, spermatogenesis, Sertoli cell, clinical study 920
seminal plasma, magnetic resonance spectroscopy, diagnostic capability, obstructive azoospermia, spermatogenesis 132
seminal plasma, zinc, spermatozoa, asthenozoospermia, raised intrasperm zinc, effects on motility 111

Seminal vesicle
selenium, concentrations, sperm count 2172
'seminal megavesicles', ultrasonography, vasography, azoospermia, polycystic kidney disease, case descriptions 1567

Serotonin
uterine artery, endothelium-derived relaxing factor, effect on 5-hydroxytryptamine-induced contraction 1947

Sertoli cell
spermatogenesis, inhibin B, testicular origin, seminal plasma, clinical study 920

Sertoli cell-only syndrome
telomerase, oestradiol 1476
Y chromosomes, microdeletions, high frequency, PCR 302

Severe combined immunodeficiency
follicles, development, primordial/antral stages, *SCID/hpg* mice, FSH, human ovarian xenografts 1133

Sex differentiation
androgens, testis, descent, cranial suspensory ligament, rat 1272

Sex hormone binding globulin
placenta, cytotrophoblasts, HCG, secretion and regulation *in vitro* 1368

Sex preselection
flow cytometry, MicroSortâ, intrauterine insemination, IVF, ICSI, first births and clinical trial data 2367
spermatozoa, albumin column, FISH, clinical experience 146
spermatozoa, flow cytometry, MicroSort, FISH, blind trial assessment 308
Y sperm enrichment, ejaculation interval, letters 2658
Y sperm enrichment, sex ratios, hormonal influences, ICSI, letter 2659

Sex ratio
gestational length, letters 2975
hormonal influences, ICSI, sex preselection, Y sperm enrichment, letter 2659
insemination timing, follicular phase length, planned/unplanned pregnancies, natural family planning, multicentre prospective study 1397
international comparison, temporal trends 1394
Kobe earthquake, fertility, stress 2321
maternal age, birth order, grand grand multiparous women 2323
reproductive hazards, coital rates, pollution, psychological variables 1083
seasonality, Germany 1946–1995 1401
timing of insemination, menstrual cycle, follicular phase length 3280
variation, large sibships, maternal age, paternal age, letters 1412

Sexual abstinence
ejaculation interval, sex preselection, Y sperm enrichment, letters 2658
sperm chromatin structure assay, flow cytometry, epidemiology, age, smoking, evaluation 2495

Small for gestational age infants
hepatocyte growth factor, maternal circulation levels 2950
nitric oxide, decreased maternal and fetal production 1070

Smoking
infertility, corpus luteum, progesterone, LH, letter 3577
infertility, women, meta-analysis 1532
males, IVF, detrimental to pregnancy outcomes, retrospective cohort study 1506
ovarian reserve, IVF, ovulation induction, FSH 2192
semen analysis, WHO criteria, spermatozoa, morphology 3394

sperm chromatin structure assay, flow cytometry, epidemiology, age, sexual abstinence, evaluation 2495
spermatozoa, motility, nicotine, cotinine, reactive oxygen species, leukocytes, letters 777
Smooth muscle
carotid artery, pregnancy, endothelium, hypotrophy, stereology, guinea-pig 1074
Sodium retention
ovarian hyperstimulation syndrome, peripheral arteriolar dilatation, renin 2718
Somatostatin
octreotide, steroidogenesis, granulosa–luteal cells, IGFBP-1, progesterone 146
Somatotropic axis
body weight, menopause, growth hormone, insulin-like growth factors, arginine, obesity, pre-/post-menopausal women 279
Sperm chromatin structure assay
evaluation, epidemiology, age, smoking, sexual abstinence 2495
Sperm count
2nd digit:4th digit ratio, testosterone, LH, oestrogen, spermatogenesis, population study 3000
dizygotic twinning rates, secular trends, oral contraception, letters 2335
evidence for secular decline, letters 2974
selenium, concentrations, testis, epididymis, prostate, seminal vesicle, kidney 2172
Sperm preparation
density gradient centrifugation, alternatives to Percoll, ISolate/PureSperm/OptiPrep, evaluation 3139
glass wool filtration, Percoll gradient centrifugation, acrosome, percentages intact, ultrastructure 2506
Sperm stress test
cryopreservation, processing methods, Percoll, gradient separation, washing 2151
modified test, IVF, prediction of sperm-related abnormalities 2484
Sperm–oocyte interaction
gamete fusion, oolemma, b6 integrin, sperm adhesion receptor, immunolabelling 682
inhibition, glycoproteins, follicular fluid, hemizona assay 2541
oocytes, pH regulation, effects of acid/alkaline shock, sperm–zona interaction, ICSI 964
sperm–zona binding, effects of (i) prior exposure to spermatozoa and (ii) oocyte cryopreservation 670
sperm–zona binding, hemizona binding assay, follicular fluid, IVF patients, male/female factor, endometriosis 128
Spermatids
culture *in vitro*, cryopreservation, morphology, viability 634
DAZ protein locations, immunofluorescence, immunohistochemistry 363
ejaculated spermatid detection, immunofluorescence, monoclonal antibody, prediction of TESE outcome 3061
ICSI, successful pregnancy 1898
ICSI, azoospermia, non-obstructive, testicular biopsy, elongated spermatids, clinical results 709
ICSI, clinical pregnancy rate, multiple pregnancies 104
mature spermatid identification, distinguished from spermatozoon, letter 2979
round spermatid injection, hybrid sterile mice, normal fertilization and embryo development 3099
round spermatid injection, identification of spermatids, Hoffman optics, letters 2976
round spermatid injection (ROSI), elongated spermatid injection (ELSI), current problems, opinion 255
round spermatids, identification, phase-contrast microscopy, FISH, preclinical research 1570
testicular biopsy, azoospermia, obstructive/non-obstructive, velocity sedimentation under unit gravity, Percoll centrifugation, fluorescence-activated cell sorting, viability 639
testicular sperm extraction, ICSI, debate 2045
testicular sperm extraction, ICSI, round spermatid injection, round spermatid nucleus injection, clinical value, debate 509
Spermatogenesis
2nd digit:4th digit ratio, testosterone, LH, oestrogen, sperm count, population study 3000
azoospermia, obstructive azoospermia, seminal plasma, magnetic resonance spectroscopy, diagnostic capability 132
colchicine, sperm function, Behcet's disease, gout, familial Mediterranean fever 360
environmental pollution, industry, agriculture, dibromochloropropane, oestrogen, debate 2041
FSH, primates, review 916
heat exposure, occupation, review 2122
in-vitro culture, testicular biopsy, obstructive azoospermia, FSH, cell differentiation 2772
inhibin B, testicular origin, seminal plasma, Sertoli cell, clinical study 920
male contraception, cyproterone acetate, testosterone enanthate, clinical assessment, low dose regimen 1225
maturation arrest, Sertoli cell-only syndrome, telomerase, oestradiol 1476
testicular sperm extraction, distribution in testes, letter 2034
Spermatozoa
abnormal spermatozoa, preimplantation embryos, development, IVF, ICSI, paternal influence 1632
absolute immobtile spermatozoa, repeated ejaculation, ICSI, improved fertilization capacity, clinical results 630
acrosome reaction, calcium ionophore, A23187, fertilization rates, correlation, teratozoospermia 905
aneuploidy, chromosomes 13 and 21, infertile men, oligozoospermia, teratozoospermia 2787
aneuploidy, frequency, chromosomes 1,13,21, donor insemination, donor age 2489
aneuploidy, morphology, paternal age, fertile/infertile, in-situ hybridization 3406
antioxidants, assisted reproductive techniques, future research, debate 1415
cAMP, intracellular concentration, motility, hyperactivation, pentoxifylline 911
capacitation, acrosome reaction, culture media, IVF, protein-free SMART1â 2579
capacitation, hyperactivation, seminal plasma, chlortetracycline assay, computer-assisted sperm analysis 2139
cervical mucus penetration, quantitative modelling 1255
chromatin condensation, epidemiology, age, smoking, sexual abstinence, sperm chromatin structure assay, evaluation 2495
chromosome analysis, ICSI, hamster oocytes, injection and culture techniques, omission of CA^{2+} 1336
chromosomes, de-novo translocation, G-banding, FISH, analysis of father, risk of transmission 60
co-culture, Fallopian tube, epithelial monolayers, motility, zona-free hamster penetration assay, human/macaque/bovine 2797
colchicine, spermatogenesis, sperm function, side-effects, Behcet's disease, gout, familial Mediterranean fever 360
computer-assisted semen analysis, ESHRE Andrology Special Interest Group, guidelines 142
cryopreservation, pentoxifylline, motility post-thaw, acrosome reaction, ionophore 3384
cryopreservation, processing methods, Percoll, gradient separation, washing, sperm stress test 2151
cryopreservation, vasectomy, infertility, vasectomy reversal, IVF, ICSI, debate 1757
DAZ protein locations, sperm tails, spermatids, immunofluorescence, immunohistochemistry 363
de-novo translocation, chromosomes, G-banding, FISH, analysis of father, risk of transmission 60
DNA, antioxidants, supplementation, Percoll, ascorbic acid, a-tocopherol, urate 1240
DNA, reactive oxygen species, ICSI, pronucleus formation 1864
DNA fragmentation, reactive oxygen species, antioxidant pretreatment, TUNEL assay 896
donor versus husband, ectopic pregnancy, aetiology, GIFT, IVF 3505
dysfunction, unexplained infertility, endometriosis, fertilization rates, tubal infertility, donor insemination 1825
ejaculated, angiotensin-converting enzyme, ultrastructural localization, immunofluorescence, acrosome reaction 604
ejaculated versus testicular spermatozoa, IVF, ICSI, oocytes, activation, pronucleus formation 1606
electric field trapping, description of method, ICSI, sperm selection 136
fertility, seasonality, sperm parameters, normal versus IVF populations 2165
flagellum, pathology, ultrastructure, fibrous sheath dysplasia, asthenozoospermia, fertility prognosis 2521
globozoospermia, ICSI, triplets, case report 2177
glutathione, decreased intracellular concentrations, infertility 353
hamster egg penetration test, TEST-yolk buffer, diagnostic accuracy, acrosin activity 2115

hypo-osmotic swelling test, sperm subtypes, incubation time, cytoskeleton 1578
ICSI, comparison of fertilizing capability, ejaculate/epididymal/testicular, live birth rates 348
ICSI, testicular sperm extraction, fresh versus frozen–thawed spermatozoa, outcomes 1893
ICSI, testicular spermatozoa, motility, testicular histology, clinical outcomes 890
immotile, cryopreservation, ICSI, full-term delivery 3399
meiosis, non-disjunction, Klinefelter syndrome, 47,XXY male 124
microepididymal sperm aspiration (MESA), mini-MESA, description of technique, clinical outcomes 1260
morphological alterations, adrenoleukodystrophy (ALD), adult cerebral ALD, azoospermia, case report 2474
morphology, strict criteria, DNA status, acridine orange, IVF, prediction of outcomes, logistic regression model 1235
morphology, WHO criteria, semen analysis, cigarette smoking, alcohol consumption 3394
motility, acrosome reaction, co-trimoxazole, erythromycin, amoxycillin, tetracycline, chloroquine 1878
motility, acrosome reaction, enhancement, phosphodiesterase inhibitors 1248
motility, acrosome reaction, vitamin C, vitamin E, infertility, debate 2984
motility, computer-assisted sperm analysis, Celltrak, evaluation 611
motility, computer-assisted sperm analysis, diagnostic accuracy, Hamilton–Thorn, IVF 2512
motility, membrane integrity, hypo-osmotic swelling test, *Ureaplasma urealyticum* 2756
motility, nicotine, cotinine, smoking, reactive oxygen species, leukocytes, letters 777
motility, seminal plasma, aluminium, cadmium, lead, survey of Finnish men 115
motility, sperm stress test, modified test, IVF, prediction of sperm-related abnormalities 2484
motility, straight line velocity, ICSI, prospective study, fertilization rate, embryo quality 3103
motility *in vitro*, coital lubricants, CASA, infertility, KY jelly, olive oil, saliva 3351
oligoasthenoteratozoospermia, ICSI, donor oocytes, shared egg donation programme 2158
oligoasthenoteratozoospermia, IVF, ICSI, pregnancy outcomes 2161
paternal age, genetic maturation, behaviour of progeny, spontaneous/learning behaviour, rat 55
phagocytosis *in vitro*, leukocytes, peritoneal fluid, endometriosis, lignocaine 1353
polyvinylpyrrolidone, ultrastructure, detrimental effects 120
reactive oxygen species, NADPH, DNA damage, motility, albumin 1429
reactive oxygen species, oxygen tension, oligozoospermia, isolated spermatozoa *in vitro* 3108
semen preparation, swim-up versus test yolk buffer incubation, intrauterine insemination, randomized controlled trial 1859
sex preselection, albumin column, FISH, clinical experience 146
sex preselection, flow cytometry, MicroSort, FISH, blind trial assessment 308
sperm count, dizygotic twinning rates, secular trends, oral contraception, letters 2335
sperm quality, heated testes, reduced IVF rate, reduced embryo weight, mouse 372
sperm–zona binding, effects of (i) prior exposure to spermatozoa and (ii) oocyte cryopreservation 670
sperm–zona binding, inhibition, glycoproteins, follicular fluid, hemizona assay 2541
testis-specific histone 2B, immunohistochemistry 1559
ultrastructure, acrosome, percentages intact, glass wool filtration, Percoll gradient centrifugation 2506
Y sperm enrichment, sex preselection, ejaculation interval, letters 2658
Y sperm enrichment, sex ratios, hormonal influences, ICSI, letter 2659
zinc, seminal plasma, asthenozoospermia, raised intrasperm zinc, effects on motility 111
zona-free hamster egg penetration test, IVF, ICSI, correlation 1928

Spleen
pelvic splenosis, mimicking endometriosis, abdominal mass, pain, case report 1683

Sterilization
Fallopian tube, tubal patency assessment, reversal of ligation, transvaginal salpingosonography 2819

Steroidogenesis
corpus luteum, modulation, leukocytes, IL-1b, flow cytometry 1584
follicles, granulosa luteal cells, HMG, FSH, HCG, response *in vitro* 2064
granulosa luteal cells, in vitro, progesterone, endothelin-1, inhibition 2425
granulosa–luteal cells, oestradiol, secretion, recombinant FSH, testosterone, androstenedione 1455

Stress
ICSI, IVF, psychological evaluation, comparison 1403
IVF, husband/wife response patterns, psychological evaluation 3262
Kobe earthquake, fertility, sex ratio 2321
parental stress, IVF, twins, child behaviour, psychological evaluation 3244
spontaneous abortion, psychological evaluation, IVF, reproductive outcomes 2296

Stroke
oral contraception, hormone replacement therapy, ESHRE Capri Workshop 2325

Subfecundity
Thai versus European regions, time-to-pregnancy questionnaire 471

Surrogacy
Mayer–Rokitansky–Kuster–Hauser syndrome, ovulation induction, IVF, luteal phase determination, progesterone, plasma concentration 1470

Sympathetic nervous system
adipose tissue, obesity, leptin, secretion, presynaptic norepinephrine inhibition, effects in normal weight subjects 822

Synthetic serum substitute
contamination, Creutzfeldt–Jakob disease, assisted reproductive techniques, risk assessment, debate 1777

Teenage pregnancy
induced abortion, subsequent preterm delivery, retrospective case–control study 758
outcomes, Caesarean section, incidence, retrospective cohort study 3228

Telomerase
spermatogenesis, maturation arrest, Sertoli cell-only syndrome, oestradiol 1476

Temperature
heat exposure, spermatogenesis, fertility, occupation, review 2122

Teratozoospermia
IVF, A23187, calcium ionophore, acrosome reaction, fertilization rates, correlation 905
spermatozoa, aneuploidy, chromosomes 13 and 21, infertile men 2787

TEST-yolk buffer
hamster egg penetration test, diagnostic accuracy, acrosin activity 2115

Testicular biopsy
azoospermia, diagnosis, open biopsy versus percutaneous needle biopsy, evaluation by histology 1266

Testicular fine needle aspiration
azoospermia, obstructive, percutaneous testicular needle biopsy, microsurgical epididymal sperm aspiration, controlled clinical comparison 3086

Testicular sperm aspiration
local anaesthesia, efficacy, clinical study 646
method and efficacy, letters 1111

Testicular sperm extraction
associated risks, caution against use, alternative methods, letters 505
azoospermia, *AZFb* microdeletion, prognostic test, ICSI 2812
azoospermia, non-obstructive, histopathology, FSH, testicular volume, correlation with TESE success 3066
ejaculated spermatid detection, immunofluorescence, monoclonal antibody, prediction of TESE outcome 3061
enzymatic treatment, sperm recovery, ICSI, azoospermia, non-obstructive, clinical experience 2791
ICSI, fresh versus frozen–thawed spermatozoa, outcomes 1893
ICSI, percutaneous epididymal sperm aspiration, microsurgical epididymal sperm aspiration, clinical comparison 620
ICSI, Y chromosome, *AZFc* deletion, azoospermia, oligozoospermia, fertilization/pregnancy rates 3332
multiple biopsies, efficacy, clinical experience 3081
multiple needle versus single open biopsy, prospective comparison 3075
spermatids, ICSI, debate 2045
spermatids, ICSI, round spermatid injection, round spermatid nucleus injection, clinical value, debate 509
spermatogenesis, distribution in testes, letter 2034
TESE/TESA, ultrasonography, Doppler, relation to clinical data 3390

testicular biopsy, histological analysis, FSH, cryopreservation, clinical study 1230
testis, cancer, IVF, ICSI, successful treatments 414
Testis
blood vessel distribution, azoospermia, differential diagnosis, colour Doppler 3090
cancer, IVF, ICSI, successful treatments, electroejaculation, testicular sperm extraction 414
descent, cranial suspensory ligament, androgens, sex differentiation, rat 1272
follistatin, activin A, specific assays, immunohistochemistry 3319
heated testes, sperm quality, reduced IVF rate, reduced embryo weight, mouse 372
heated testes, transient embryo growth retardation, mouse 342
histopathology, testicular volume, FSH, correlation with TESE success 3066
inhibin B, testicular origin, seminal plasma, spermatogenesis, Sertoli cell, clinical study 920
oligozoospermia, partial obstruction, frequency, testicular biopsy, quantitative analysis, varicocele 3402
orchidectomy, androgen insensitivity syndrome, hormone replacement therapy, oestrogen, bone mineral density 2816
selenium, concentrations, sperm count 2172
spermatozoa, ICSI, comparison of fertilizing capability, ejaculate/epididymal/testicular, live birth rates 348
telomerase, azoospermia, Sertoli cell-only syndrome, oestradiol 1476
testicular spermatozoa, motility, testicular histology, ICSI, clinical outcomes 890
testis-specific histone 2B, spermatozoa, immunohistochemistry 1559
Testosterone
2nd digit:4th digit ratio, spermatogenesis, sperm count, population study, LH, oestrogen 3000
epidermal growth factor, regulation of receptor *in vitro*, endometrium, androgens, polycystic ovary syndrome, endometrial thickness 2585
granulosa–luteal cells, oestradiol, secretion, recombinant FSH 1455
maternal serum values, pregnancy, cycle of conception, artificial insemination, controlled study 460
Testosterone enanthate
male contraception, spermatogenesis, cyproterone acetate, clinical assessment, low dose regimen 1225
Tetracycline
spermatozoa, motility, acrosome reaction 1878
b-Thalassaemia
preimplantation genetic diagnosis, attitudes, Sicily 1936
Thoracocentesis
ovarian hyperstimulation syndrome, ascites, paracentesis, uterus, blood flow, pregnancy outcomes 2077
Thrombin
haemostasis, electrodesiccation, comparative study, rabbit 1493
Thromboembolism
combined oral contraceptives, risk, debate 1781
oral contraception, debate 1115
oral contraception, hormone replacement therapy, ESHRE Capri Workshop 2325
ovarian hyperstimulation syndrome, cerebrovascular infarction, GnRH agonist, ICSI, case report 1793
ovarian hyperstimulation syndrome, no evidence of haemoconcentration, case reports 2088
ovarian hyperstimulation syndrome, pathophysiology, letters 778
venous thromboembolism, combined oral contraceptives, WHO technical report, debate 2981
venous thromboembolism, oral contraceptives, role of regulatory authorities, letter 2660
Thromboxane
inhibition, adhesions, prevention, low dose versus high dose aspirin, aspirin, prostacyclin, rabbit 1486
Thyroglobulin
follicular fluid, vascular endothelial growth factor, thyroxine, IVF, ovarian stimulation 3310
Thyroxine
follicular fluid, vascular endothelial growth factor, thyroglobulin, IVF, ovarian stimulation 3310
Tibolone
hormone replacement therapy, continuous combined oestrogen plus progesterone, prospective randomized trial, morphological and biochemical responses, CA125, placental protein 14 2261
premenstrual syndrome, placebo-controlled cross-over study, b-endorphin, peripheral concentration 2402
Time to pregnancy
epidemiology, methodology, statistical analysis, debate 1751
a-Tocopherol
spermatozoa, DNA, supplementation, Percoll, ascorbic acid, urate, protection from X-irradiation 1240
Tomkins metroplasty
septate uterus, successful pregnancy, case report 1387
Transforming growth factor
TGFa, follicles, follicular fluid, menstrual cycle, immunohistochemistry, epidermal growth factor 2199
TGFb, preimplantation embryos, co-culture, Vero cells 1600
TGFb1 concentration, follicular fluid, ovulation induction, IVF, correlation with outcomes 656
Transplantation
alloimmunity, maternal–fetal interactions, invertebrates, chimerism, evolution, opinion 455
'Transport' ICSI
air freight, pregnancies, letter 3576
Transposition of ovaries
cancer, vagina, cervix, ovary, fertility outcomes 660
Transvaginal hydrolaparoscopy
infertility, investigation, outpatient procedure 99
Trichomonas vaginalis
epididymis, identification, azoospermia, letters 2335
Triplets
fetal reduction, obstetric outcomes 3555
heterotopic pregnancy, monozygotic twinning, IVF, two embryos replaced, case report 1999
ICSI, globozoospermia, case report 2177
Triploidy
genetic constitution, binuclear oocyte, maturation *in vitro*, ICSI, case report 1653
ovarian hyperstimulation syndrome, spontaneous pregnancy, vascular endothelial growth factor, case report 2082
Trisomy
non-disjunction, origin and mechanism, maternal age 313
trisomy 21, paternal origin, asthenoteratozoospermia, ICSI, spontaneous abortion, case report 3345
trisomy 21, prenatal diagnosis, ethics, debate 1125
trisomy 21, screening, fetal antigen 2, maternal serum, first trimester 1706
Troglitazone
polycystic ovary syndrome, hyperinsulinaemia, oral drug treatments, effectiveness, risks, debate 5
Trophoblast
implantation, uterus, epithelium, adhesion force measurement 3211
pregnancy-specific b_1-glycoprotein, IVF, endometrial thickness, relationship to outcome prognosis 1962
tumour necrosis factor-a, receptor shedding *in vitro*, IL-1 dependent regulation 2308
Tubal infertility
fertilization rates, donor insemination, unexplained infertility, endometriosis, oocytes, spermatozoa, dysfunction 1825
Tubal ligation
alterations in endometrial perfusion, laser Doppler fluxmetry, menstrual cycle, controlled clinical study 445
Tubal pregnancy
methotrexate, mifepristone, combination treatment, randomized controlled trial 1987
Tumour necrosis factor-a
cervical ripening, nitric oxide, mechanism, debate 245
FSH, granulosa cells in vitro, small versus large follicle responses, menstrual cycle, TNFa 1285
receptor shedding *in vitro*, trophoblasts, IL-1 dependent regulation 2308
Twin–twin transfusion syndrome
monochorial placenta, amnioreduction, efficacy, vascular anatomy 1709
monochorionic placenta, vascular anatomy, fetal growth, amniotic fluid volume 2933
Twins
dizygotic twinning as a measure of human fertility 95
dizygotic twinning rates, reproductive health indicator, letter 3577
dizygotic twinning rates, sperm count, secular trends, oral contraception, letters 2335
elective multifetal reduction, clinical experience 2301

IVF, embryo transfer, combined fresh and frozen embryo transfer, case report 2130
IVF, parental stress, child behaviour, psychological evaluation 3244
IVF, prematurity, birthweight, neonatal morbidity, neonatal mortality, case–control study 1702
spontaneous versus assisted reproduction, comparison of outcome risks, IVF, GIFT 2005
twinning rates, temporal trends, Italy, mid 20th century, letter 3279

Ultrasonography
adenomyosis, diagnosis, transvaginal ultrasonography, uterine needle biopsy, prospective comparison 2884
amniotic band syndrome, first trimester diagnosis, fetoscopy, aetiopathology, case report 2966
azoospermia, differential diagnosis, testis, blood vessel distribution, colour Doppler 3090
Doppler, uterine artery, endometrium, ablation, hysteroscopic rollerball, prediction of treatment failure 3456
Doppler, uterine artery, pulsatility index, unexplained infertility, anticardiolipin antibodies 3487
embryo transfer, embryo positioning in uterine cavity, standing up after transfer, transvaginal ultrasound tracking 2107
endometrioma diagnosis, colour Doppler energy imaging, transvaginal ultrasonography, CA125, clinical study 1691
endoscopy, rectum, endometriosis, pelvis, diagnosis 2266
Fallopian tube, tubal patency assessment, reversal of ligation, transvaginal salpingosonography 2819
Fallopian tube, tubal patency investigation, hystero salpingo contrast sonography, Echovist, first-line screening procedure, evaluation 1519
functional ovarian cysts, diagnosis, colour Doppler ultrasound, letters 503
hydrosalpinx, aspiration, IVF, improved pregnancy rates 736
hydrosalpinx, diagnosis by ultrasound, reduced implantation/pregnancy rates, IVF 1696
hystero salpingo contrast sonography, Echovist, transvaginal ultrasound, evaluation of method 3049
hysterosonography, ICSI, hysterosalpingography, prospective comparison, pregnancy/miscarriage rates 2461
infertility, diagnosis, first-line screening, hysterosonography, clinical evaluation 2463
ovary, cyst formation, levonorgestrel, intrauterine releasing system, uterine artery, blood flow, progesterone 3379
power Doppler, corpus luteum, blood flow, assessment of technique 2836
recurrent spontaneous abortion, value in pregnancy outcome prediction, HCG, placental protein 14 3525
sonohysterography, contrast-enhanced, tubal patency, letters 3282
TESE/TESA, percutaneous epididymal sperm aspiration, Doppler, relation to clinical data 3390
three-dimensional, pregnancy, first trimester, preliminary clinical study 740
transvaginal, infertility, diagnosis, pelvis, adhesions, endometriosis, laparoscopy, prospective comparison 330
transvaginal 3-D ultrasound, endometrium, ectopic pregnancy, diagnosis 450
transvaginal ultrasonography, colour Doppler, endometrium, receptivity, IVF, prediction 1669
transvaginal ultrasonography, embryo-toxicity of covers and sonographic gels, comparison with polyethylene bags and paraffin oil, mouse 2234
transvaginal ultrasound, laparoscopy as alternative procedure, importance of prospective evaluation, diagnosis, complication rate, debate 1761

Unintended pregnancies
characteristics of women, South American hospitals 1991

Urate
spermatozoa, DNA, supplementation, Percoll, ascorbic acid, a-tocopherol, protection from X-irradiation 1240

Ureaplasma urealyticum
spermatozoa, motility, membrane integrity, hypo-osmotic swelling test 2756

Urology
current state of clinical andrology, importance of urology, letter 2036

Uterine artery
blood flow, copper IUD, regularly menstruating women, pain 1841
blood flow, Doppler, endometrium, ablation, hysteroscopic rollerball, prediction of treatment failure 3456
blood flow, levonorgestrel, intrauterine releasing system, progesterone, ovary, cyst formation 3379
blood flow, menstruation, pain, copper intrauterine device, diclofenac, clinical study 2480
dilation/relaxation *in vitro*, acetylcholine, pregnancy, nitric oxide 1361
endothelium-derived relaxing factor, effect on 5-hydroxytryptamine-induced contraction 1947
pulsatility index, anticardiolipin antibodies, unexplained infertility 3487

Uterine flushings
placental protein 14, collection technique, method of expression of results, infertility 3357

Uterus
adenomyosis, diagnosis, transvaginal ultrasonography, uterine needle biopsy, prospective comparison 2884
Asherman's syndrome, intrauterine adhesions, prevalence, removal of placental remnants, curettage for incomplete abortion 3347
blood flow, ovarian hyperstimulation syndrome, ascites, paracentesis, pregnancy outcomes 2077
double uterus, vaginal septum, haematocolpos, hysteroscopy, resection, case report 1500
endometrial resection, myomectomy, endoscopy, efficacy of pre-operative medical treatment, literature review 2592
endometrium, ablation, hysteroscopic rollerball, uterine artery, blood flow, Doppler, prediction of treatment failure 3456
endometrium, adenomyosis, stromal vascularization, morphometry, retrospective clinical study 715
endometrium, antiprogestin, ZK 137 316, antiproliferative action, histology, rhesus monkey 269
endometrium, receptivity, colour Doppler, transvaginal ultrasonography, IVF, prediction 1669
epithelium, implantation, trophoblast, adhesion force measurement 3211
hysteroscopy, metroplasty, diethylstilboestrol exposure, hypoplastic uterus, clinical outcomes 2751
hysterosonography, ICSI, hysterosalpingography, prospective comparison, pregnancy/miscarriage rates 2461
hysterosonography, infertility, diagnosis, first-line screening, clinical evaluation 2463
junctional zone contractions, endometrium, myometrium, implantation, embryo transfer, ultrasonography, ectopic pregnancy 1540
leiomyomata, acromegaly, growth hormone, clinical relationship 1945
leiomyomata, GnRH antagonist, Cetrorelix, slow-release depot treatment, prospective randomized study 1660
leiomyomata, IVF, ICSI, retrospective controlled study, pregnancy delivery rates 198
leiomyomata, IVF, ZIFT, matched case–control follow-up study, pregnancy delivery rates 192
leiomyomata, myomectomy, infertility, literature review 873
leiomyomata, ovary, granulosa cell tumour, endometriosis, case report 1357
Müllerian anomalies, classification, treatment, opinion 789
Müllerian anomalies, rudimentary horn, ectopic pregnancy, laparoscopy, case report 2643
myomectomy, laparoscopy, risk of adhesion formation, second look clinical study 2102
myometrium, pregnancy, NS1619-induced relaxation, Ca^{2+}-activated potassium channels, parturition 208
placental protein 14, uterine origin, normal women, Rokitansky syndrome 3418
rudimentary horn, ectopic pregnancy, rupture, case report 3566
septate uterus, cervical septum, surgical management, letters 243
septate uterus, infertility, recurrent abortion, hysteroscopy, resection, reproductive outcomes 1188
septate uterus, Tomkins metroplasty, successful pregnancy, case report 1387
sonohysterography, contrast-enhanced, tubal patency, letters 3282
uterine artery, blood flow, copper IUD, regularly menstruating women, pain 1841
uterine artery, endothelium-derived relaxing factor, effect on 5-hydroxytryptamine-induced contraction 1947
uterine contractions, IVF, embryo transfer, altered pregnancy rates, progesterone, uterine relaxing properties 1968
uterine metroplasty, pregnancy, mode of delivery, letters 1113
utero-ovarian blood flow, polycystic ovary syndrome, hormone profile, androstenedione, GnRH agonist, IVF 815
vascularity, precise measurement of structures, hysteroscopy, menorrhagia, implant users, Norplant 3190

Vagina
cancer, transposition of ovaries, fertility outcomes 660

cytomorphometric analysis, normal cycle, oral contraceptives, IVF 2767
vaginal danazol ring, endometriosis, pelvis, deeply infiltrating 1952
vaginal septum, haematocolpos, hysteroscopy, resection, case report 1500
Varicocele
counselling versus surgery, prospective randomized study, pregnancy rates 2147
oligozoospermia, partial obstruction, frequency, testicular biopsy, quantitative analysis 3402
Vascular disease
venous thromboembolism, combined oral contraceptives, WHO technical report, debate 2981
Vascular endothelial growth factor
endometriosis, angiogenesis, red/black lesions, clinical study 1686
follicular fluid, luteinization, non-stimulated cycles 1144
follicular fluid, thyroxine, thyroglobulin, IVF, ovarian stimulation 3310
folliculogenesis, angiogenesis, cyclic vascular changes, quantification, intercellular adhesion molecule-1, immunohistochemistry 953
maternal serum concentrations, longitudinal study, first trimester, IVF, HCG, oestradiol, competitive radioimmunoassay 1057
ovarian hyperstimulation syndrome, serum concentrations, evaluation as clinical marker, prospective study 30
ovarian hyperstimulation syndrome, spontaneous pregnancy, triploidy, case report 2082
raised serum concentrations, polycystic ovaries, polycystic ovary syndrome, clinical study 651
Vasculature
corpus luteum, power Doppler, assessment of technique 2836
monochorionic placenta, fetal growth, amniotic fluid volume, twin–twin transfusion syndrome 2933
ovarian hyperstimulation syndrome, peripheral arteriolar dilatation, renin, sodium retention 2718
pre-eclampsia, soluble endothelial selectins, neutrophil activation 3537
testis, blood vessel distribution, azoospermia, differential diagnosis, colour Doppler 3090
uterus, contraception, implant users, Norplant, precise measurement of structures, hysteroscopy, menorrhagia 3190
vascular resistance, aorta, nitric oxide, pregnancy, gestational age, rat 214
veins, ovary, cultured veins, intimal hyperplasia, reduced by oestrogen, human postmenopausal serum 1449
Vasectomy
infertility, vasectomy reversal, IVF, ICSI, debate 1757
vasectomy reversal, second attempt, cost-effectiveness, comparison with MESA plus IVF/ICSI 387
Venous thromboembolism
combined oral contraceptives, WHO technical report, debate 2981
oral contraceptives, role of regulatory authorities, letter 2660
Vero cells
co-culture, preimplantation embryos, platelet-derived growth factor, IL-6, leukaemia inhibitory factor, TGFb, epidermal growth factor 1600
Vitamins
blastocysts, culture medium, glycolysis, mouse 991
vitamin C, vitamin E, spermatozoa, motility, acrosome reaction, infertility, debate 2984
Vitrification
preimplantation embryos, 8-cell mouse embryos, application to human IVF programme 2874

Weight
oligomenorrhoea, adolescence, gynaecological age, chronic non-specific lung disease, cross-sectional population study 2252
weight loss, assisted reproductive techniques, improved outcomes, prospective study 1502
Welfare
children, assisted reproductive techniques, ethics, legislation, debate 2339

X chromosome
deletion, premature ovarian failure, familial cases, cytogenetic screening 3039
X-linked immune deficiency, preimplantation genetic diagnosis, IVF, day 4 embryo transfer, successful outcomes 1656

Y chromosome
AZFb microdeletion, azoospermia, testicular sperm extraction, prognostic test 2812
AZFc deletion, azoospermia, oligozoospermia, testicular sperm extraction, ICSI, fertilization/pregnancy rates 3332
AZFc microdeletion, frequency in future generations, ICSI, mathematical model 2808
microdeletions, high frequency, Sertoli-cell-only syndrome, PCR 302
microdeletions, molecular diagnosis of AZF, debate 1764
sex preselection, Y sperm enrichment, ejaculation interval, letters 2658
sex preselection, Y sperm enrichment, sex ratios, hormonal influences, letter 2659
Y/autosome translocation, oligoasthenoteratozoospermia, ICSI, normal offspring, case report 2745

ZIFT
leiomyomata, matched case–control follow-up study, pregnancy delivery rates 192
Zinc
spermatozoa, seminal plasma, asthenozoospermia, raised intrasperm zinc, effects on motility 111
ZK 137 316
antiprogestin, endometrium, antiproliferative action, histology, rhesus monkey 269
antiprogestin, menstrual cycle, anovulation, amenorrhoea, rhesus monkey 259
chronic low-dose regimen, antiprogestins, contraception, rhesus monkey 2132
Zona pellucida
binovular zona pellucida, ICSI, normal development, two cases 2575
IVF, preimplantation embryos, assisted hatching, enzymatic treatment, blastocyst transfer, implantation rates 2926
partial zona dissection–insemination, ICSI, comparison, cynomolgus monkey 2555
sperm–zona binding, inhibition, glycoproteins, follicular fluid, hemizona assay 2541
Zona-free hamster egg penetration test
acrosome reaction, ionophore induction, various insemination concentrations, IVF, predictive value 624
IVF, ICSI, correlation 1928
Zygotes
cryopreservation, 8-year storage, live birth, case report 2970
cryopreservation, propanediol, formaldehyde, effects of contamination, mouse 979
